

OUR SATURDAY NIGHT SUPPER SERIES

NUMBER CLXL

A DIRT FOR MENTAL DYSPEPSIA, AND A CURE FOR HYPOCONDRIA, HYPOCHONDRIA, OR ANY COMPLAINT OF A NERVOUS ORDER.

BREAKS UP FANCY OVERWROUGHT AND IMPROVED BY THE SERIES EDITOR AS GENUINE WIT AND HUMOR.

From "Punch."

OMINOUS NAME FOR A RACE-COURSE.—"Knavevine."

UNIVERSITY INTELLIGENCE.—Great excitement prevails at Oxford amongst the ladies who are not engaged, owing to the expected arrival of a number of "unattached" students after the long vacation.

A GREAT HISTORIAN REVIVUES.—The attention of Anthropologists and Spiritualists is drawn to the remarkable announcement that amongst the recent additions to the Zoological Gardens is—"Gibbon."

NO FOCKERY MONEY. (A HINT).—Mamma, "Well, I am glad you have had a nice ride. But where is your jacket, Tom?"

REM LACU NON FERRETTIS.—Why did not Lord John Manners, when enumerating the various grand achievements, quorum pars magna fuit, say that he has cleaned out, new-bottomed, and refilled the Regent's Park Lake? Because then he would have mentioned one thing that would have water.

ANNE IV. I. ADAPTED.—M. Grövy, opponent of Imperialism in France, has been returned for the Department of the Jura, by a great majority over the Court Candidate.

SHADES OF VIRGIL, AND DIDO, AND MRS. TODGERS FORGIVE US, but if it should be whispered that the Emperor is indisposed and ailing, we should wink and say, "Grövy saucier curé."

A POPISH BIRD.—The Missal Thrush.

A SATISFACTORY CHARACTER.—Mrs. Brisket (about the Squire's new Bride) "Oh, yes, Mamma, she came in 'ere yesterday, Mamma. Bless you, I must tell you, Mamma, I know one 'int o' meff from another, Mamma!"

TAKEN IN.—Several young gardeners rushed to buy a recent number of the States day Review, from seeing in its placard articles on "Laurels" and "Buttercups."

SMILLA SIMILIBUS.—A cruel young cad, of Wandsworth, has been sent to jail, with hard labor for a fortnight, for brutality to a poor cat. We are very glad, but if the excellent Magistrate had ordered him another kind of cat—a cat for each of his victim's legs, one for each of her ears, one for her tail, and a couple for luck, to make up the supposed number of her lives—the memoria technica would have been better.

UP IN BIOGRAPHY.—Examiner—Give some account of Galileo.

Candidate—He was an astronomer who was persecuted by the Inquisition.

Examiner—Well, Sir?

Candidate—Galileo cared for none of these things.

AN IRISH DIAMOND.

Not much fun yet out of the Election Address, but here is one which looks promising.

We should like to see again from Mr. Patrick McDonald, who thus addresses the Queen's county:—

"I have only to say I shall lead Two Thousand Voters to the poll at the forthcoming General Election in the Queen's County. Be firm when I advance to the combat. Fifty Thousand Non-Voters will follow their hearts and hands. O'Donnell, thou art mighty yet; thy spirit, doth walk abroad; thy memory is before us."

"Your memory is before us." Noble! And our Future is behind us. Go and prosper, dear McDonald, and more power to your pronouns. Thy ancestors will be proud of you, and the shades of your posterity smile down upon thee.

From "Fun."

A NEW VIEW OF AN OLD FAULT.

Crafty Reynard one fine day Asked the long-billed stork to dinner: But contrived the feast to lark Out on shallow plates, the sinner! And that long bill of the stork Was disappointed thus completely— Eating soup with knife and fork Is a thing you can't do neatly.

Wily Reynolds, that I know, Doing business in the city, Into partnership will go With poor stocks—the more's the pity. They swim buoyantly as cork— Sink like lead in their partners' fleetly. Eating soup with knife and fork Is a thing you can't do neatly!

