

THE PRESIDENCY. Candidates of the Peace Democracy to be Nominated. M'CLELLAN HOPELESSLY REPUDIATED. Another Convention to be Held.

New Movement. We are happy in being able to state that preliminary steps are being taken by the friends of the Peace Democracy to call a National Convention of the Democracy, to place in nomination candidates for President and Vice-President.

Our Position. It is not our purpose to be withdrawn at this moment, by personal resentments or self-interest, from the exclusive duty which we owe to the great cause of humanity and peace. Nor do we propose at any time, except in so far as we may be absolutely unavoidable, to strike at our friends, or to follow the course of any candidate whom they are supporting, in the temper and spirit with which it seems their policy to attack the proprietor of this journal.

The World of yesterday, with characteristic duplicity and feebleness, attempts to delude its readers into the belief that the only objection of the peace party and ourselves to General McClellan is what it calls "his Unionism." No one knows better than the editor of the World that this is a dishonest and unworthy clap-net.

TO-DAY'S WASHINGTON NEWS. Special Despatches to Evening Telegraph. WASHINGTON, September 13. No Army News.

There is nothing new from Sheridan. The Victory in Maine. A despatch from Congressman Blaine to Mr. Stanton says Maine's Union majority is larger than that of last year, and that all the Union Congressional candidates are elected.

General Sherman ill. General Stanton lies dangerously ill at Wilson's Landing. Vallandigham. A private despatch received here to-day states that Vallandigham considers all safe. Rightly interpreted, this means that all is safe.

Foremost at Mobile. Information has been received here that the notorious guerrilla Forrest has turned up with his command at Mobile. This will prevent his capture by Sherman.

General Fremont. Information has been received, it is received, to the effect that General Fremont has placed his letter of withdrawal in the hands of his friends, who will make it public as the proper time, and that before long.

Engines for Gunboats. The whole force at the extensive machine shops in the Navy Yard, heretofore at work upon great guns, are now exclusively employed upon engines for gunboats, a very fine double engine being now in hand.

From Grant. Colonel Bowen, Adjutant-General of Grant's Staff, arrived at 11 o'clock last night, twenty-four hours from the Army of the Potomac, on short leave of absence. Everything was quiet around Petersburg. The army is reported in capital spirits and condition. The scanner on which Colonel Bowen came was nearly felled in a storm.

Missouri. A delegation of influential gentlemen from Missouri are now in the city, who think they will be able to harmonize all local differences between the Claybacks and Radicals of the State. They have had an interview with the President, which has been most cordial and satisfactory. The executive branch of the National Union Committee is now in session here, completing the work of organizing for the Presidential canvass.

Changes in the Ordnance Bureau. The delay of the War Department in announcing the late changes in the Ordnance Bureau grows out of a claim made by certain officers to be promoted to the position of chief, who have been overruled by the proposed nomination of Major Dyer. It is understood that the War Department has decided adversely to the claim, and that the orders reorganizing that bureau will at once be promulgated.

Cotton Trade. Parties who arrived from New Orleans by the last steamer are endeavoring to obtain a modification of the policy of the Government in regard to the cotton trade in Rebel districts. They allege that parties would dispose of their stock to Yankees, and thus weaken the basis of the Confederate loan. Secretary Stanton is, however, firmly opposed to the business.

Port Sumner. Colonel Dana, of the 14th Pennsylvania Regiment, who has just returned from under fire at Chancellorsville, reports that he was assured by parties who had been out to Fort Sumner, that it was rapidly settling, and in a very short time it was believed the water would enter the lower tier of embrasures. It is a fact well-known to our engineers that this fortification was erected upon quite a thin point of sand, which strata of sand rested upon a soft, pulpy mass of debris.

John A. Lowell, of Boston, has made a reputation for himself, as a writer, and is valued at \$100, to be contested for by the baseball clubs of New England, the winners to hold the ball till season.

A perfect hand, formed of nimble clouds, in an otherwise cloudless sky, was seen at Biddeford, Maine, on Wednesday night. It appeared in a northwesterly direction, and the fingers pointed eastward towards the zenith.

THIRD EDITION. DRAFT IN PENNSYLVANIA. To Take Place Next Monday. TWENTY THOUSAND MEN TO FURNISH.

