VOL. XXXVII.

OPELOUSAS, PARISH OF ST. LANDRY, LA., OCTOBER 26, 1889.

NO. 5.

Opelousas Courier.

Official Journal of the Parish of St. Landry.

PUBLISHED ON SATURDAY BY LEONCE & L. A. SANDOZ

OPELOUSAS: SATURDAY, OCTOBER 26, 1889

Rumor has it that another livery stable will soon be opened in Opelousas.

Just received—one car-load of Texas red rust proof seed oats by J. Meyers & Co.

Found, about Oct. 10, a gentleman's picture, from a lady's breastpin. Can be had at this office.

You will save from 20 to 25 per cent by purchasing all your school books, stationery, etc., at Jacobs' News Depot.

Mr. Gus. E. Dupré has purchased Mr. B. F. Megnin's livery stable, and will continue the business at the same stand.

It is rumored that another grocery will be opened in town soon—in Bridgeville—at the old Juge stand, on Landry street.

J. Meyers & Co. have just received a large consignment of white and gray blankets which they will sell at one-half the usual prices.

Rice has been coming to town in a solid stream all the week and it has all our local buyers could do to "keep up with the procession."

The shipment of produce for the season from this place up to Oct. 23d, inclusive, is as follows: 1741 bales cotton, 2244 sacks rice, 1425 tons cotton seed.

The old Lefebvre stand, corner Court and Landry streets, is being put in condition for occupancy as a grocery store shortly to be opened by Mr. B. F. Megnin.

An entertainment will be given by the Ladies' Mission Society at Mr. C. Jewett's residence in Opelousas, on Friday night, the 1st of November, for the benefit of the Baptist Church. Come one, come all!

No new developments in the bond case this week, and no news from Major Burke, for whose extradition the necessary legal steps have been taken. It is reported that he has left London, in which case the extradition measures will be useless.

The steamer Warren, Capt. M. Kenison, is now running in the Vicksburg trade. The Teche, Capt. A. P. Trousdale, Clerk E. Quatrevaux, and the Alto, Geo. Creath master, and Theo. Jobin, Clerk, are running in the Atchafalaya trade.

Be very, very careful with fire this dry weather. If a fire should break out there would be no means of stopping it; it would just have to burn itself out. Drinking water, even, is becoming scarce—so say nothing of water with which to extinguish a fire.

PHAT.—The Natchitoches Review contains nearly three columns of Constable's sales, the property seized being in almost every case corn and cotton, and the advertisements to run 30 days. The writs were issued by our old Grand Coteau friend, André F. Grimmer Justice of the Peace of the 9th ward.

Work on the Kansas City, Watkins and Gulf railroad is progressing steadily northward from Lake Charles. There are now seven camps from the fourteenth to the twenty-eight mile on the line. If it goes to Alexandria it will probably pass near Prudhomme City, 15 miles from Opelousas, while if it goes to Natchitoches it will pass near Oaklin Spring, on the Calcasieu river, some 35 or 40 miles further west.

On last Tuesday night at about 8 o'clock Theodore Guillory shot and killed with a double barrel gun one Norval Guillory at Fane Bleu, near Faquetique, in this parish. The slayer came to town on Wednesday morning and surrendered himself to the sheriff, claiming that the deceased was the aggressor and that he had acted in self-defense. He was lodged in jail. Both the parties to the case were fair and white.

The Opelousas Philharmonic, Literary and Dramatic Association will present at their hall, next Monday night, the drama in three acts entitled "The Spirit of 1900," or "The Coming Woman." The talented cast are well up in their parts, and what with a good play, fine music (Prof. Mayer will be there—*est tout dire*) and plenty of dancing, a delightful evening may well be anticipated. See advertisement.

The announcement that Rev. Father O'Shanahan, S. J., would deliver a lecture at the Catholic Church last Sunday attracted a considerable number of our citizens who are not regular attendants and who like the large congregation of the faithful were very much edified by the distinguished divine's eloquent and instructive discourse. To-morrow (Sunday) Rev. Father Frin will deliver a lecture in French on "The Divinity of the Church Proved by its History."

