

FUNS, FROLICE AND THRILLS
WHEN COAST GUARD COMES

(Continued from Page 9.)
day until around four o'clock, when an auto excursion will be given to the life savers over the paved road to Weeksville. The crowd will return in time for a baseball game between the Elks and Red Men on the west Main Street diamond at 5:30. The day's events will conclude with a lawn fete given by the local chapter of the Daughters of the Confederacy on the court house grounds Wednesday night.

Among the official visitors expected for the Surfmens' Meet are Commodore Reynolds, of the United States Coast Guard, Capt. W. C. Wishear, of the Coast Guard Aviation Station at Morehead City, and perhaps Col. Theodore Roosevelt, Assistant Secretary of the Navy. Some of the officials and many of the attending Surfmens will bring their wives and families with them, and a Ladies' Committee has been appointed to look after their comfort and entertainment.

Every Place To Dress Up.

The Decorations Committee specially requests that every store and office building, and all the homes in this city, be decorated for the Surfmens' meet. The people are asked to attend to the decorations Monday, so that the first arrivals early Tuesday morning will find Elizabeth City welcoming them in gala dress.

M. P. Hite, of the Construction and Repair Department of the Coast Guard, and secretary of the Surfmens' Mutual Benefit Association, and Capt. R. T. Crowley, Superintendent of the Seventh Coast Guard District, whose headquarters are at Elizabeth City, are directing the arrangements for the meet. They are being assisted by Secretary Job, of the Chamber of Commerce, by the Merchants' Association, and by other civic organizations of this city.

While much of Tuesday's stunts will be in the nature of routine duties to the Surfmens themselves, the events of the day will be new to landmen, and many hundreds of visitors other than life savers are expected here on that day, for the demonstrations and drills incident to the saving of lives on the seas under storm conditions. Some of the day's doings—for instance, the hydroplane maneuvers and the baguet—will more directly interest the life savers themselves, and their families. The Hartford-Edenton baseball game will be a universal attraction, for every red-blooded American loves the Great National Pastime. Special efforts will be made to the end that the Surfmens and their families, the city's guests, fully enjoy every moment of their stay at Elizabeth City.

The following committees have charge of arrangements for the two-day meet: River Entertainment, Dr. J. D. Hathaway, M. P. Hite, O. F. Gilbert, and Brad Sanders; Banquet, A. R. Nicholson, M. G. Morrisette and F. M. Grice, Sr.; Decorations, D. Walter Harris, W. C. Sawyer, and T. T. Turner; Program and Tickets, W. H. Weatherly, Sr. and W. P. Duff; Publicity, Dr. J. W. Selig, W. O. Saunders and Ralph Pool; Automobile Committee, Miles L. Clark.

NEW ICE CREAM FACTORY
IN OPERATION THIS WEEK

Elizabeth City Has A Thorough Modern Hygienically Equipped Ice Cream Manufactory

The Wineke Ice Cream Co., Elizabeth City's newest industry, begins operations this week, after completing the installation of the most modern pasteurizing, freezing and cold storage equipment to be found in eastern North Carolina. Mr. Wineke has spared no expense in building and equipping a plant for the manufacture of ice cream. The purity of the product is safe guarded at every step of its manufacture from the time the raw cream enters the pasteurizer until the cream is packed in sterilized cans of pure black tin and put to harden in a cold storage room where the temperature is kept at 15 degrees below zero. The product of the Wineke Ice Cream Co. will be sold under the name of Winecream. Pronounce it Wine-cream.

A QUERY.

"I say old top, why don't you get one of those hornless model talking machines?"

Immense Cake.
Eight hundred eggs, eighty pounds of flour and sixty-five pounds of sugar were among the ingredients used to make a mammoth cake which was presented to the founder of the San Francisco local of the United Commercial Travelers at the recent silver jubilee celebration of that organization. The cake was thirteen feet in circumference and weighed 354 pounds.

Device That Saves Gas.
A woman's invention to save gas at the gas range makes the weight of pot or kettle on the burner throw open a valve which permits the gas to burn full force, while with the removal of that weight the valve closes to a point where it cuts off all the gas except an amount barely sufficient to support a pilot light.

Chinks Changing Their Footwear.
The Chinese are gradually adopting the European style of footwear. At the present time almost 40 per cent of the footwear in China is reported to be of European make.

Nothing in It.

Self-determination seems to have been an empty promise, as a large majority of the married men are ready to admit.—Exchange.

McCABE & GRICE

ELIZABETH CITY, N. C.

\$5 to \$12.50

Bad Experience?
Flatulency is the best cure for a stiff neck. It will turn almost any head.—Cartoons Magazine.

Jud Has the Right Idea.
Jud Tunkins says an idle life is content with the blossoms of fancy without waiting for the fruits of achievement.

Line the Linoleum.
When purchasing linoleum for the floor it is a good idea to order a lining of felt. This precaution will probably prolong the use of the linoleum. It also deadens sound and makes the floor warmer in winter. It prevents the linoleum from expanding or contracting and it gives a softer tread, all advantages worth considering.

MANY TEACHERS ARE
ATTENDING SCHOOL

And Prospects For A Successful Summer School Here Are Very Good

A six-weeks' consolidated Summer School for Teachers began Monday morning at the Elizabeth City High School, for teachers of Currituck, Camden, Perquimans and Pasquotank counties, and the number of teachers enrolled is an interesting commentary upon the trend of many into the educational profession at a time when employment in other occupations is not as lucrative or as easy to find as it was before hard times hit the country.

The Summer School is under the general supervision of Miss Hattie Parrott of Kingston, a member of the State Department of Education, and herself a teacher of long experience. Superintendent M. P. Jennings, head of the Pasquotank County school system, is Director of the Summer School, and the instructors are Miss Eleanor Husk, of Fayetteville, Miss Hattie Harney, of Elizabeth City, and Superintendent Stevens, of Camden county, for many years head of the English department of Staunton Military Academy.

New State certification rules, upon which salary schedules are based, have been instrumental in inducing many teachers to attend summer schools this year, that they may raise their certificates and get the maximum salaries paid. The attendance at the summer school here is considered very good, and its directors are highly pleased with the start made this week.

Artificial Limbs.
Artificial arms and legs were, it is believed, used in Egypt as early as 700 B. C. It is said they were made by the priests, who were the physicians and surgeons of those days in the land of the Nile, and the limbs were well constructed.

Cheap Power.
A scientist has asserted that there is enough latent energy in one's little finger to run all the trains in the United Kingdom for a few minutes. Now, if somebody would invent a vest-pocket dynamo to enable a man to make use of this energy we'd all be in clover.

Begins Saturday, June 25th—Lasts Until Wed., June 29th—

Our June Sale Means
A Saving for You

These items are taken from each department of our store and are especial values in goods that you need right now.
