THE CHINGARORA ANTI-NEUROUS SMOKING TOBACCO! The CHINGARORA TOBACCO grows from the rich soil of the "ORIENT," and is possessed of a peculiarly strong flavor, entirely unknown to the tobaccos of all other climes. But its unprecedented popularity has sprung from the fact of the entire absence of that deadly poison, Nicotin, which permeates every other tobacco, and which is the one and sole cause of the distressing nervous diseases, dyspepsia, etc., which most invariably, sooner or later, follow the indulgence of the pipe and cigar. At the recent exhibition of tobacco from all parts of the world, at the Academy of Sciences, in Paris, the renowned chemist, M. Lamoureux, declared that while European and American tobaccos contained fully eight per cent, and the purest Havana tobacco from two to three per cent of Nicotin, the CHINGARORA did not contain one discoverable particle of that quality poison, a drop of which, extracted, will destroy life. Our Agent at BOSTON has shipped a large quantity of the CHINGARORA during the last two years, and although we have been pressed to supply the demand for this delicious luxury to the veteran smokers, yet we are now prepared to offer it in unlimited quantities, at a price much lower than some American tobaccos. A connoisseur has but to smoke the American tobacco and cigars, which are invariably chemically flavored, to be disgusted with the medicinal taste, which leaves a nauseous, unhealthy coating in the mouth, and in time never fails to slatter the nervous system. The natives of the "ORIENT" smoke the CHINGARORA from more than eight years of age, and are happily unconscious of the wild, distressing fire which courses through the veins of the inhales of the human times of tobacco. We invite every lover of the pipe and cigar to try the CHINGARORA, and guarantee to refund the purchase money, and in time never fails to slatter the nervous system.