The National Democrat is a large 8-page weekly recently established at Washington, D. C., by Edmund Hogan, Esq. It is very ably edited and contains a large amount of interesting political news and comment to be found in no other publication that we know of, and is of course reliable and aggressively Democratic. If you want to keep thoroughly posted in political matters you must have this paper. Its price is only \$1.50 per annum and agents are wanted to canvass for it, to whom liberal inducements are offered. Write to Mr. Hudson for sample copy and terms.

The Public Cemetery.

Last July we called attention to the fact that the fence enclosing our Public (or Protestant) Cemetery was broken down and that cattle roamed at will over the graves that have no enclosures. We urged that some immediate steps be taken to put an end to this desecration of the last resting place of the dead, and suggested that it would be better to charge something for the privilege of burial lots and thus create a fund to keep the sacred grounds in proper repair, than to leave them open as a cattle range. We have not heard that any heed had been given to our suggestions; at any rate the scandalous desecration still goes on—the good, sound planks of which the fence is composed are lying in several places prone upon the ground, and the cattle are browsing and trampling on the graves. It is a shame and a disgrace to the community that such a state of affairs should exist; and it is a sad commentary upon our public spirit—aye, upon our civilization, itself—that this lovely spot, which by the expenditure of a few paltry dollars could be transformed into a beautiful "city of the dead," should be abandoned to the beasts of the field for a pasture and totally neglected as it is.

We therefore appeal to our people of every faith to see that a stop is promptly put to this shocking condition of things. If, as seems to be the case, it is nobody's business to keep the fence and cemetery in proper order, let an Association of our citizens be formed for the purpose, and if there be no legal impediments in the way let that Association appoint a sexton and make such other regulations as will enable it to preserve in at least decent order this too long neglected yet lovely "God's acre." But at all events let that fence be put up right away.

This is an auspicious time, when the Catholic world is preparing to celebrate All Saints' and All Souls' days and to decorate with bright flowers and beautiful wreaths the graves of departed friends—this is an opportune moment, we say, for the inauguration of this noble work. If a few public-spirited ladies would take the matter in hand success would soon crown their efforts. Who will take the initiative?

Personal.

Mr. J. P. Russell and lady, of Washington, were in town on Thursday.

Dr. W. H. Ray, of Chataignier, gave us an appreciated call on Thursday.

Dr. F. L. Brown and But Chevis, Esq., of Washington, were among the visitors to our town on Thursday.

Miss E. M. Hathorn, the clever correspondent of the *Bunkie Blade*, accompanied by a fair friend from Moundville, was here in the early part of the week.

District Attorney Jos. C. Gibbs, of Lake Charles, is on a visit to relatives and friends here.

Messrs. Ozémé Fontenot and Pierre Baudoin, of Old Grand Prairie, were attending to legal business in town on Thursday.

Mr. Robt. Lullier, of Whiteville, included some of the superabundant Opelousas dust this week.

Miss Sallie Burgess, of Alexandria, is the guest of Mrs. C. H. Comeau.

Jean Vignaud, U. S. Marshal, was in town Thursday.

Mr. Chas. Dossman, of Mountain Bayou, was in town a few days ago and brought the gratifying intelligence that his springs were not dry yet, though nearly everything else in his neighborhood was.

Dr. R. M. Littell has been in New Orleans most of the week. He will return to-night.

Mr. David Courville, of Faquetique, who was here on Wednesday, says that there is but little water left in Bayou Cane near his residence.

That brilliant emotional actress, Miss Annie Burton, supported by a strong company, the famous Leslie Davis Ideals, will give a dramatic performance at Perrodin's Hall on next Wednesday night, October 30th. Miss Burton is quite a favorite here, and a crowded house will surely greet her on her first appearance this season before an Opelousas audience. Therefore, reserved seats should be secured at once; to be had at Jacobs' News Stand. General admission 75c; reserved seats 1.00.