Special to The Evening Telegraph. HARRISBURG, September 13.—An official despatch received here to-day from Provost Marshal-General Fry, fixes next Monday for the draft in Pennsylvania. We will have some twenty thousand men to supply.

FROM PETERSBURG. Details of Friday's Success. INFUX OF REBEL DESERTERS. Special to The Evening Telegraph.

WASHINGTON, September 13.—The mail-steamer Daniel Webster, from City Point, reports the situation at the front unchanged since Friday night. In the fight on that day we captured ninety prisoners, and killed a considerable number of the enemy. Our loss was fifteen killed, wounded, and missing, including three officers.

We still hold the skirmish line captured that night, and the enemy has shown no disposition to make another contest for it. Eight Rebel deserters from Hill's corps came up on the Daniel Webster. The recent order of General Grant, offering protection to deserters from the Rebel army, and promising to furnish them with employment out of the reach of the Confederate authorities, has had an excellent effect, and squads of them come in daily.

The Rebel officers experience great difficulty in keeping their men upon picket posts, for they generally embrace that opportunity to desert.

The Gold Market. New York, September 13.—Gold opened this morning at 218 and at 12 o'clock stood at 223.

TO-DAY'S WASHINGTON NEWS. Special Despatches to Evening Telegraph. WASHINGTON, September 13. No Army News.

The City Point boat brings no army news. Governor Anderson and Governor Smith, of Vermont, arrived to-day. Sheridan. There is nothing new from Sheridan.

The Victory in Maine. A despatch from Congressman Blaine to Mr. Stanton says Maine's Union majority is larger than that of last year, and that all the Union Congressional candidates are elected.

General Sherman ill. General Stanton lies dangerously ill at Wilson's Landing. Vallandigham. A private despatch received here to-day states that Vallandigham considers all safe. Rightly interpreted, this means that all is safe.

Foremost at Mobile. Information has been received here that the notorious guerrilla Forrest has turned up with his command at Mobile. This will prevent his capture by Sherman.

General Fremont. Information has been received, it is received, to the effect that General Fremont has placed his letter of withdrawal in the hands of his friends, who will make it public as the proper time, and that before long.

Engines for Gunboats. The whole force at the extensive machine shops in the Navy Yard, heretofore at work upon great guns, are now exclusively employed upon engines for gunboats, a very fine double engine being now in hand.

From Grant. Colonel Bowen, Adjutant-General of Grant's Staff, arrived at 11 o'clock last night, twenty-four hours from the Army of the Potomac, on short leave of absence. Everything was quiet around Petersburg. The army is reported in capital spirits and condition. The scanner on which Colonel Bowen came was nearly felled in a storm.

HONOURED WITHDRAWAL OF GENERAL FREMONT. NEW YORK, September 13.—It is said that General Fremont has placed in General Chester's hands a letter withdrawing his name from the Presidential canvass, and giving as his reason for so doing the well-known fact, that any success on his part would injure the Union party, and assist the Democrats. It is supposed that this letter will appear in the New Nation on Saturday next.

FOURTH EDITION. FROM HAVANA AND MEXICO. NEW YORK, September 13.—The steamer Houston, from Havana on the 8th inst., has arrived, with dates from the city of Mexico to the 29th ult. and Vera Cruz to the 1st inst.

General Mejia's said to be marching on Matamoros. Various skirmishes are reported in which the French are usually victorious, but no reliance can be placed in these reports.

The Mexican vessels Escudador and Mercurio had been captured at Anapulo, and the French are making no more headway in Santo Domingo than the French are in Mexico. They suffer severely from sickness.

The Rebels at Puerto Plata had been attacked and driven out of their fortifications, losing ten guns; on the other hand, the Rebels say they lost only one gun, and hold three forts.

A cargo of slaves was successfully landed near Remedios last week.

THE WAR ON THE MISSISSIPPI. St. Louis, September 13.—The officers on board of the despatch boat, which arrived at Cairo yesterday, report that fifteen hundred Rebels are concentrated at the mouth of the Red River.

FIRE IN MASSACHUSETTS. WORCESTER, Mass., September 13.—The report from the despatch boat, which arrived at Cairo yesterday, report that fifteen hundred Rebels are concentrated at the mouth of the Red River.

