A "BOLT" FOR THE TAXPAYERS.

From the "Advertiser" (Pa.) ... The defeat of the Mackey Treasury bill last winter was a fortunate event for the taxpayers of Pennsylvania...

But a still greater humiliation awaits these old Treasury bidders in facts and figures still to come, and which fully justify the Republican members who bolted the Mackey caucus...

Table with 2 columns: Loan paid in May 1870, June, July 13. Values range from \$460,832.73 to \$68,565.40.

Now, we call the attention of the honest taxpayers of the country to the fact that if Senator Billingfelt and Mr. Reynolds and their fellow bolters had been bound by such a resolution as was adopted by the County Committee...

HARI-KARI.

Our latest news from Japan is discouraging. The advent of one of Victoria's half-dozen boys shook that dusky realm of old to its foundations...

Not only in Turkey and Russia has the noble work of emancipation been carried on, but also in Brazil and several of the other South American States.

Nicolson pavements, was their right; we submit to take a Yorkshire grazer for Robin Hood, or to find Red Clond, not hung with wampum...

It is not for ourselves we plead. The march of the Englishman and Yankee has made the earth dusty and dry as a market place under our feet in the last thirty years.

THE AMERICAN EXAMPLE OF EMANCIPATION.

From the N. Y. Times. Strange as it may seem, the abolition of slavery even in this country is not universally admitted to be a wise measure.

In this country, political resistance to slavery originated at the North, and among a class who had little, if any, practical knowledge of its evils.

When the Rebellion broke out America was the foremost supporter of slavery in the world. It represented the only nation, claiming a high civilization, which had so large a percentage of its people in bondage.

Not only in Turkey and Russia has the noble work of emancipation been carried on, but also in Brazil and several of the other South American States.

This is one of the first fruits of our example of emancipation—an example which will yet be followed by every civilized nation holding slaves.

THE FENTON, GRANT AND MURPHY FIGHT—WHAT IT IS COMING TO.

From the N. Y. Sun. The overthrow of Governor Fenton in his recent encounter with General Grant and the Hon. Thomas Murphy, as well as his political antecedents, give color to the rumor that he contemplates a withdrawal from the Republican party...

such bonds will cease. Thus he has it in his power to forcibly retire any quantity of the old bonds, being limited in this regard only by his ability to sell the new ones.

The old Barnburners, now the dominant element in the New York Democracy, would welcome Fenton's return. In the famous campaign of 1848 he stood erect on the Buffalo platform.

Strong ties have always existed among this band of politicians, though the stormy controversies of the last dozen years have often found them acting in hostile organizations.

OUR NAVY ON A WAR FOOTING. From the Cincinnati Gazette. It is pleasant to hear that the administration has concluded that a war about the Hohenzollern and the Spanish succession is inevitable...

There is the class of so-called light draught monitors—those that had to be torn down and built up again because it was discovered that if launched they would go straight to the bottom...

THE FUNDING BILL AND THE NEW TAX AND TARIFF BILL.

From the N. Y. Herald. It is never a point of any certainty who is to derive the benefit of a given law, or whether a law passed with a certain purpose in view may not in its enforcement secure a result directly contrary to that contemplated by its framers.

WHAT THE NEW CENSUS MAY INDICATE.

From the Baltimore Sun. It is consoling to believe that political changes and readjustments as great as those which have taken place in the last decade, but tending, unlike them, in the direction of peace and prosperity, are not unlikely to occur within the decade which follows the census taken this year.

such bonds will cease. Thus he has it in his power to forcibly retire any quantity of the old bonds, being limited in this regard only by his ability to sell the new ones.

The World anticipates that besides the increase in Southern representation, the resumption of its former business intercourse with the North will be again, as before the war, a source of great political strength.

OUR NAVY ON A WAR FOOTING.

It is pleasant to hear that the administration has concluded that a war about the Hohenzollern and the Spanish succession is inevitable, and therefore that our navy should be put on a war footing...

There is the class of so-called light draught monitors—those that had to be torn down and built up again because it was discovered that if launched they would go straight to the bottom...