Well-intentioned folks, too oft Charity in vain expending, Nuts to those whose gums are soft, Coins to Africa are sending. Schemes for feeding Jews on pork They consider framed distinctly— Eating soup with knife and fork Is a thing you can't do neatly.

Rogues or fools! 'tis much the same; Long-billed birds with shallow dishes To empty is their game. Heedless of their vilest wishes, Long-necked jays for long-billed stork Is the vessel chosen neatly— Eating soup with knife and fork Is a thing you can't do neatly.

—What Railway Charges always are—Fare enough!

OLD RABBIT IR.—The Times is rather prone to vagaries of spelling. We are indebted to it for the word "diocess." As the word diocess is derived from the Greek *diocesis*, there seems no ground for the reduplication of the "s"—but the Times is bent! Last week it favored us with another novelty in a leader on the destruction of small birds:—

"The owl and the stoat live not only upon young rabbits and partridges, but also, and by preference, upon rats and mice."

Hitherto, we had no thought of applying the question two "b's" or two "b's" to the rabbit, but we suppose that what the Times sets forth in its leader columns is law; and, therefore, those frisky creatures must accept this new rule as the law of their "b'ing."

LATEST EFFECT OF THE HEAT.—It reported in city circles that an exceptionally large number of "sweated" sovereigns has been received this summer at the Bank of England.

IN VINO VERITAS.—THE THING THAT TELLS A TALE—A "splitting" headache.

AN EARLY PROVERB.—More Hastings, less speed.

A THOUGHT OF A SYMPATHETIC PLANT.—Cabbages have been sold this summer at three-pence each.—Hard lines for the cigar trade!

A MATTER OF TASTE.—"The Dashing White Sergeant," a fantasia for the piano-forte, is described by its publishers as being an "elegant work"—to our thinking, there can be but little elegance about an officer who has an explosive constantly on his lips.

THE LONG AND SHORT OF IT.—Admitting that long sermons are, as a rule, injudicious, we should be sorry to see the extreme in the opposite direction carried out. How painful must it be to hear of a clergyman constantly having "a few words" with his flock!

SHIPPING INTELLIGENCE.—Insuring at Lloyd's.

THE MARYLENE WESTBY.—Mr. Thomas Chambers has issued an address to his constituents, in which he delicately insinuates a touch of wistful language to prove how thoroughly he represents them. We quote literally from the Times of the 25th ult:—

"Three years ago I was most unexpectedly invited by an influential party among you to become a candidate for your suffrages."

Of course the Marrowbones will prove clear-visioned to a candidate who thus wistfully vindicates the wistful words of the wistful wistful!

ORDER.—We have always thought that the railways, among their other monopolies, had the exclusive right of manufacturing cripples and invalids for life. To judge from the following advertisement from a provincial paper this is not the case:—

"PERAMBULATORS! PERAMBULATORS!—The largest, best, and most elegant stock of Perambulators ever seen in any of our manufactories, at No. 1, Westcheap-street, N. B.—Invalids made to order."

THE WEATHER AT BADES AND HOMBURG.—The heat at these fashionable spots has been so very great that in some instances people have actually burnt their fingers at the gaming tables!

IN SEITE.—At the coming Westminster election should the friends of the Female Franchise demand a poll, we trust their "pole" will not be a *baton de command*, as that is fated to end in a Hoking.

"CASS' THOU NOT MINISTER TO A MIND?"

Fond Parent.—"We don't find he gets on with his learning."

Schoolmaster.—"Well, I fear he never will do much. He has 'im—in fact—he has no capacity!"

Fond Parent.—"Well, well, my good sir, we ain't particular what we pay. Let him have one at once!"

"PICK-ME-UP." INFERED.—A thirsty soul hearing that some of our fast trains, in order to economize time, pick up their water on the road, suggests that an adaptation of this plan might be carried out so that passengers could at certain points pick up a glass of brandy and water. The subject, we think, is worth consideration.

