Onion seed at R. M. Littell's.

There is now a double daily mail between New Orleans and Vermillionville.

Go and see Mornhinveg's new stock of jewelry. Repairing neatly done.

All the late novelties in millinery at Mrs. A. B. Chachere's. Cheap.

The weather has been fair and warm the past week, and cotton picking goes on well.

An Irishman, by the name of Patrick Keough, was killed by the freight train on the Morgan Road, at Begg's station, six miles above Washington, on last Tuesday night. No particulars.

There is a great deal of sickness throughout our parish now; but being mostly chills and fevers, the physicians have but little trouble in effecting speedy cures. There are but very few deaths.

A copy of the Naperville, Illinois, Clarion, received at this office, contains the announcement of the marriage of Mr. Chas. R. Mayer, son of Prof. R. Mayer, of Opelousas, and Miss Lorena Strabler, of Naperville, on October 3d. They will reside in Chicago. The happy pair have our best wishes.

GLORIOUS NEWS.—Ohio has gone Democratic by 30,000 majority over a Republican majority of 24,000 at last election. The whole Democratic State ticket was elected, and fifteen out of twenty-one Congressmen.

It is thought Indiana will give a still greater majority; and large Democratic gains are expected in New York and Pennsylvania this fall.

We take pleasure in directing the attention of the ladies to the new advertisement of Mrs. Dorothy Laas, in another column, announcing the receipt of a splendid lot of fall and winter styles and a grand opening thereof on Monday next. Mrs. Laas' stock of millinery is both elegant and select, comprising everything suited to the season and the wants of the community; and she is making constant additions to the same as occasion requires. Her prices will be found very moderate.

At a meeting of the Town Council held this week, \$40 were appropriated to pay three months' rent of the building used by Public School No. 1 (Mrs. Stalles'), and to make certain necessary repairs to the same. The street commissioners were authorized to pay \$150 for the right of way through the property lately belonging to Mrs. Cook, for the continuation of Railroad street, recently laid out on the western limits of the corporation; and some other business of minor importance was transacted.

Mr. Louis Trager, the nominee of the Red River Landing Republican Convention for Congress, for this district, was in town this week, and gave us a call. His announcement will be found in another column. Mr. Trager is a very pleasant gentleman and bears an excellent reputation for honesty and integrity among his neighbors of West Feliciana, who know him best. But, if elected, Mr. Trager will be compelled, by the necessities of the situation, to align himself on all political questions with the bitterest enemies of the South and of the Democratic party.—The Thad Stevens and Ben Wade of to-day—and this consideration alone will be sufficient to deter Democrats from giving him their support, notwithstanding his unassailable record and unquestioned personal integrity and honesty.

The attention of our readers is called to the notice published in another column, of the polling places fixed and the commissioners appointed by the Hon. M. D. Kavanaugh, Returning officer for St. Landry, to conduct the election of a Congressman for the Sixth Congressional District on the 7th of November next. It will be seen by this list, that a full number of polling places in each ward have been established to meet the convenience of voters, and that the best men in each section have been appointed to act as commissioners, thereby giving assurance of perfect fairness in the conduct of said election. The Hon. M. D. Kavanaugh has performed this part of his duty in a most judicious and commendable manner, and by his action will remove any objections of unfairness which have been imputed to the provisions of the new election law.

Governor Stephens is the great Georgian's appeal now, or will be as soon as he is inaugurated. General Gartrell seems to have heard something drop.—Mobile Register.

A magnificent stock of new millinery goods at Mrs. A. B. Chachere's, corner of Court and North streets.

