

MATTERS OVER THE RIVER.

AN ACTIVE CANDIDATE.—The unusual activity manifested by the politicians of Camden county and county indicates a warm and vigorous campaign.

Fortunately, however, for the party, his career as State Senator is ended, and it now devolves upon the citizens of Camden county to make choice of a new Senator whose talents, character and attainments are both sides to win.

THE VETERANS MOVING.—The brave soldiers who entered the army from Camden county and who have fortunately returned, have displayed great zeal in forming themselves into an Association for their mutual benefit.

AFTER THE DOGS.—The "catchers" are about, and many poor unnumbered canines have suffered the penalty of their owners' only in not complying with the ordinance and the Mayor's proclamation.

ADJOURNED.—The longest term of Court ever held in Camden county has just adjourned, greatly to the relief and gratification of the Judges and all concerned.

AMUSEMENTS.

FREE CONCERTS FOR THE MILLION.—Those of our citizens who belong either to the "St. Ignace" or "Can't-get-away" clubs, may avoid an evening's absence from their homes by attending the concert given at 726 Vine street.

ARCH STREET THEATRE.—Miss Henderson is determined to vary on a her usual style, and will this evening give "The French Spy," to which all actresses appear to cling with faith and fondness.

WALNUT STREET THEATRE.—Mr. Booth will this evening give "The Abolition," a part in which he displays immense power.

WE UNDERSTAND THAT Mr. Tilton takes a benefit at the Chesnut Street Theatre on Wednesday next. Mr. Tilton, after a long residence amongst us, leaves us and should take away pleasant remembrances of Philadelphia.

NEW AMERICAN THEATRE.—There will be a matinee at this theatre. It is the last appearance of the Hanlon Brothers. On Monday Mrs. Ponsi will make her first appearance in a new play.

STEAM ENGINE PACKING

LUBRICATIVE PACKING, FOR THE STUFFING BOXES OF STEAM ENGINES.

An article recommended by all Railroad Companies, who have thoroughly tested it, and in general use by over five hundred other Railroads, and on trial by every five hundred other.

ADOPTED BY 20,000 STATIONARY ENGINES. 1 is a first-class article.

COLTON DENTAL ASSOCIATION.

AN AMUSING STORY.

By One who Visited the Colton Dental Association.

"Alighting from the omnibus which has brought us up through Broadway's hurrying throng, which seem ever to be mocking phantoms that elude their grasp, we read the marble steps of the 'Cooper Union'.

"Every one beyond the tolling doors—'ay, there's the bell'! But at the kindly face and pleasant voice of the Professor greet us, our errand seems short of halftimes. Yet we cannot forbear asking, as we present our credentials and look timidly up at the compassionate dark eyes so far above our own diminutive stature, 'Will you see that our time has not yet come; and we comply with the invitation to enter the operating room, with our two accompanying friends (the fair face of one assumes the hue of driven snow), with very much the feeling that the fly accepted the proffered hospitality of the spider.

"We are aware of it we are seated in the dreaded chair, engaged in a pleasant conversation, suddenly a sharp and indelicate between our jaws, and the mouthpiece of a villainous looking black bag between our lips. Two pair of hands, so gentle in their manipulations as to almost lead one to doubt their owners belonging to the masculine persuasion, hold our mouth upon the pipe that the inhalation of the gas may be more perfect, while the owners of the most delicate hands speak in words of encouragement. The soft hand of a lady assistant is laid assuringly on our own, and we can almost feel the suppressed anxiety of the two beloved companions behind the chair. A buzzing sound, as of myriad swarms of bees! Anon comes floating by, in grand measures and long-drawn cadences a sweet old hymn, such those they sing who have, having finished their labors, entered into the glory of the Lord; and mingled with this, a wild symphony of wailing wails, ringing their ceaseless never more. Yet how strange that last word of the hymn gave us a slight twitch, followed by two more, which partook of the nature of a strong yet painful wrench. 'Your teeth are out,' say three and voices. But we have not come down yet to this subliminary world sufficiently to comprehend their meaning, until the assurance is repeated by one of the same lady behind the chair. 'We see a new being and leave at the feet of the kind operator fifteen minutes and incisors—a tribute to the greatest discovery of the age.

"MARRY N. ROCKWELL."

DR. COLTON has made the Nitrous Oxide, or 'Laughing Gas,' for more than twenty years, and originated its anaesthetic use for the extraction of teeth in May, 1863. Since then we have administered it to over 15,000 PATIENTS.

Without a single failure to produce insensibility to pain, or one case of unpleasant or injurious effects from the gas, which is so incident to chloroform and ether. Every one of these 15,000 patients has assured a certificate of approval that the operation was painless and pleasant. We can extract from ten to fifteen teeth with one dose of gas.