CROWDING THE ENGINE.—The next time you hear an idiot shout "I'll have your hat!" let him have it, and one for his nob into the bargain. We have a piece of good news. A patent has been granted to Mr. J. Wheatley for an improved construction of chimney pots.

J. W. is evidently bent on supplying a long felt want, and has our best wishes for his success. Whatever shape his improvement may take, it certainly cannot be more hideous than our present head-gear.

A SILLY-WIT.—Old Magnum—just for the fun of the thing—had his likeness taken the other day on board the Hampton Court boat. So cleverly did the artist—believed to be the last of his race—catch the expression, that every one who has seen the portrait declares it must have been produced by the Jolly-Dog-nereotype process.

FOR SMALL TALK PARTIES.—What is the difference between the cup that cheers and the flowing bowl?—One is a-musing, the other be-musing.

From Louisiana.

NEW ORLEANS, Sept. 25.—The Senate yesterday installed a negro as senator from Caldo Parish, in place of Reuben White (white), declared ineligible.

Registration was opened to-day. Among the first acts of the registers was to raise the registration of foreigners naturalized by the Judges of the Fifth and Sixth District Courts since July last, on the ground that such naturalization was illegal. In this they were sustained by the Supreme Court of the State Board of Registration. The excitement in the city in consequence of this, and the excitement was increased by an affair this morning in French market, in which a negro was instantly killed by a white man, who was executed.

Governor Warmouth issued a proclamation this evening, calling upon the citizens to remain at home and abstain from exciting acts or conversation, stating that the civil authorities are capable of suppressing any difficulties that may arise, and arresting all offenders, or if found insufficient will be promptly assisted by the military. He also calls upon all political clubs to abstain from any public demonstration for the present.

A bill was introduced in the Senate to-day by Senator Bacon, amending the Registration act so as to require only the oath prescribed by the State Constitution, and further defines the powers of registrars and supervisors of elections. It passed two readings and was made the order of the day to-day. It was not acted in the House or vetoed. The bill will secure a fair registration.

It was stated in the Senate that the Board of Registration had abdicated of themselves a sufficient number of the State Board of Registration, which the Senate had rejected. A resolution calling for an investigation was adopted, and a committee appointed.

Mr. Postick (Democrat), appointed on the State Board of Registration by Governor Warmouth, has entered a second protest against the action of the majority of the Board. It is contended that registration cannot be refused to citizens willing and ready to take the oaths prescribed by the registration law.

From New York.

NEW YORK, Sept. 25.—The ship Jacob A. Stamba took off 108 passengers from the Melita and put 17 on board the Monaghan, from St. Johns for Liverpool, and 13 on the ship Kur-rache, from Maripolis for Greenock. The fire on the Melita broke out in the hold about seven days out, and it was eight hours before she fell in with the Stamba. Owing to the nature of her cargo, cotton, etc., the fire resisted every effort to subdue it. It is supposed to have been smoldering some days in the hold before it broke out.

NEW YORK, Sept. 25.—The Rollins conspiracy case was again up before the United States Commissioner to-day, and two or three witnesses were examined, but nothing of additional importance was elicited.

The Labor Congress to-day was occupied in discussing the platform offered at the last evening's session. After considerable discussion the clause deprecating strikes was stricken out. Exception was taken to the finance plank in the platform, and the monetary system was discussed until adjournment. The discussion was resumed at the afternoon session, but it was finally adopted as originally reported. A resolution was unanimously adopted recognizing the right of the workmen and working-women of the nation to strike when all other just and equitable concessions are refused. A sum of equalling about \$2000 in English coin was stolen from Putnam & Sherman's bankings-house to-day, while the attention of the owners was momentarily attracted in another direction. A man was seen to take the box by several persons, and depart with it, they supposing it to be all right.

Obituary.

St. Louis, Sept. 25.—Dr. Joseph N. McDowell, a distinguished surgeon in the West, and a resident of this city, died this morning of congestive cholera, in his sixty-third year.