Another Excursion.—By reference to the advertisement in another column it will be seen that a grand railroad excursion will be given under the auspices of Opelousas Fire Co. No. 1, from Washington, Opelousas and all intermediate points to New Orleans, on Saturday, Nov. 11th, 1882, and returning on Tuesday the 14th, thus giving the excursionists two whole days and three nights in the Crescent City. All who go down on this trip can combine both pleasure and business in one; they can attend any place of worship they prefer on Sunday; they can attend to business on Monday; and at night they can attend some of the various places of amusement—the theatres and French Opera all being represented by first-class artists at this season. Moreover the business season will be fully opened, and business men will find it an opportune time to go down. More than this, it will doubtless be the last excursion of the season, and then there will be no more cheap travel. Besides all of these important considerations, in going on this excursion, you will be helping Fire Co. No. 1 to pay for their new steam fire engine, which is now being manufactured, to order, for them. Who would not help their home fire department under such circumstances, when they, at the same time, reap the benefit of their money expended for so laudable a purpose? Read the low rates to and from the city, and then buy your tickets at once. Do not let this opportunity pass you, either for enjoyment or business.

Mr. Frank Brand moves into his bran new establishment to day, and with this important move in business, he moves in type with an improved advertisement of his move-ments in the future. In his well-appointed and commodious building, he will be prepared to serve his customers better than ever. There will be separate apartments in which lunches and meals will be furnished ladies and gentlemen. There are a number of well furnished rooms, up stairs, for the accommodation of boarders, who will be entirely separate from transient customers. Boardings will be taken with or without lodgings at the most reasonable rates, and have separate dining room to themselves. Persons, with their families, from the country desiring cheap meals and of good quality, will find Frank's hostelry a quiet and homelike place to stop at.

The best of bread, cakes, and confections always on hand! Give Frank a call and see for yourself.

State Superintendent Fay has at last opened his eyes to the fact that the State Legislature has applied the school fund to other objects besides the maintenance of the public schools. The item pointed all this out while the Legislature was in session, when, possibly, a vigorous protest from him might have prevented the evil. The public schools will, practically receive no assistance from the State educational fund this year. Mr. Fay may succeed in preventing the State University and the Mechanics and Agricultural College from getting any of the money, but it can not be drawn for educational purposes without further legislation. The last report we have had of the condition of this fund showed a balance of seventeen thousand dollars to be distributed among the fifty-six parishes of the State. This amounts to a few mills more than five cents for each educable child in Louisiana.—N. O. City Item.

Both the Opelousas papers, the COURIER and Democrat, come out in strong leaders advocating ex-Associate Justice A. DeBlanc, of St. Martin, as the next Democratic candidate for Governor. Between two such men as Judge DeBlanc and Gov. Nichols it is hard to establish a preference. Both enjoy the same unblemished reputation; both stand extremely high in public estimation; and both are possessed of undisputed qualifications for the position. Were Louisiana blessed with either of them for Governor, she would indeed stand peerless, on that score, among the States of the Union. The people of Louisiana could do no better than to make a choice between them; they will be sure to honor themselves by selecting either.—Lake Charles Commercial.

THE CALCASIEU GAME LAW.—Our Police Jury this week adopted an ordinance, (by authority of the latest act of the General Assembly on that subject), providing that hereafter, in the parish of Calcasieu, wild game may not be pursued, caught, killed or taken into possession, during the following periods, viz.: Deer, from February 1st to July 31st, inclusive; partridges or quail, pheasants or prairie chickens, and wild turkeys, from April 15th to September 15th, inclusive. All other game animals and birds in Calcasieu may be killed at any time.—Lake Charles Commercial.

Remi Mornhinveg's display of fine jewelry, watches, clocks, silverware, etc., is worth seeing, and very cheap.

A large quantity of pine flooring and ceiling now on hand at the St. Landry Planing Mills, cheap for cash.

The End of the World.