NOMINATION OF EX-GOVERNOR BIGLER FOR CONGRESS. PITTSBURG, September 13.—Ex-Governor Bigler has been nominated for Congress in Clearfield county.

INTERESTING FROM WASHINGTON. Special to The Evening Telegraph. WASHINGTON, September 13. Secretary Seward has returned to Washington from his visit to the North.

The Treasury. There is official authority for contradicting the report that Secretary Fessenden had decided to place a temporary loan of \$50,000,000 in the market.

The New Loan. A review of the bids for the loan of 1851 shows that the whole amount is taken at a premium of four per cent. and upward. The large amount bid was exceedingly gratifying, as the Treasury Department had not dared to hope for an aggregate of more than forty-five millions. The delivery of bonds began yesterday, and will be completed in ten days.

Refuting Old Thirty-Two. A number of the old 32 pounders are now being rifled at the arsenal. These guns are not reformed, as was proposed some months since by the Ordnance Bureau, and their endurance, even if they were, is considered doubtful by skilled mechanics. It has been established that these guns are unserviceable without reinforcements, and the question naturally arises, what office is responsible for proposing and ordering this change? It is to be hoped that none of them will be mounted in our forts, lest our soldiers should suffer more from the bursting of them than from the enemy's projectiles.

What Does McClellan Mean? Considerable curiosity is manifested here to know what General McClellan means by the following sentence in his letter of acceptance:—"The Union is the one condition of peace."—"The Union is the one condition of peace."—"The Union is the one condition of peace."

The Sponsors of Harvard displayed their indignation at the suppression of their annual game of football by the Faculty last Monday evening by a procession round their playground, a mock funeral of their favorite game, a transparency, and a small skirmish with the freshmen and faculty, in which some of the college officers were actively broted.

AN APPEAL.—The 10th Regiment Pennsylvania Volunteers, which arrived here in August last, and some of the soldiers belonging to the 25th Reg't Pennsylvania Volunteers, who have been held in the city of New York, for nearly seven weeks, are not yet mustered out of the service. Will the proper mustering-out officer be condescending enough to grant these men leave of absence, to visit their families, and visit their wives and little ones? It is hardly courteous, to say the least, that these men should be compelled to await the bounty of the House of Representatives any longer.

THE WIDOWS OF SEWING WOMEN.—At Cater Hall, South street, below Sixteenth, a meeting of sewing women was held last evening, for the purpose of encouraging the formation of Unions for the protection of their interests. Addresses were given on the subject, and measures adopted to carry out the proposed object.

SOLDIERS' UNION CAMPAIGN OFFICERS.—Last evening a monster mass meeting of officers and privates of the army was held at Sanson Street Hall, for the purpose of forming an organization to be a component part of the Union Campaign Club. The hall was crowded at an early hour, and a majority of the audience consisted of soldiers who were weather-beaten and scarred faces proclaimed them to be veterans who had faithfully and devotedly battled for the honor of their country. After a short speech by Gen. Seward, the President, Colonel Wm. A. Gray, Major J. B. Haven, and a series of resolutions, in which the present Administration was fully condemned, and the wish expressed that it might be continued, the following resolutions were adopted, and the meeting adjourned.

The following Committee of Superintendence was next announced by the President:—Colonel F. E. Miller, Colonel John G. Bennett, Richard Ellis, Major A. J. Sellers, Major C. C. Knight, Quartermaster William T. Galt, Quartermaster John H. Allen, Adjutant J. H. Allen, Captain J. B. Haven.

On motion, the President was added to the committee. The vast assemblage then adjourned with great cheer, the line was formed, and the march was taken up for the National Club House, where the parade was dismissed.

Any soldiers or sailors desiring to join the National Club House, No. 1155 Chestnut street, in Philadelphia, should apply to the Secretary of the Club, who will be opened in the Commonwealth Building.

EXTENSIVE OPERATIONS AT THE SHIP YARDS.—On the 13th of next month the frigate Chattanooga, now under way to the ship yard of Cramp and Sons, Kensington, will be ready for launching. This frigate is one of four ordered by the Government, three of which are being constructed at the Navy Yards. The Chattanooga is 115 feet long, 40 feet beam, and 24 feet depth of hold. She is fitted with 17 guns, and will be ready for service in ten days.