The following are the names of some of the distinguished persons or whom we have extracted teeth with the gas, and to whom we would confidently refer:—

PHILADELPHIA: Carper Souder, Ed.; Mrs. M. C. Ripsham; George F. Garrison; Mrs. Mary U. Holmes; Rev. A. J. Hamilton; Mrs. F. Fisher; Rev. A. J. Hamilton; Mrs. S. B. Whiting; George H. Street; Mrs. H. B. Weaver; William W. Brock; Mrs. J. E. Lewis; Rev. George Brinckman; Mrs. James J. Allen; Charles F. Bickel; Mrs. Charles G. Hinton; George B. L. Clay, M. D.; Mrs. E. S. Davis; Emanuel Kremer; Mrs. Anna J. Rutter; A. Turpin; Mrs. Anna J. Rutter; John Berry; Mrs. E. K. Elenbreary; Frank W. Newbold; Mrs. Dr. Bonner; George H. Mitchell, M. D.; Mrs. Seth R. Thompson; A. W. Rounsville, M. D.; Mrs. Mary E. Knapp; F. U. Wood (35 years old); Mrs. Miss Fannie Knowles; A. M. Moore; Mrs. Miss Fannie Knowles; D. W. F. Rivenes; Mrs. T. M. Moore; N. C. Herbert, dentist; Mrs. Hannah Phillips; John S. Crombinger; Mrs. Nellie Wilson; J. F. Belver; Mrs. Sarah D. Tomlinson; Thomas S. Harrison; Mrs. Anna Taylor; Co. one of Lewis Wagner; Mrs. Mary Mitchell; J. A. McArthur, M. D.; Mrs. Juliette S. Roberts; Alexander G. Cattel; Mrs. Rebecca W. Arntsen.

NEW YORK: C. R. J. Abgren, U. S. N.; Mrs. Rev. Wm. Anderson; J. A. Howard, M. D.; Mrs. Rev. Wm. Anderson; John B. Johnston, M. D.; Mrs. George Sherman; H. Hollek, M. D.; Mrs. Carrie Bodine; H. O. Jones, M. D.; Mrs. George H. Harper; B. L. Watt, dentist; Mrs. S. M. Beard; E. D. Rohie, U. S. N.; Mrs. Ella P. Allison; W. W. Ramsey, dentist; Mrs. J. W. Adams; Rev. Charles C. Painter; Mrs. George F. Norton; Rev. D. H. Emerson; Mrs. James H. Milk; Richard C. Dean, M. D.; Mrs. Rev. William McKie; John J. Mitchell, M. D.; And, four or five thousand others.

Many of these patients have written sentences opposite their names, the following of which are specimens:— "Without the slightest pain—an unanticipated dream.—By a Foreign Minister of State.—'Come from London—would come from England'—'though I was going up in the air, holding on to the tail of a kite.—'A good thing, if a man can have his teeth drawn without knowing it.—'Also they did not know it was done till done.—'Twenty teeth extracted without the slightest pain, with one dose of gas.—'No more old-fashioned dentistry for me.—'My second operation with the gas—have tried ether—merely recommend the Nitrous Oxide.—'Very pleasant result.—'Was weak and nervous, received no pain, but wonderfully refreshed afterwards.—'I endorse all written above.—'A pleasant ride on the cars.—'A great improvement in the barbarous art of dentistry.—'Should never have a tooth drawn without it.—'God bless the inventor.—'But it will be asked, does it draw all pain? Is the gas pleasant to breathe? Does it leave any bad effects afterwards? Can a person with weak lungs or heart disease inhale it with safety? We answer, it does draw all pain; it is pleasant to breathe; it leaves no bad effects afterwards; a person with weak lungs or heart disease may inhale it with safety; it is safe for those having weak lungs or heart disease. Indeed, we have had fifty such patients tell us they felt better for a week after inhaling the gas.

But what do the medical profession say of the gas? The following letter from the distinguished surgeon, Dr. J. M. Carrozza, to Dr. Colton, speaks for itself:— "No. 14 East Sixteenth Street, New York, December 27, 1865."

To you is due the credit of reviving the use of this important agent in the practice of dentistry after a lapse of twenty years.

The value of a safe anesthetic agent, which can be used without anticipation of danger to the patient, is a great boon to suffering humanity and I have related that fully in a lecture in my own cases in the belief that similar favorable results are met with by others. The Nitrous Oxide gas will supersede all other anaesthetics in use.

J. M. CAROZZA, Surgeon-in-Chief to the State Hospital, etc.

TESTIMONY FROM DR. GRISCOM. New York, March 8, 1865.

Having occasion recently to perform a minor surgical operation of much severity, I embraced the opportunity to try the anesthetic effect of nitrous oxide gas, administered by Dr. J. M. COLTON. I found it perfectly satisfactory. I was put into a sound sleep in a few seconds and remained so until the operation and dressing of the wound were completed. While looking for the incisions to begin, I found they had all been done.

Physician to New York Hospital.

The degree of insensibility produced by the gas may be inferred from the following:— AMERICAN INCIDENT. A lady came to our office to have one tooth extracted. After examining the tooth, we administered the gas, and when she fell asleep the tooth was extracted. In waking she spit out the blood, and in a few minutes was asked to vacate the chair for another patient, and take a seat at the table. Not at all surprised, we sent a reminder, asked her to add her name to our credit, and she said, 'I don't know, when are you going to draw my tooth?' The tooth had been out ten minutes!

TESTIMONY FROM THE NEW YORK EVANGELIST. 'We are slow to believe in the efficacy of new remedies that are offered to the public, but the frequent testimony of clergymen and others of our acquaintance assures us that Dr. COLTON, whose office is in the Cooper Institute has at last found a means of extracting teeth absolutely without pain. We think it a duty to publish this fact, which we give, not on our own experience, but on the testimony of men of high character and intelligence, who are utterly incapable of deception.'

Our price for extracting is \$1 for the first tooth, and \$1 for each subsequent tooth.