FROM WASHINGTON.

The Indian War.—A Report from General Sheridan.

WASHINGTON, Sept. 25.—The following telegram was received at the War Department to-day from Lieutenant-General Sherman:—

St. Louis, Sept. 24.—To Adjutant-General United States Army.—General Sheridan reports this day a description of the fight between his aide-camp Colonel Forsyth, and the Indians, on the Upper Republican river. Several other columns are moving to the same point, and I trust the Indians will receive a just punishment.

Fort Hays, Sept. 23.—I have just heard that the report sent here to-day is substantially correct. Lieutenant-Becher is dead and Forsyth wounded, as before described, but the party is all right, although surrounded by Indians, and can hold out, as they have plenty of ammunition and meat and horse feed. They have given the Indians a salty dose. Forsyth has lost Lieut. Becher, and Dr. Moore, mortally wounded—2 killed and 18 wounded. He reports thirty-five Indians killed and many wounded. Forsyth's party is in the act of being reformed, and was not for his wounded and having his horses all killed.

P. H. SHERIDAN, Major-General. To W. T. Sherman, Lieutenant-General.

Department News.

Two hundred and forty-five new money order offices go into operation at the same time. The amount of money sent through the mails in this way is steadily increasing.

Commissioner Wilson has issued instructions to John A. Clark, the newly appointed Surveyor-General of the Territory of Colorado, to proceed at once to Denver, Colorado, and obtain possession of the original evidences of surveys in Utah, now in the custody of the Surveyor-General at Denver, and repair to Salt Lake City, where the Secretary of the Territory directs him to establish his office. The Commissioner has approved a contract for the survey of eleven townships south of Platte river, in Lincoln county, Nebraska. It embraces about 250,000 acres, and is about 200 miles long, and within the twenty miles limit to the grant of the Pacific Railroad.

The North German Confederation.

The Hanse towns having recently been merged in the North German Confederation, Mr. A. Schumacher, their Consul-General at Baltimore, who for some time past has been acting as Charge d'Affaires, called on the Secretary of State yesterday to deliver the letter of recall of Mr. Rossing, the regular Charge d'Affaires. Mr. Schumacher made the following remarks on the occasion to the Secretary of State:—

"The letter which I have the honor of presenting to you will inform you of the cause of the withdrawal of Mr. Rossing from his post, and of the reasons which have brought me to the present position. Nevertheless, I cannot help regretting that the relations between the United States and the Hanseatic republics, and also abroad in general, are not such as to justify the course which the Government of the United States will continue to take in a lively interest in the future prosperity of the German Empire, and that the Government of the United States will continue to take in a lively interest in the future prosperity of the German Empire, and that the Government of the United States will continue to take in a lively interest in the future prosperity of the German Empire."

Mr. Schumacher will submit to the President of the United States a memorial which has been delivered to him from the Hanseatic cities of Bremen, Hamburg, and Lübeck, and will at the same time make known to the Secretary of State the sentiments which you have expressed on this occasion. I am assured that I shall receive his directions to the effect that I should continue to bear witness of the energetic enterprise and love of constitutional liberty which distinguish the Hanseatic republics, and which have been constantly represented here. It gives me equal pleasure to render the assurance of my personal friendship, which I entertain for yourself, and to express my warmest wishes for your future prosperity and happiness.

Transfer of Officers.

Paymaster Denison is ordered to the Michigan.

Chief Engineer William B. Brooks is ordered to the Portsmouth Navy Yard.

Chief Engineer Staur is detached from the Powhatan and ordered to duty as Fleet Engineer of the Pacific Squadron, in place of Chief Engineer Albert, who is ordered to duty as Fleet Engineer of the South Pacific Squadron.

Chief Engineer Robel is detached from the Pensacola and ordered home.

Chief Engineer Whitaker is detached from the Portsmouth and ordered to the Tascorara.

Army Orders.

Brevet Major Bascom, 17th Infantry, is ordered to report for duty as superintendent general recruiting service in New York.

