Newspaper Law.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their periodicals, the publisher may continue to send them until all arrears are paid.
3. If subscribers neglect or refuse to take periodicals from the office to which they are directed, they are held responsible until they have settled the bills and ordered their discontinuance.
4. If subscribers move to another place without informing the publishers and the papers are sent to the former direction, they are held responsible.
5. The courts have decided that "refusing to take the periodicals from the office or removing and leaving them uncollected" is prima facie evidence of intentional fraud.
6. Any person who receives a newspaper and makes use of it whether he has ordered it or not is held in law to be a subscriber.
7. If subscribers pay in advance they are bound to give notice to the publisher at the end of their time if they do not wish to continue it; otherwise the publisher is authorized to continue sending it, and the subscriber will be responsible until an express notice of payment of all arrears, are sent to the publisher.

The Beauregard Monument.

The Beauregard Park Commissioners of New Orleans, last week, organized as follows: Mayor Martin Behrman, president; J. J. Weinfurter, president; Natal Maestri, vice-president; H. C. Ramos, secretary and treasurer; Toby Hart, superintendent. It is announced that these commissioners will volunteer their services to assist in raising funds to complete the amount required to erect a becoming monument to Gen. Beauregard, Louisiana's greatest soldier, also one of the South's illustrious chieftains, who will be forever famous for having gained the battle of Manassas, the first great victory of the war, and the hero of many other achievements. Gen. Beauregard was a descendant of the most distinguished of the colonial stock of Louisiana, and he typified the Creole race in all its civility and martial attributes. It is a standing reproach upon the State that this monument, which ought to be one of the greatest objects of interest, has not yet been erected. It should be made the grander because of the delay.

A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga., says of Electric Bitters: "It's a Godsend to mankind. It cured me of lame back, stiff joints, and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in 50 minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all Stomach, Liver and Kidney complaints. Sold under guarantee at all drug stores. Price 50c.

Not only does the clamor come from the fields, but from the factories also, and in both places the complaint is made that negro labor has become more inefficient than the higher wages paid. This is due to the fact that the possession of ready money develops among the negroes "the laying off habit." They are entirely too rich to work and so force the closing down of factories or the loss of harvest, with the attendant financial sacrifice. To remedy this condition many manufacturers and planters have pursued a policy of hiring white labor, preferring Italians or other foreigners to the shiftless blacks. If this continues the negroes of the South will face a great crisis, for the inexorable demand for men will force loafers to the wall.—San Antonio Express.

Luckiest Man in Arkansas.

"I am the luckiest man in Arkansas," writes H. L. Stanley, of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and the cough was completely cured." Cures the worst coughs and colds or money refunded. At all druggists. 50c and \$1.00. Trial bottle free.

A North Louisiana Paper.

The Shreveport Journal, the leading afternoon paper of North Louisiana, full Associated Press dispatches, and news features 18 to 20 hours in advance of any other paper in this section, may be secured delivered by mail to any postoffice for 50c per month or one year for \$5.00. Available as a medium for keeping in touch with the gubernatorial campaign now on in earnest. News agents wanted in every town to handle the Journal, secure new subscribers and make collections. Liberal commissions. Address all communications to the Shreveport Journal Publishing Co., Ltd., Shreveport, La.

The Yellow Fever Germ

has recently been discovered. It bears a close resemblance to the malaria germ. To free the system from disease germs, the most effective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria poison and constipation. 25c at all drug stores.

Articles intended for publication in the COURIER should be sent in before Thursday morning if possible to insure their appearance in the next issue. Matter sent in Thursday evening or later is apt to be excluded for lack of time or space, unless it is of sufficient importance to justify the delay and inconvenience.

Democratic Opportunity.

Mr. Bryan has announced through the columns of his paper, The Commoner, that the principal cause of democratic defeat this year was that the men who secured control of the party organization in St. Louis, solicited no retreat when a charge should have been ordered all along the line. He insists that conditions demand radical action, and that the people want something definite upon which they can rely. The Commoner, he announces, will carry on a campaign of education, advocating tariff reform, the overthrow of private monopolies, labor legislation, municipal ownership of public utilities, public ownership of railroads and telegraph systems, an income tax, the election of federal judges by the people, the election of United States senators by popular vote, direct legislation, and the selection of postmasters by the people whom they are to serve.

It will be necessary to regain control of the party organization. To do this the friends of reform throughout the entire country must work together. A democratic paper of national scope offers the best means for carrying on this work, and the Commoner occupies this field. The campaign of education and organization which Mr. Bryan announces will be carried on through The Commoner will not only be interesting and instructive, but every democrat and independent thinker should receive The Commoner regularly, so as to keep in touch with the progress the reform forces are making, and to fortify himself with facts and arguments to convince his republican neighbor that the democratic party offers the surest relief from class legislation and trust domination.

