

CITY INTELLIGENCE.

[For Additional Local News see Fifth Page.]

CORONER'S INQUEST ON THE MAN SHOT AT THE FIREMEN'S RIOT ON SUNDAY.—Coroner Taylor held an inquest yesterday on the body of Henry Walters, who was shot on Sunday morning at Moyamensing avenue and Greenwich street, during a fireman's riot. The following testimony was elicited:

David Jenkins sworn—I live No. 116 Reed street; I am a contributing member of the Shiffer Hose Company; was at the fire on Sunday morning; I was in Bouvier's bar-room about 3 o'clock in the morning; heard the fuss outside; I ran out and I met a man coming from the western side of the street with a pistol in his hand; my friend jerked me in the bar-room and the doors were closed about five minutes after Walters was shot; I don't know the man who shot him; I only heard about five shots.

To a Juror.—The man I saw with a pistol was not equipped.

James Ellinger sworn—I reside No. 130 Taker street; I am a member of the Shiffer Hose Company; was at the fire on Sunday morning; I saw Walters shot; after the fire was over there was an alarm of another fire; the companies took up hose; the Hibcrnia's steamer was on the street and the Worcester's carriage was alongside of it; a crowd gathered around the carriage, and there was a cry of "Shoot in the bar-room;" some one then sang out "Let go for them;" the crowd then came out from the bar-room; a light was created, and they beat Mr. H. Test on the head with a revolver; at this time Walters and myself were standing on the pavement; didn't know many of the men in the bar-room; they were not equipped; some one said there's one on them on the pavement; give it to him; at that moment the man with the pistol (James Edmondson) came up to the curb-stone and shot at Walters; immediately after a second shot was fired, and Walters fell on his knees; I don't know whether the lead from the pistol fired by Edmondson shot Walters or not; there were no other shots fired at the time, but immediately afterwards perhaps twenty or thirty reports; the man who fired at Walters had no equipments on.

To a Juror.—I don't remember how you were dressed, except that you were in a blue coat. Samuel McIlvain sworn—I was with Walters when he was shot; I don't know who shot him; I caught him in my arms when he fell; he could not speak; Walters was not equipped; had not any pistol that I saw; from twenty to thirty shots were fired after I picked Walters up; a large crowd was in the street when the pistol was fired; did not see a man advance from the crowd and fire.

Palmer Sherr sworn—I was at the fire on Sunday morning; when I first saw it, I ran to the house of the Shiffer Hose Company, and tried to get the carriage out, but the members would not let me; they said that I might take one or two sections of hose. When the fight began in the bar, I went in, and saw one man beating another over the head with a pistol; the crowd got out on the foot-way and there was a number of pistol shots; the hose carriage began to move up the avenue, and I ran out and grabbed one man; he cried out, "You are not going to let me be taken, are you?" three or four shots were then fired at me, and the man got off; none of the men were equipped.

David B. Paul, of the Weecoco Engine Company, F. J. Cooper, driver of the Hibcrnia steamer, and Thomas W. Rider, all testified to seeing Edmondson at the carriage while the firing was going on.

Dr. Shapleigh testified to having made a post-mortem examination, and to the discovery that the ball, a very small one, had passed through the left lung and the aorta, producing death from hemorrhage.

The jury rendered a verdict that Henry Walters came to his death by a pistol-shot wound, inflicted by James Edmondson, on the morning of September 16, 1866.

The accused was committed for trial.

The prisoner made a statement to the Coroner's jury, in which he said that he always carried the navy revolver, when he was on the steamer, to protect himself and it. He denied that he had it with him at the fire on Sunday morning. In answer to the question by a juror, he said that the steamer was not taken out on Sunday morning because of a belief that an attack would be made on the Company.

GUARDIANS OF THE POOR.—A stated meeting of the Board of Guardians was held yesterday, President Eery in the chair.

The Outdoor Agents reported receipts for support cases, \$626.92. The Steward reported house receipts at \$59.20.

The House Agent reported the census of the House on Saturday, the 15th, at 2020; same time last year, 2674. Admitted to the House within the last two weeks, 189; births, 5; deaths, 28; discharged, 128; eloped, 47. Number granted lodgings within the last two weeks, 41; meals, 66. The inmates of the various departments are thus classified:—Inmate males, 210; females, 363. Superannuated males, 75; females, 12. Diseased males, incurables, 24; females, incurables, 52. White men's out-ward, 324; females, 256. Colored men's out-ward, 26. White women's out-ward (cholera), 1; obstetrical, 99. Colored men's out-ward, 53; obstetrical, 14; hospital, 24. Total males, 1206; total females, 1614.