The Alabama Delegation.

The delegation from Alabama, headed by Governor Smith, to request the President to send troops to that State to preserve order, arrived this evening.

Internal Revenue Appointments.

It is not true, as stated, that Colonel Goodloe has been appointed Supervisor of Internal Revenue in Kentucky. Colonel Marr is the only Supervisor as yet appointed.

A Legal Question.

The Secretary of the Treasury has written a letter to Attorney-General Everts, asking his opinion as to whether a party who failed to take the oath prescribed by the act of July 2, 1862, is liable to be paid for services performed by him as a Treasury officer. This covers a class of cases in the South, where various persons temporarily acted as such officers who could not take the oath.

Indian Difficulties Before the Cabinet.

Among the questions considered at the Cabinet meeting to-day was that relating to the Indian difficulties.

General Butler in Court.

General Butler, by his counsel, has filed in the Superior Court of Baltimore city petitions in the cases of Kimberley Brothers and Charles A. Woolley, claiming that, as a member of Congress, he was not liable to be summoned, and praying that the writs of habeas corpus may be decreed to be illegal and null, and that the sheriff's return be set aside and quashed.

Base Ball.

The Cincinnati Base-Ball Club played the Olympics of this city this afternoon. The game was won by the Olympics by a score of 22 to 11.

Latest from Europe by Cable.

PARIS, Sept. 25.—Official despatches from royal authorities give an account of an affair at Santerre. They report that after a sharp fight the rebels were routed, and took refuge in the feet in the harbor.

FLORANCE, Sept. 25.—Cantello is appointed Minister of the Interior, and Passiva Minister of Public Works.

Pennsylvania State Fair.

HARRISBURG, Sept. 25.—The State Fair, commencing on Thursday, the 29th, promises to be the largest and most interesting ever held in this State. Every department is being prepared on the largest scale, and most of the space is already occupied by exhibitors. Many of the best in the State, and through-bred horses will be on exhibition, together with farm implements and new inventions.

From Maine.

Augusta, Sept. 25.—The alleged incendiaries accused of causing the fire at the United States arsenal in this city, who were examined on the 17th inst., had their cases reopened, by consent of the Government, and after an elaborate examination to-day were again held under heavy bonds to appear before the higher court for trial.

From Georgia.

Atlanta, Sept. 25.—The bill to organize and call into service the State militia was defeated in both Houses. The House resolved to adjourn on the 6th of October, which was agreed to by the Senate. The House refused to reconsider the bill amending the Constitution relating to the capital at Milledgeville.

FROM MASSACHUSETTS.

Double Execution for Murder.

WORCESTER, Mass., Sept. 25.—Silas and Chas. J. Jumper, who murdered Joseph G. Clark, on February 28 last, were hanged to-day. Charles confessed that both were guilty. He died hard, but Silas instantly.

From Tennessee.

NASHVILLE, Sept. 25.—The exciting canvass for Mayor between the friends of Alden, the present radical Mayor, and Thornberg, a moderate Republican, culminated to-night in a riot. Both parties had a torchlight procession.

The evening had been appropriated by the Thornberg men. The Alden men having been prevented the previous night by the rain from having their procession, determined to have it to-night. About 9 o'clock, as the Alden procession was coming into the public square from the street, a difficulty occurred with a negro who was speaking for Thornberg, who, being attacked, drew a pistol and shot into the procession, and many shots were fired at him in return. The Alden negroes discharged their pieces generally in the air.

Thousands of shots were fired, although only four persons were wounded and none were killed. While this was going on the Thornberg procession was in another part of the city, and took no part in the riot. About 1 o'clock the crowd was dispersed by United States troops, and in a short time all was quiet.

INDIGO BLUE.

BARLOW'S INDIGO BLUE, for Bleaching Clothes, is put up for sale at ALFRED WILBERGHE'S Drug Store, No. 232 N. SECOND STREET, PHILADELPHIA.

BARLOW'S INDIGO BLUE will color more water than any other Blue in the market.
