

The question of Taxation has become a very serious one all over the United States. The Federal Tax, and the State Tax, and the City Tax, all combined together, make, perhaps, as great a burden of taxation as any people in the world endure at this time.

Slavery has been abolished, so far as it was peculiar to the negro race in this country, and in its place a new kind of slavery, practically, has been extended over all classes. African slavery consisted essentially in the right to take all the profits of the labor of the slave, the master securing to him and his family a home, clothes and food.

The Infallibility of the Pope. From all accounts, the Papal doctrine of Infallibility is to find trouble for the great powers of Europe. The nations with which the Church has been so long connected, seem very naturally to conclude that they have some rights to be respected, and don't wish the Pope recognized as God's Vicegerent to bind and loose the consciences of his subjects.

The French Government, and also Austria, it is believed, has notified the Pope that his doctrine of Infallibility is not to be insisted on. France has given him to understand that if the Ecumenical Council ratifies the Infallibility dogma, that the French troops will be withdrawn from Rome and the Pope left to take care of his Government as best he can.

Dr. Burt and Rev. Mr. Wynn, the latter of the Methodist Church, will exchange pulpits on next Sabbath, 20th. Prepare well for gardening. Early vegetables will help the hard times much.

Mr. HELDMAN has a strawberry plant in bloom in his hot house. SELLIVAN & SON are still receiving Spring Goods. The State Editorial Convention meets to-day in Columbia.

S. J. DOWNEY, Esq., has removed to the residence he recently purchased. The Senior and Junior Editors of the Enterprise left this morning for below. The County Treasurer for Greenville, has collected up to the 15th inst., \$5,449.99 State Taxes; \$3,266.48 County Taxes, and \$220 Poll Tax.

The following Clerical has been received by Dr. J. M. HARRISON, Chairman of Board of School Commissioners, which are here for the benefit of school teachers, who have taught for scholars.

STATE OF SOUTH CAROLINA. Office of State Superintendent of Education, Columbia, March 15, 1870. To Dr. James Harrison, School Commissioner of Greenville County, S. C.—Dear Sir: You will please call on the original accounts or claims of Teachers for services actually rendered in teaching beneficiaries in your County during the year commencing October 31st, 1867, and ending October 31st, 1868, and forward them to this Office as soon as possible, where they will be transferred to the proper printed forms, and returned to you for further action.

When the term of school commenced. When the same closed or ended. The name of each beneficiary or poor scholar. The actual number of days' attendance of each of the aforesaid scholars. Such accounts or claims should be sworn to and subscribed by the Teacher rendering the services, and carefully examined by the School Commissioner of the County in which the services were rendered, in order to guard against fraud; and if such accounts or claims should be found to be correct and just, they should be so certified to by the said School Commissioner.

J. K. JILLISON, State Superintendent of Education. De voted by the Senate and House of Representatives of the State of South Carolina, now met and sitting in General Assembly, and by authority of the Senate, that the time within which the claims of teachers for services rendered during the year commencing October 31st, 1867, shall be presented for payment, be, and the same is hereby, extended to the first day of May, A. D. 1870.

State News. Hon. Judge Orr, who has been ordered to preside at the next term of the Court for Spartanburg County, has informed the gentleman of the Bar there, so we learn from the Spartan, that he will be unable to open the Court of Sessions before the first Wednesday after the third Monday of March, inst. The business will probably be disposed during that week, and the Court of Common Pleas called on the following Monday.

The Rural Carolinian. The March number of this sterling monthly is, as usual, promptly before, and fully sustains its reputation. It has several particularly noteworthy papers. "The Preparation of Land for Cotton," signed "Low Midding," which we believe is from the pen of General Johnson Hagood, of Barnwell, contains some most timely suggestions, backed by the necessary facts and figures.

Unusually heavy rains on last Saturday—it fell in actual torrents for near two hours. Dr. Burt and Rev. Mr. Wynn, the latter of the Methodist Church, will exchange pulpits on next Sabbath, 20th. Prepare well for gardening. Early vegetables will help the hard times much.

Mr. HELDMAN has a strawberry plant in bloom in his hot house. SELLIVAN & SON are still receiving Spring Goods. The State Editorial Convention meets to-day in Columbia.

Our Generals and our Railroads. Some one has said that the railroads are the backbone of the country, and that if the lines be severed, the whole body politic must suffer. A truer idea was never said, says the Rome (Ga.) Courier. If the railroads of any section are to be the backbone of that section, it is certainly to be regretted that they are not more generally appreciated.

General Beauregard, the chivalric Frenchman, holds a power scarcely less, through his New Orleans and Jacksonville railroads, and the power is growing. General Forrest is building the most important road now in contemplation in the country. He has as his superintendent General Walker, erst the chief of artillery in the army of Virginia. They will complete the road pretty soon if some extra does not happen, and will then have an air line from Memphis to the Gulf. Bull Duke is immersed head over ears in railroad topics, and many others, they do not now think of, are on the same subject.

Condition of Mexico. Every body knows what this is, when the United States Government under the lead of W. H. SEWARD, contrived the overthrow of MAXIMILIAN by procuring the withdrawal of the French troops. There was general rejoicing in the North at the establishment of republican government. Southern gentlemen and candid thinking men every where thought that it was the greatest misfortune that could have befallen that unhappy country, and a brief time has proved the correctness of such convictions.

Remored Death of Napoleon I. There is strange rumor in Paris, that the Emperor LOUIS NAPOLEON is dead, and that he has been persecuted for months by a bogus emperor who resembles him in person; the resemblance being made close by the aid of dress. A correspondent of the New York World gives all the circumstances upon which the rumor is based, and they make a plausible show of sustaining its truth; but the absurdity of the thing outweighs all the specious allegations that are put forth to sustain it.

Brave Words. A noble speech was delivered by the Hon. John Quincy Adams, of Massachusetts, at the dinner given by the Constitutional Club in Boston on Washington's Birthday. He hadly declared that the Radicals in Congress had grossly abused their power; that to perpetuate their party they had leagued together to destroy the Constitution. "I mean to say," added Mr. Adams, "and I say it with a sense of responsibility, that to day there is nothing of the old Constitution of our fathers left to us, except what was always understood and believed by them to be a mere incident of constitutional power, and that is the vote power."

THE INCOME TAX LAW REPEALER.—There is a serious misapprehension, says the New York Herald, in the public mind in relation to the Income Tax. Petitions are being sent to Washington for the repeal of the law. It should be distinctly understood that the Income Tax Law was repealed by limitation on the 31st day of December, 1869. The tax now being paid is for the year 1869. After it is paid no other income tax can be collected or assessed without the enactment of an entirely new law, which is not likely to be brought about. The repeal of the old law is final and unconditional. It takes effect as soon as the tax for 1869 is paid. A bill passed the House under the previous question gag rule of a few days ago, providing for the assessment and collection of an income tax for one year only, (1870) but it met with disastrous defeat in the Senate. It is not at all likely that Congress will put such a needless burden upon the people again in the face of the unanimous protest of the entire press of the country. The occasion that called for it is happily a day forever. Let us have no more income tax laws.
