

When This Was New York the First Step Was Taken In the Present Day Schlitz Process

MORE than 260 years of science are in Schlitz. Experiments in over a thousand laboratories guarantee its purity. In these days of "steepie chase" drinks, which are little more than experiments in velocity, Schlitz aging possesses great significance.

Schlitz concludes the process of fermentation in the brewery. Fermentation is the work of living organisms. But these organisms alive in your stomach will cause biliousness, flatulence, and a host of other ills.

Schlitz is thoroughly aged, fermented. Then it is sterilized by Pasteur's process through which no organism can live. These processes cannot be accomplished without time.

It takes months to create Schlitz. During these months the brew is made according to the latest dictates of science, based on discoveries dating back 260 years to Leeuwenhoek, the Hollander, who first used the microscope for examination of fermentation organisms.

After all this care in brewing, Schlitz is filtered through white wood pulp, put into sterilized bottles of Brown Glass to protect it from all possibility of deterioration.

The Drink That Made Milwaukee Famous

SELIG INSTALLS

WIRELESS PLANT

Thus He Learns the Correct Time Twice a Day

In order that every citizen of Elizabeth City may be correctly informed as to the time upon all occasions, an agency has been installed by Louis Selig, "town jeweler since 1882" by means of which he is now receiving the exact time by wireless telegraph from Washington, D. C., at noon and at ten o'clock P. M. each day. Frank Selig, now managing the store, admits that he can't read the clock and dashes as they are recorded by the wireless instruments, but he says that when they begin making a noise around the stated hours, he knows what time it is.

If you don't want to pay \$2 a year for your INDEPENDENT, join The 500 Club and get it at a dollar a year for ten years.

LESS DESERTERS Less than one THIRTIETH IN 1861-65 per cent of the 23,000,000 men who registered under the selective draft act during the world war have been found chargeable with willful desertion, according to a recent War Department statement. The actual number of deserters totaled 173,911, and this is stated to be a tremendous improvement over the similar record for the Civil War. The department will soon make public the names of those branded as deserters, and the help of the public is asked in apprehending them, though the reward of \$50 for the arrest of a deserter has been withdrawn temporarily.

GLANCING SHOT While in bathing HURTS BATHER at Virginia Beach last Sunday, Mrs. James Twiford, Jr. of Norfolk was the victim of a peculiar accident. It seems that a Mr. Spiegel was firing a 32 rifle at sea gulls, when one of the bullets ricocheted along the surface of the water, and struck Mrs. Twiford in the shoulder, inflicting a painful wound. Spiegel was arrested charged with reckless shooting.

BOLSHEVIKI PLAN Officials of CONQUEST OF WORLD the Bolsheviks are reported to have told Associated Press representatives at Kolno, Poland the other day that soviet Russia intends to seek an alliance with Germany, to make war on France, and eventually America. The Bolsheviks assert that they will conquer Poland within three weeks, and that they will then send a note to Berlin demanding right to transport troops across Germany. In the event of a refusal by the German government, the Red leaders are reported to have said that they will stage a revolution in Germany, set up soviet rule, and proceed with their plans of world conquest. Meanwhile, the Poles are still hanging onto Warsaw.

SUGAR TAKES Reports from New NICE DROP York indicate that a daily drop in the price of sugar may be expected now, as indications of falling prices continue to hold good. Raw sugar from Cuba is bringing lower prices, having fallen from 21 cents in May to 16 cents last week, and lower in some cases. Competition, hastened by the appearance of Western beet sugar on the market, will probably drive down the present figures, and predictions are being freely made that the fall will see a retail price for sugar in the neighborhood of 12 cents.

THREE BILLION For the third BUSHEL OF CORN time in the history of the United States, indications point to a corn crop of three billion bushels, according to the National Department of Agriculture. However, inasmuch as August is a critical month for the crop in the immense Middle West corn belt, it is still uncertain whether the promise of a crop equal to the enormous ones of 1912 and 1917 will be fulfilled. Spring wheat was hurt by rust in July, and the production forecast of the crop was reduced 29,000,000 bushels from the prediction of a month ago. It is believed that the fall potato crop will exceed 400,000,000 bushels for the fourth time in the nation's history. Prospects for tobacco are also extremely favorable, and a record-breaking crop is expected. Verily, the farmers have small cause for complaint.

PONZI NOW Charles Ponzi, of Boston, whose alluring promise of 50 per cent interest in 30 days brought him millions of dollars during the eight months he operated in the heart of the financial district of that city, is now lodged in jail in default of \$25,000 bond. Edward L. Priddy, auditor who has been going over Ponzi's accounts, declares that Ponzi's liabilities amount to more than \$8,000,000, while his assets, according to Ponzi himself, total about \$4,000,000. The police of Boston are now investigating the theory that Ponzi was only the "front" man in the sensational swindle.