The low rate which Mr. Bryan has quoted us on his paper enables us to send you The Commoner and Opelousas COURIER both one year for \$3.25. Get your neighbors to join you in circulating democratic literature, and the election returns in 1908 will not call for apologies or explanations.

Startling But True.

People the world over were horrified on learning of the burning of a Chicago theatre in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died on the pneumonia which occurred during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the use of Chamberlain's Cough Remedy. The good man who had every reason to fear pneumonia have warded it off by prompt use of this remedy. The following is an instant of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. Wilcox, Logan, New York. Sold by all druggists and dealers of patent medicines.

The advice given the farmers, if advice must be given them, is that they should put in plenty of corn to feed their stock and fatten hogs, plenty of sorghum or other fodder for the cattle and horses and sheep, plenty of vegetables to help along during the year, plenty of potatoes to supply the family for the year and some to sell; plant and thin plants in plenty, raise poultry and then plant the rest in cotton. For if the crib and the ladder are full enough to last the entire year, with chickens and other things running around the premises, the cotton crop will bring a good price. For the price of cotton is not solely dependent on the size of the cotton crop, but largely on the ability of the man who raises it to hold it till he gets the right price. Without ability to hold the crop, the shortest one of them will be gobbled up at a low price by the buyers in the world's market.—Dallas News.

Afraid of Strong Medicines.

Many people suffer for years from rheumatic pains, and prefer to do so rather than take the strong medicines usually given for rheumatism, not knowing that quick relief from pain may be had simply by applying Chamberlain's Pain Balm and without taking any medicines internally. Rev. Amos Barker of Magnolia, North Carolina, suffered for eight years with a lame hip, due to severe rheumatic pains. He has been permanently cured by the free application of Chamberlain's Pain Balm. For sale by all druggists.

Chamberlain's Cough Remedy the Mother's Favorite.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a favorite with people everywhere. It is especially prized by mothers of small children, for colds, croup and whooping cough, as it always affords quick relief, and is so gentle and so other harmful drug, it may be given as confidently to a baby as to an adult. For sale by all druggists and dealer of patent medicines.

Frightfully Burned.

Chas. W. Moore, a machinist, of Ford City, Pa., had his hand frightfully burned in an electrical furnace. He applied Chamberlain's Arnica Salve with the usual result: "a quick and perfect cure." Greatest healer on earth for Burns, Wounds, Sores, Eczema and Piles. 25c at all druggists.

An Interesting Feature.

The great Commoner, one of the two Americans most in the universal eye, is making a tour which will be memorable in interest and importance. He has already visited Hawaii, Japan, Corea and China, and is now in the Philippines. His tour will include India, Palestine, Egypt and the various countries of Europe. After crossing the Atlantic and spending a brief time in Australia and New Zealand.

Feeling that his countrymen will desire to learn his experiences and impressions, and daring to tell the truth as it appears to him, Mr. Bryan has consented to write a series of letters covering the various phases of his journey. These will not be delayed until he has had time to prune and polish, but will come fresh from the scenes of his study. They will be timely, vital documents, and a literary sensation.

In order that his views may reach the people promptly, it has been decided to permit simultaneous publication in the leading newspapers of the United States. The Picayune has been selected the medium for this territory. The full series will appear in the Sunday Picayune, already the greatest Sunday paper in the South. Illustrations will accompany the articles, and, like them, will be up-to-the-minute. Mr. Bryan's first letter appeared Sunday, January the fourth.

"The best possible schools are those conducted by religious societies, as it is there that character is developed as it never can be by secular schools under State control." This is the recent utterance—not of a Catholic educator, but of the Protestant Bishop Goodell, who spoke at a banquet of the Boston graduates of the Wesleyan Academy of Wilbraham, Mass. One by one the thinking men of Protestantism are coming round to the Catholic view of education, which the Church in America has upheld so long, and for which her children have made so many sacrifices! We look forward with increasing hope to the removal of the injustice under which we labor in being twice taxed for the education of our children.—The Southern Messenger.

At Rochester, Ind., a man digging a well twelve feet below the surface came upon a stratum of ice nine feet thick. In the ice he found a frog which, upon being thawed out by the fire, hopped about as if he were a frog. He could not too quickly get an inspector for that kind of Indiana whisky.

Don't neglect to furnish the COURIER with news items of general interest. Notices of deaths, marriages, the presence of visitors in your neighborhood, etc., ought to appear in the columns of your local newspaper and will be published if same are duly and timely reported. "Phone, Cumberland 110.

Those indebted to the COURIER for subscriptions or otherwise will confer a favor by calling and settling. The amounts are principally small, but all together they amount to a considerable sum, and by complying with this request it will be considered an esteemed favor.