The aim of the boat appeal is to raise money for the location of the great fair of 1892, as given by the Picayune, is as follows: Wilkinson, of the 1st district, is inclined to favor Washington; Coleman, of the 2d, also favors that city; Price of the 3d, and Blanchard, of the 4th, have not yet made up their minds; Boatier, of the 5th, is inclined to favor Chicago; while Robertson, of the 6th, is decidedly in favor of Washington.

The preparations for the Sixth Anniversary Ball of the O. S. C. are nearing completion. The services of the famous Corona String Band of Washington have been secured for the occasion. That means music which will almost make a Quaker dance.

Remember, taking the quality of goods in consideration, our prices are low. We always carry a full stock of lower priced goods, however.

C. DIETLIN.

The drouth has now lasted eight weeks and everybody, even the man who has "not yet had time" to hoase his corn, is crying aloud for rain.

See C. Dietlin's advertisement of new goods.

This week, up to Thursday evening, T. S. Jacobs' warehouse had received nearly 3000 sacks of rice.

Pittsburgh Coal
At E. H. Vollenbaumen's lumber yard.

Sugar and rice planters are referred to the card of Wm. B. Bloomfield. 6m

WANTED!—20 cords of fire wood. Apply at this office.

A Mystery Explained.

Strolling around town one day this week in search of items, which have been remarkably scarce lately, we noticed quite a gathering about the store of J. Meyers & Co., at the corner of Main and Landry streets, and dropping in to see what was up, we found this large establishment literally crowded with customers, and the entire force—numbering fourteen employees, exclusive of the inspection of the house—attended to the wants of the eager patrons, several of whom were from distant parts of the parish and some from adjoining parishes.

With the pardonable curiosity of a newspaper man, we instinctively began looking around for an explanation of this unusual bustle at this comparatively quiet season. We were not long in solving the mystery—for without the necessity of encroaching upon the valuable time of either proprietors or employees for the desired information, a hurried inspection of the house afforded us a clue to the situation.

First, we found that the vast establishment was completely filled with goods, each department judiciously assorted, and comprising dry goods, fancy goods, notions, clothing, hats, shoes, hardware, groceries, etc.; and what particularly drew our attention was a line of goods just added to their stock, and which, perhaps, was never before attempted in any country store—we mean all the best assortment of fittings for steam engines and boilers, a feature which will doubtless prove of immense advantage to the machinist and engineer, who may now get here at home just what they need and when they need it, and at prices that will compare favorably with New Orleans. When we consider that all these goods were bought at wholesale, from first hands and in car-load lots, and carefully and judiciously selected by the proprietors in person, who are selling them at a small profit, it is easy to account for the rush at J. Meyers & Co.

As their notable feature which struck us as an innovation in Opelousas that cannot fail to prove a popular one with all classes of buyers, is that all goods are marked in plain figures—an unmistakable evidence of uniform low prices; and as an instance of low prices of goods, we happened to notice an immense pile of calicoes, including American judigo blue and best dark prints, which are usually sold at 7 and 8 cents, being rapidly sold at 5 cents a yard; a lot of full finished children's hose selling at 10 cents per pair, usually sold at 25 cents; a lot of cashmeres, double width, all shades, worth 40 cents per yard, going at 25 cents; ribbons, all shades, worth 20 cents, going like hot cakes at 10 cents, and other goods at same rates; and that, to our mind, explained the mystery of the rush at J. Meyers & Co.

Kissing in Different States.
When any one attempts to kiss a "jantucket" girl, she says, "Come sheer off, or I'll split your mammoth with a typhoon." The Boston girls hold still until they are well kissed, then flare up and say, "I think you ought to be ashamed."—Indiana girls obey the Scriptural injunction and when smitten on one cheek turn the other.

Georgia girls say "The idea," but when a man is smart enough to kiss a Louisiana girl, she smiles, blushes deeply and says—nothing.—And speaking of Louisiana, Jos. Bloch has the most magnificent stock of furniture in this part of the State, and is selling it at remarkably low prices. He also has an immense lot of stoves—a full hundred—and sells them very low.

