OPELOUSAS INSTITUTION,
FOR THE EDUCATION OF YOUNG MEN.
UNDER THE DIRECTION OF
DR. J. A. DELAURELLE, PRINCIPAL; Professor of French and Latin.
N. MOSS, Professor of English and English Literature.
BEING a resident of this locality, for the last four years, having assisted Mrs. Delaurelle in the direction of her school for Young Ladies, founded in the year 1844, and which terminated only at the death of its founder, I expect to be able fully to answer the expectations of those parents who shall have confided the education of their children to me. I will do every thing that depends upon me to assist in the development of their intelligence, and as far as it may be possible, to improve in them those intellectual qualities which ought to be the characteristics of men whom the citizens of a free country may one day call to fill the high stations in government. I shall do all that depends upon me to make them good citizens and good fathers of families. For this purpose a liberal education developing the intellect is required; an education free from sectarian and dissipated ideas, the offspring of ignorance and superstition, her ordinary companion.
But a knowledge of sciences, the exercise of the public arts, will not suffice by themselves for a complete education. Religious ideas should also be inculcated in their young minds. The belief in one God is as rational as it is necessary. Though the rites by which we honor the Divinity differ as to form, they prove one and the same object, that is to offer to the Deity a sacrifice of the heart. Our religious motto should then be: "Tolerance, love of God and our neighbor." Every attention will be bestowed upon the students. Their food will be healthy and abundant. Their studies will be varied and the exercise necessary to their health, large and spacious playgrounds. In fine, every thing will be done for the physical and moral improvement of the students.
General no tobacco is expressly forbidden. Parents will receive once every three months a bulletin of the health and progress of their children.
MEDICINE and the attention of Physicians in case of sickness, at the cost of Parents, in which case Parents have at their option to choose their medical attendant.
WARDROBE:
2 pair of shoes, 2 pair sheets,
2 summer pailots, 4 table towels,
2 winter ditto, 4 toilet ditto,
2 summer pailots, 1 wash-bowl, comb and
2 winter ditto, 1 tooth brush,
4 shirts, 1 coat brush, 1 looking
2 cravats, 1 comb, 1 pair of glasses,
2 pairs of gloves, 2 shoe brushes,
2 Blankets, 6 pocket handkerchiefs.
1 Mosquito bar, 1 candlestick.