ASK RECOGNITION Resolutions FOR IRISH NATION urging that the United States recognize the republic of Ireland without delay were forwarded a few days ago by supreme officers of the Knights of Columbus, a powerful Catholic organization, to President Wilson and Secretary of State Colby. The Knights of Columbus, as a body, the resolution said, "record their recognition of the Irish republic, as represented by its president, Eamon de Valera." The document scores the present recognition by the United States of British rule in Ireland.

MONUMENT TO THE A monument to WRIGHT BROTHERS the Wright brothers, pioneer American aviators, was unveiled at Le Mans, France, a few days ago, in commemoration of the first successful flight made by the daring aeronauts, which occurred at that city in 1908. The monument is the gift of Commodore Louis D. Beaumont, of Dayton, Ohio.

WILL RETURN TO Life among the SAVAGE ISLAND head hunters of Borneo is less exciting than life among the taxi drivers and gangsters of Chicago, according to Frederick Burlington, who, in company with his wife has just returned from the South Seas. Burlington states that he was so well treated by the savages in the wilds of Borneo that he is going to return there shortly. He says that weapons are almost unnecessary, one meeting with no difficulty unless he has wronged the natives or injured them in some manner. The absence of liquor is also noticeable, declares the traveller, who says that at native celebration the lack of wine resulted in the clipping of the heads of a couple of the celebrants to live up the affair. The offenders were promptly arrested, and sentenced to serve five years at hard labor. The purchase of land by whites has first to be arranged with the natives, and then with the Dutch government.

BIG FLOODS Four hundred persons in FAR JAPAN sons were drowned in the recent floods in Saghalien island, crops were destroyed, and two hundred houses were demolished, according to late dispatches from Tokio, Japan.

EARTH CRACKS Geologists and seismologists in the vicinity of Hutchinson, Kansas, are much interested in cracks in the earth reported to be appearing in Kiwa county. In one section crevices 12 feet deep, half

a mile long, and some three feet wide are said to have appeared recently. Attention was attracted to them by the finding of two steers in one of the cracks. The cattle were wedged in tightly, apparently having fallen in when the earth cracked open. Geologists generally agree that the strange phenomenon is due to extremely hot and dry weather and the counter effect of the subterranean supply of water. In Meade county, further west, the under supply of water is tapped by many wells.

LIVES LAWFULLY Karl Bauer, a WITH TWO WIVES discharged Austrian soldier, who, after having been falsely informed by a telegram of his wife's death, married another woman at Irkutsk, Siberia, where he had been confined as a prisoner of war, is now living with two wives and two children in the same house in Vienna. Return-

ing from Siberia to his Austrian home with his newly wedded wife, Bauer suddenly came face to face with his supposedly deceased spouse, immediately gave himself up to the police and charged himself with bigamy. His first wife followed him to the police station, and begged the chief to let him live with her and the new wife together. Consent was given, and now all are living happily under the same roof.

ERNEST L. SAWYER REMOVED

This is to give notice that on and after July 15, 1920 my law office, now on Main St. near the Southern Hotel, will be located on the second floor of the First & Citizens National Bank building.

ERNEST L. SAWYER,
p. Jy. 9-8c
Attorney-at-Law

"Every pair of Blue Buckles is always big, strong and comfortable."

(Signed) WILLIAM CLARK

From nothing a year to prosperity

What a successful farmer has learned about overalls

FIFTEEN years ago a farm hand without a cent to his name—today a prosperous farm owner near Greensboro, N. C.—that's Bill Clark's record.

There's hardly a working day in those fifteen years that Bill Clark hasn't put on overalls. Almost any time you go to his farm you'll find him in Blue Buckle Overalls.

He's found that Blue Buckles stand up under every farm job he's ever given them. And millions of other men, taking in the crops, keeping things

going in factories and on railroads—men everywhere who are doing real work—have found just what Bill Clark has about Blue Buckles. Blue Buckles always give them comfort and long wear.

The heaviest, toughest denim cloth goes into every pair. Blue Buckle Overalls and Coats are big and roomy. They are made so they can't rip. And every detail is given careful attention—has the best there is in union workmanship.

All sizes—Men's, Youths', Children's. Ask your dealer today about Blue Buckles.

Blue Buckle Overalls

Biggest selling overall in the world

Yes Sir-ee!

We made this cigarette to meet your taste!

Camel

CIGARETTES