Chicago is actively at work seeking to secure the banking capital for the World's Fair of 1892. It started out with the backing of nearly all the Western States. Its greatest weakness was in the South, and it had the good sense to see that this section held the balance of power in the contest between it and New York.

It therefore turned its efforts in this direction and has already achieved important results. The Board of Trade of New Orleans has unanimously endorsed it. It has secured also the backing of Tampa and Southern Florida, bound New York and the East by the strongest ties as the winter resort of thousands of Eastern people. Chicago has sent a formidable and impressive delegation, headed by Carter Harrison, to Atlanta, to urge its claims before the Georgia people. Its orators have spoken before the Legislature, and expect to pick up a great many endorsements and much support in the South Atlantic towns.

In the meantime, says the N. O. Times-Democrat, New York is lagging behind in its exposition plans not yet fully organized, the treasury empty and the entire project in bad condition.

Physicians' Confess.
All honest, conscientious physicians who give B. B. (Botanic Blood Balm) a trial, frankly admit its superiority over ALL other blood medicines.

Dr. A. H. Roscoe, Rockmart, Ga., writes: "I regard B. B. as one of the best blood medicines."

Dr. A. H. Roscoe, Nashville, Tenn., writes: "All reports of B. B. are favorable, and its speedy action is truly wonderful."

Dr. J. W. Rhodes, Crawfordville, Ga., writes: "I confess B. B. is the best and quickest medicine for rheumatism I have ever tried."

Dr. S. J. Farmer, Crawfordville, Ga., writes: "I cheerfully recommend B. B. as a fine tonic and blood purifier, and an excellent cure of the neck after other remedies effected no perceptible good."

Dr. H. C. Montgomery, Jacksonville, Ala., writes: "My mother insisted on my getting B. B. for her rheumatism, as because stubbornly resisted the usual remedies. She experienced immediate relief and her improvement has been truly wonderful."

A prominent physician who wishes his name not given, says: "A patient of mine whose case of tertiary syphilis was surely killing him, and which no treatment seemed to check, was entirely cured with about twelve bottles of B. B. He was fairly made up of skin and bones and terrible rashes."

Redwine, Jackson parish, La., December 1, 1886.

C. M. Sherrouse, Agt.—I can say for Dr. Tichenor's Antiseptic that it is a sure cure for festering sores and ulcers. I have tested it on a bad case, and effected a cure in a remarkably short time.

O. H. SPENCER.

General Notes.

Dr. Smythe has been appointed Superintendent of the New Orleans Mint. For a period of thirty days only, 200 choice 25c notes, will be sold at 20c each at Jonas Jacobs' Literary Depot.

The Pointe Coupee Banner says that several sugar houses in that parish began operations early last week.

On account of his removal from the State, Gen. J. L. Brent has resigned the presidency of the Louisiana State Agricultural Society.

Alexandria Democrat, 23: To date the Alexandria Compress has received 2349 bales; shipments 2311 bales; on hand 518 bales.

Frosts, drought and fires have destroyed crops in portions of Minnesota, Wisconsin, Oregon, Indiana and North and South Dakota, and great destitution prevails in consequence.

The Grand Jury of Acadia parish recommends to the Police Jury the removal of the Southern Pacific railroad bridge across the Mermentau river as an obstruction to navigation.

Dr. J. L. Posey, formerly of Opelousas, and now at the Marine Hospital service, telegraphs under date of the 23d to the National Health Bureau at Washington that another case of yellow fever exists at Key West.

New Iberia Enterprise: By mutual understanding between the owners of the two cotton gins in New Iberia, the price paid for cotton in seed was \$25 per 1000 pounds, until last Friday, when a misunderstanding arose and competition sprung up sending the price to \$30, at which it has since remained. A few loads were even sold as high as \$32.50.

Alexandria Democrat, 23: The Mission, conducted by Rev. Fathers Downey and Power, S. J., was opened in St. Francis Xavier's Catholic church on Sunday last, and will continue until Sunday next, the 27th, when Fr. Rev. A. Durier, Bishop of Natchitoches, will close the Mission and bless the new convent and school.

