SUMMER SCHOOL WILL BEGIN HERE MONDAY

For Teachers Of Currituck, Camden, Perquimans and Pasquotank Counties.

A joint County Summer School for the teachers of Currituck, Camden, Pasquotank and Perquimans Counties will begin at the Elizabeth City High School auditorium at 9 o'clock Monday morning, and will continue for six weeks. Two competent instructors have already been secured, and others will be employed if they are found necessary.

Many teachers have already notified Supt. M. P. Jennings, of Pasquotank, of their intention to attend this Summer School, and a very good attendance is indicated. The school will be under the general supervision of Miss Hattie Parrott, of the State Department of Education. Teachers who wish assistance in getting board here should communicate with Supt. Jennings at Elizabeth City at once.

POTASH FROM VANCOUVER.

There is a reputed discovery of potash on Vancouver island. Previous to the war Germany produced 7,800,000 tons of potassium salts, which occur in that country in a form so easily mined that other countries, whose deposits were contained in rock foundations, were unable to compete with German trade. Germany, therefore, held the world monopoly, deriving an annual income of 6,000,000 pounds from the product. The quantity taken by Canada in 1913 was 5,200 tons. It is known that there are vast deposits containing as much as 16 per cent of potassium occurring in eastern Canada and the Rocky mountains.

The North Carolina Optometric convention met in Greensboro this week.

Think This Over.

"De man dat insists on havin' his own way," said Uncle Eben, "sometimes winds up by havin' dat an' nothin' else."

Food and Health.

"The buoyancy of health is a real enjoyment. Strength, mental vigor, vivacity and good nature spring from good digestion; good digestion is secured only from eating and drinking proper quantities and qualities of food and liquid. It is possible to enjoy buoyancy of spirit and a good appetite every day."—Exchange.

How 'Home, Sweet Home' Was Written John Howard Payne, the author of "Home, Sweet Home," was an American minstrel who wandered all over the earth, practically. After the death of his parents, when he was twelve years old, he never had a real home, and at the time of writing the song he was stranded in Paris, a foreign land, away from all the friends he held dear. He wrote the song on a dreary day in October, 1822.

ARCHITECTS TO SUBMIT PLANS

And Contracts To Be Let At Once For State Normal Buildings.

W. O. Saunders was elected to succeed himself as Chairman and W. G. Gaither was elected Secretary-Treasurer of the Board of Managers of the Elizabeth City Colored State Normal School at the annual meeting of the Board held in this city Monday, June 13. Under the new administration of this school the offices of secretary and treasurer are combined. T. J. Markham and W. L. Cohoon were formerly secretary and treasurer respectively.

Under the re-organization of the state normal schools the school at Elizabeth City now has a board of only five managers where it formerly had seven. The members of the new board are W. O. Saunders and W. G. Gaither of Elizabeth City; T. S. White of Hertford, S. I. Harrell, of Sunbury, and Prof. N. C. Newbold, State Director of Negro Education.

There are three colored normal schools in North Carolina, one at Elizabeth City, one at Fayetteville and one at Winston-Salem. The last General Assembly of North Carolina appropriated approximately a half million dollars for building improvements for these schools. The school at Elizabeth City will have approximately \$180,000 available for new buildings on July 1, 1921. In addition to this sum the school will receive its pro rata of a fund of \$125,000 for school equipment recently allotted the Negro State Normal Schools by the General Education Board of New York City. The generous bequest from the General Education Board enables the school to spend every dollar of its building fund in building alone, all equipment and furnishings to be taken care of out of the special fund.

Architects and engineers will be called in within the next few days to make tentative plans for new buildings and suggest the locations for them. The building program includes the enlargement of the present administration building and auditorium, the erection of a boys' dormitory to cost \$50,000, a practice school to take care of pupils below the eighth grade, a dining room and kitchen, a building for industrial training and a dormitory for the principal and teachers. No time will be lost in securing plans and letting contracts for these buildings.

Prof. P. W. Moore, for many years principal of the school, was re-elected for the term of 1921-22 at a salary of \$2,500 a year. The maintenance fund allowed the school by the last General Assembly was \$23,500 a year, more than double the allowance of \$11,000 last year.

NATHANIEL BEAMAN, BANKER, DIES SUDDENLY

Was a Native of North Eastern Carolina As So Many Norfolkins Are

Nathaniel Beaman, a former North Carolinian, for 30 years president of the National Bank of Commerce of Norfolk, Va., died suddenly at his home in that city Wednesday afternoon, following a heart attack. Nathaniel Beaman was well known in Elizabeth City and throughout northeastern North Carolina and news of his sudden death came as a shock to many here.

Mr. Beaman was born in Murfreesboro, N. C. in 1839. He moved to Norfolk in 1880 and engaged in the wholesale grocery business. In 1891 he became the head of the National Bank of Commerce of that city. He headed the Bank of Commerce as his first official connection with the banking business when that institution had a capital of \$100,000, deposits of \$300,000 and practically no surplus at all. At the time of his death this bank was capitalized at \$1,200,000, had a surplus of \$1,300,000 and deposits of \$15,000,000.

Rome.

The traditional date for the founding of Rome is 753 B. C. Rome has been described as a city-state. It was at one time recognized as the capital of the ancient world. Since 1871 it has been the capital of modern Italy. The city is distinguished for its vast ruins, its many historical gates and its monuments, both ancient and modern. Rome is inclosed within a circle of forts 30 miles in extent.

The Decision

Already the decision of careful purchasers has been registered in Harris' Clothes.

Buying indifference has passed—and now, a necessity such as a suit of clothes must bear a searching analysis for value.
