Miscellaneous.

CONVENT AND ACADEMY OF THE IMMACULATE CONCEPTION, Opelousas, Louisiana.

THIS Institution will be opened by the Ladies of the "Holy Cross" in the beginning of October, in the Town of Opelousas, for the education of the young Ladies of the Parish and of the neighboring Parishes. The location is most delightful, and offers all the exterior advantages which parents may desire for their children.

The system of education will embrace all the branches taught in the best Institutions of America or Europe: Reading, Spelling, Grammar, Composition, Rhetoric, Elocution, applied to the French and English languages, to both of which the utmost attention will be paid, and both of which the pupils will most carefully be trained to speak and write with correctness, elegance and fluency.

Writing, Geography, sacred and profane, ancient and modern History, Mythology, Arithmetic, Book-keeping, the elements of Algebra, Geometry, Natural Philosophy, Natural History, Domestic Economy, Sewing, Embroidery, Artificial flowers, Drawing, Painting, Vocal and Instrumental Music.—This last branch will be taught by a distinguished Artist just arrived from New-Orleans.

Nothing will be omitted to kindle in the pupils a vivid emulation for learning; the greatest attention will also be paid to develop their minds, form their hearts, and elevate their character. They will have nothing to fear from evil examples or evil associations, remaining at all times within the enclosure of the house, and under the eye of kind teachers who will watch over their morals with maternal affection.

They will receive no visits, except from their parents or relations, who will be admitted to see them in the parlor, on Thursdays after the morning classes and on Sundays after the high mass.

The utmost attention will be paid to the health of the pupils, the diet will be wholesome and abundant, the sick will be nursed with maternal vigilance and tenderness.

Religion is the ground work of education. The Institution is Catholic; however, young ladies who may belong to other denominations, when received, on the only condition of conforming to the public exercises of the house.

To enable parents to send their children at an earlier age to school—a child may profit from the age of seven or eight, and even sooner—in view of the abundance and send several of them at once, the most moderate prices have been adopted.—For Board and Tuition, \$100 per scholastic year of ten months, payable quarterly in advance; Day-scholars will pay \$20, \$30 or \$40, for the scholastic year, according to their age and the classes they will attend. Music on the Piano or the Guitar will be charged \$5 per month, \$1 per month for the use of the Piano—\$3 per month for vocal music.

Parents will have to supply their children with books and paper, and provide for the washing of their clothes; expenses incurred in sickness will also be charged to them.

Boarding will be supplied, at their entrance, with a complete wardrobe, consisting of sheets, blankets, towels, and every day clothes; they must also bring the uniform, consisting for the whole year in a blue dress, with cape of the same color, trimmed with black velvet, two sun-bonnets, 1 blue, 1 of brown linen; two veils, 1 blue, 2 white, 2 yds; a spoon, fork, tumbler and knife; also a small bucket, brushes, combs, a pitcher, towel, and looking glass.

Articles will be for sale in the house, to preserve uniformity in the dressing room.

For further particulars apply to
MISS MARY OF THE HOLY ANGELS Superior,
or to **BROT. MARK OF THE HOLY ANGELS** Superior,
Rector of the Church of Opelousas.

AYER'S PILLS,
A new and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Headache, Dropsy, Rheumatism, Fevers, Gout, Hæmorrhoids, Irritability, Inflammation, Headache, Pains in the Breast, Side, Back, and Lungs, Female Complaints, &c. &c. Indigestion, very few are the diseases in which a Purgative Medicine is not more or less required, and such sicknesses and sufferings are prevented, or a harmless and effectual Cathartic more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. The elements of Biliousness, Fevers, Irritability, and Bilious derangements. They tend to become or produce the deep seated and formidable disorders which constitute the great evil of the age. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. It is an extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of an imposture. Among the many eminent gentlemen who have testified in favor of these Pills, we may mention: Prof. J. M. LOCKE, Analytical Chemist, of Cincinnati, whose high professional character is endorsed by JOHN McLEAN, Judge of the Supreme Court of the United States; THOS. CORWIN, Secretary of the Treasury; Hon. J. M. WRIGHT, Governor of Indiana; LEONARD WOOD, President of the University of West. Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by Hon. W. L. HAYNE, Secretary of State; S. B. ASTOR, the richest man in America; S. LELAND & Co., Proprietors of the Metropolitan Hotel, New York; and many other distinguished names. We believe we could give many hundred certificates, from all parts where the Pills have been used, and which would prove, as they have proved, more powerful remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world, and which has not obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of pernicious and injurious qualities, by this individual virtue only that is desired for the curative effect is retained, and the rest is rejected. Hence it is self-evident that the Pills are more powerful, more pure, more remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world, and which has not obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of pernicious and injurious qualities, by this individual virtue only that is desired for the curative effect is retained, and the rest is rejected. Hence it is self-evident that the Pills are more powerful, more pure, more remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world, and which has not obtained by any process.