School books at Jacobs'.

Octavo Fontenot.
The N. O. City Item of Oct. 21 contains a good likeness of the gallant veteran whose name heads this brief sketch, the 14th of the regular army, and the 25th April, 1862, for Camp Moore, where we remained until May. We were then ordered to Vicksburg. Our first engagement was near Warren's Bluff, where we were defeated. Our next engagement was at the Chickasaw swamp. On the morning of the 22d, before day, we were attacked by Blair's regiment of the Thirteenth Army Corps. We held them in check until 1 o'clock in the evening, when they were ordered to retreat. They were killed and wounded. At the moment of being flanked we fell back along side of the twenty-fifth Louisiana, which was in the front, and retreated under a heavy fire of artillery and infantry. The ladies of Vicksburg sent us two barrels of whisky in consideration, as they said, of the fact that we had not had time to drink their health that night. Monday, the 29th December, 1862, at about 10 o'clock in the day we were assaulted by the Thirteenth Army Corps, and were driven back to the fortifications and took four desperate charges before we were beat on back with heavy loss. On Friday, the second day of January, 1863, seeing no more chance of success, we were ordered to retreat. We were ordered to advance and reconnoitre the Chickasaw swamp. We found where the enemy had camped. They gave us a volley of shot and shrapnel, and we were ordered to retreat. We were ordered to advance and reconnoitre the Chickasaw swamp. We found where the enemy had camped. They gave us a volley of shot and shrapnel, and we were ordered to retreat.

Items of Interest.

The grand jury of Iberia parish brought in twelve indictments last week for violation of the Sunday law.

St. Martin Messenger: Cotton in seed is selling at \$28 per thousand pounds, two dollars less than it sold at the opening of the season.

To strengthen the hair, thicken the growth, stop its falling and falling out, and where it is gray to restore the youthful color, use Hall's Hair Renewer.

St. Martin Reveille: A fifth branch of the Order of Catholic Knights was established in New Iberia by Rev. Father Lavagner, with Willie Barbo as acting secretary.

What's the matter with that silver dollar? It's all right for you can now use it in paying for the New Orleans Weekly Times Democrat for a whole year.

It is announced that 830 Sioux Indians will become legal voters in South Dakota next week, and will be admitted and settled upon a farm of his own.

James G. Blaine, Jr., has returned to Waverly, Mo., and resumed work in the machine shops of the Maine Central Railroad, where he is busily engaged in learning his trade.

St. Martin Reveille: Father Charles Desnoy has made the acquisition of two bells for his church at Arnaudville. We are told that one of these bells weighs about nine hundred pounds.

If people would take the advice of J. Lassalle, they would never start on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It can always be depended upon and is pleasant to take.

The Donaldsonville Chief gives detailed proof to show that Albert Simonoux, "the impostor," is not the same person as the alleged miraculous cures by the "saliva" process are no more at all.

Yavalls should remember that the causes of colds and fevers are not to be promptly removed by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It can always be depended upon and is pleasant to take.

Bonville News Enterprise: Mr. L. A. Taylor, of this ward, made and gathered fifty-eight bushels of corn per acre on hill land. This shows plainly that can be done on the upland of Bonville, Claiborne, Webster and Lincoln parishes.

An alligator was killed in bayou Nez-Piqué, Calcasieu parish, that had flourished there for several years and eaten 75 hogs, some of the amount of the neighborhood. The animal was 15 feet in length and had 60 teeth, some of them 3 inches long.

The case of John T. Moore vs. The Western Union Telegraph Company, for damages on account of delay in delivering a telegram announcing the death of his brother, was tried in the District Court at Huntville, Tex., on the 11th, the plaintiff being awarded \$2,000.

The New Orleans States Gazette, an eminently conservative journal with Republican tendencies, particularly on national issues, advocates the abrogation of the fourteenth and fifteenth amendments to the Constitution, the proper and most effective method of solving the troublesome negro question.