The Storekeeper reported having received, since last meeting, 66 pounds of forfeited butter.

The Committee on Insane Department, to whom was referred the communication from the Board of Health, made a report, contradicting the statement of the Board of Health Committee in reference to the Insane Department.

A resolution was adopted requesting the Storekeeper to inform the Board, when making his report, of the Market Clerks from whom he received forfeited butter, with the amount given by each.

Mr. Eery here stated to the Board that there have been seven cases of cholera under treatment in the house within the last two weeks, only one of which occurred since the 9th inst. So that but one new case of cholera has actually occurred within the two weeks. Of the seven cases, three proved fatal, and two were brought in from the city.

Drs. Allis, Orvis, Curtin, and Mears were elected resident physicians by the Board.

After granting the usual requisitions, the Board adjourned.

THE BOAT BURNERS.—A further hearing was had yesterday afternoon in the case of Gilbert Adams, charged with conspiring to burn the steamer Meteor, with intent to defraud certain insurance companies. At a previous hearing, Captain Denny, who was in command of the vessel, testified that his brother had been employed to set her on fire by certain of the owners, and yesterday the brother testified as follows:—

Samuel Denny sworn—I reside at Pennegrove; I was employed on the steamship Meteor; was on board on the 15th of November, 1865; I had a conversation with French previously; he told me everything was ready and to "let the boat go the first opportunity;" the conversation took place on the boat; I was a deck hand on the boat; the steamship came to at Weiden's wharf, at Chester, and about 6 o'clock, all hands being ashore except the steward and one of the deck hands, the boat was set on fire; I did it with a lamp; some rubbish in the forward part of the steamship was fired; the boat was burned to the water's edge; I never received any compensation for it; was to be largely rewarded; that came through my brother to me, from the owners.

Ces examined—My brother mentioned it to me six weeks before the boat was destroyed; I at first refused; said I would not have anything to do with it.

The testimony here closed, and Mr. Cassidy for the defense called the attention of the Alderman to the fact that the witness had confessed to the commission of a crime, and said he would leave it to him to take such action in reference to it as he saw proper.

Mr. Caylor for the prosecution said he would take care that the witness was forthcoming to testify at the proper time.

Adams was held in \$5000 bail to answer.

THE PENNSYLVANIA STATE FAIR.—The preparations for the Pennsylvania State Fair, which comes off at Easton this year, commencing on the 25th instant, are continuing four days, promises to be a complete and perfect success. Every department will be unusually full, and a number of inventions will be introduced. The aggregate prizes are valued at over \$10,000, of which \$2000 will be for the fastest horses. A number of highly exciting races will take place, in which celebrated horses will take part, among them "Mountain Maid" and "Fanny Allen." General Hartranft's great stock of Kentucky thorough-breds will be exhibited and offered for sale. The Horse and Floral Departments will be magnificent. The managers are doing their very best to make the coming Fair the finest ever seen in this State, and Mr. A. B. Longaker, the Secretary, is run down with business.

BOARD OF SURVEYORS.—A stated meeting of the Board was held yesterday. Applications for sewers in the following-named streets were granted:—On Mount Vernon street, between Eighteenth and Nineteenth streets; on Twelfth street, between Spruce and Pine streets; on Twenty-third street, between Arch and Cherry; on Second street, between Race and Pine; on Germantown avenue and Sixth street, between Diamond and Dauphin; and on Thirteenth street, from Arch to Wager streets. A resolution was adopted, recommending Council to pass an ordinance providing for street lines and grade regulations in a portion of the Twenty-third Ward. A plan was presented for the widening of Poplar street, between West College avenue and Pennsylvania avenue, but held over until the next meeting. Adjourned.

CLERGYMEN IN DIFFICULTY.—Before Recorder yesterday, one of our prominent clergymen charged another one of equal prominence with defrauding him. The prosecution grew out of transactions in the stock of one or more coal oil companies. There was an allegation of bad faith on one side and a failure to fulfil an agreement on the other. The accused was held to answer.

INSTRUCTION. PARDEE SCIENTIFIC COURSE LAFAYETTE COLLEGE.

In addition to the general course of instruction in this department, designed to lay a substantial basis of knowledge and scholarly culture, students can pursue those branches which consist of practical and technical work:—

ENGINEERING—Civil, Topographical, and Mechanical; MIXING and METALURGY; ARCHITECTURE, and the application of Chemistry to AGRICULTURE. There is also afforded an opportunity for special study of TRADE and COMMERCE, or MODERN LANGUAGES, and the HISTORY and INSTITUTIONS of our country.