The following, from Demore's for May, 1882, will be read with increased interest now, since the comet now to be seen in the eastern sky is pronounced by astronomers to be the famous comet of 1843, referred to in the extract below: Richard W. Proctor, the astronomer, has created quite a scare recently. He ventured to suggest that perhaps the world would come to an end about the year 1897. The comet of 1868, one of the greatest upon record, returned in 1843, and some astronomers believe it will reappear in 1897, so near the sun that it may fall into it. If its substance is solid or if accompanied by meteorites composed of substantial matter, the effect of its fall upon the sun would be to develop a vast amount of heat throughout the solar system, and so destroy all animal and vegetable life upon this globe. That such accidents do happen throughout the universe is probable, for it is known that stars suddenly blaze out and then disappear forever. A star in the Northern Crown in 1866 for a few days shone out with a wonderfully increased light, clearly due to an addition to its temperature, and such an accident may happen to our sun. It is known that the best portions of our globe were at one time subject to glacial action, that is, icebergs and a frozen sea covered the greater part of the northern hemisphere. The sun at that time must have withdrawn some of its heat, and a catastrophe of an entirely different character may also occur. However, 1897 is some time off yet. Then, it is not settled the comet of '97 is due at that time, and furthermore there are serious doubts as to whether the fall of a comet into the sun would have any appreciable effect. Astronomers have reason to believe that the earth has been several times touched by the tail of the comet, without its inhabitants being aware of it. It is hardly worth while keeping awake at night, thinking over the possible effect of a comet striking the sun in 1897.

A NEW BRANCH.—Yesterday a T-D. reporter, in conversation with several railroad men, learned that the Southern Pacific Railroad Company has a force of engineers surveying a line from Vermillionville to West Baton Rouge. Rumor has it that the Southern Pacific, if it builds to West Baton Rouge, will run into this city over the track of the Texas and Pacific, thus giving them a shorter route to New Orleans than Morgan's Louisiana and Texas Railroad.—N. O. Times-Democrat, Oct. 8th.

And so it seems there was a good deal of sympathy among the Georgia colored people, who were expected to vote for Gartrell. Colored people at the South are getting tired of being led by the nose. The mass of them, when they have voted for Republicans and Independents, have got nothing but misgovernment when successful. It is only a few that manage to pick up the crumbs that fall from the tables of the white Republicans.—Mobile Register.

St. Martinville Observer, 7th: Last week, Mr. L. C. Duchamp ground an arpent of cane, on a trial, which yielded 43 barrels of sugar and 120 gallons of syrup and molasses. This is assuredly splendid for the season, because the cane has not yet attained its full maturity. Several of our planters will soon commence grinding, and should the weather continue propitious we predict a good harvest.

A singular accident happened to a little colored girl the other day. Being in a cart with several other persons, by some unaccountable manner, she fell out of the cart in front near the shaft; the wheel missed her head, but took an ear clean off, only leaving it hanging by a small ligament. A physician was at once seen who took the cartilaginous funnel and put it in its natural place and bound it up. It has since been ascertained, that there is a strong probability of the above mentioned appendage sticking to where it properly belongs.

What Tom Moore Said.
"Wrinkles are democratic and fatter nobody." The same may be said of all blemishes of the skin, whether caused by sickness, age or accident. "GLEN'S SULPHUR SOAP" will at least retard the time when wrinkles make their appearance, by keeping the skin of a velvet softness, improving its elasticity, and preserving its healthy appearance. It gives a healthy aspect to the skin, which cannot be distinguished from the natural hue of a pure blonde complexion. Beware of counterfeits. See that "C. N. CRITTENTON, Proprietor," is printed on each packet, without which none is genuine. Sold by druggists and fancy goods dealers.
Hill's Hair and Whisker Dye, 50 cts.

Mrs. A. B. Chachere is just back from New Orleans with a large and select stock of fashionable millinery goods, and will be pleased to see her patrons at her new stand, corner Court and North streets.

Go to the St. Landry Planing Mills for doors, sash, blinds, door and window frames and anything in the line of planing mill work.

Ladies, if you want something really nice and elegant in the line of stylish millinery, call on Mrs. A. B. Chachere, and you will find it.

If you want to buy a new piano or organ, come and see us. We can tell you how to save some money in such a transaction.

Why go to New Orleans for doors, sash, blinds, etc., when you can get them at the St. Landry Planing Mills for the same money?