N. O. States: Senator Mauderson has forsaken over his re-acted pension certificate to the State of Louisiana, and has resigned his seat in the Senate, when he got the notice to vacate the pension office when he was compelled to go into his military service. The government has taken the \$4,000 which his friend had illegally taken from the treasury.

N. O. States: Judging from the tone of many of the Mississippi papers the race question is still a burning one. It is not probable that Senator George's speech in favor of framing a new constitution for the State which will maintain the political and social rights of the whites, will result in a constitutional convention being called at an early day.

We want every mother to know that croup is not a new disease. It is a common ailment without a warning. The first symptoms are hoarseness; then the child appears to have taken cold or a cold may have accompanied the hoarseness. A peculiar rough cough is developed, which is followed by the croup. The time to act is when the child first becomes hoarse; a few drops of Chamberlain's Cough Remedy will prevent the attack. Even after the rough cough has appeared, the disease may be prevented by using this remedy as directed.

The Boston Calligrapher says on the subject of the regulators and regulatorism: The courts will hardly prove themselves powerful enough to put a stop to regulatorism in South Louisiana until public sentiment asserts its unqualified condemnation of the practice, and the law-abiding element show their determination to put it down. The risk of their lives, which they will either have to do or sell out, turn the country over to the regulators and the devil, and leave.

Mr. C. B. Jones, of Spring Hill, Iowa, says: "I used Chamberlain's Cough Remedy for my severe and painful bronchitis with better effect than anything else I have ever tried. It relieves the pain instantly and cures without leaving any mark. Pain killing and other most useful medicines that any family can be provided with, especially for rheumatism, lame back, sprains, bruises, tooth-ache, ear-ache and like ailments. One application will relieve the pain and a fatal trial insure a cure. 50 cent bottles for sale by J. Lassalle and all merchants."

N. O. States: When is a better motor for an engine than a steam engine? The large consumption of coal necessitated by the ever increasing "power" of a steamer's engines implies a large amount of the vessel's space set aside for the reception of fuel; and the fuel now in use is not only bulky, but it is costly, dirty and dangerous. Inventors should be coming to the front.

Your silver dollar is worth more to-day than it ever was before. Why? Because with it you can now get the New Orleans Weekly Times-Democrat for a whole year.

FARMERVILLE, LA., May, 1887.
Having a severe attack of Flux some two years ago, I applied to you, Tichenor, of Baton Rouge, for treatment. He gave me his celebrated Antiseptic, and in a few days I was relieved and cured. JAMES RABUS.

Physicians Use It.
One great argument in favor of Dr. Westmoreland's Calisaya Tonic is that physicians never hesitate to use it in their practices. The formula is furnished to physicians asking for it. The following is proof positive as to its merits.

Dr. J. M. Colquhoun, S. C., writes: "I have very thoroughly tested your Calisaya Tonic and do not hesitate to pronounce it a most remedial agent. As a stomachic and a tonic it is unsurpassed. For eliminating malaria, for curing dyspepsia and repairing their deleterious effects, for rebuilding, reinvigorating and giving tone to the system when reduced by protracted or severe fevers or other debilitating causes, there is in my judgment, no other preparation in the whole field of medicines equal to it."

Dr. J. F. Esson, M. D., Former Physician and Surgeon, at C. Inman's Asylum.

Dr. Westmoreland's Calisaya Tonic is sold by F. E. Bailey, Opelousas, and Blake & Durke, Washington, La. Oct 19

A BIG CUT IN RATES.—The Texas Pacific Railroad have put on a rate of 25 cents per 100 pounds on all descriptions of merchandise, regardless of classification, from New Orleans to Shreveport. They claim that they are forced to this action on account of a rate of 25 cents that is being made from New York to Shreveport via the Morgan and Red River and Coast Lines.

This rate will be of material benefit to shippers, as it is about a quarter of the amount of the old rate.—N. O. Picayune.

St. Mary Banner: Some of the citizens of Franklin are contemplating the organizing of a high school in the town.
