AMERICAN AND ORIGINAL!

The Knickerbocker Magazine.

Edited by LOUIS GAYLORD CHAIR. THE number of January, 1857, begins the forty-eighth volume of the Knickerbocker Magazine.

Since the price of subscription has been reduced from FIVE to THREE DOLLARS a year, the circulation of the KNICKERBOCKER has been increased nearly four to one. In many places it is sold by the retailers who hit one before, and through the year it has been steadily increasing. It is now offered as cheap as any of the Magazines, and all things considered, instead of making new and prodigious profits, we submit a few extracts from notices of late numbers, which we might extend to a number of pages.

The Knickerbocker has been and will be a fact of its own; a gem in living things; all the more desirable now that the new crop of Magazines, filled with articles printed from English authors, makes fresh home creations more conspicuous and welcome.—[N. Y. Christian Enquirer.

Rev. W. F. SHELTON, Author of Letters from the Up the River, etc., will be a regular contributor.

The best talent in the country will be employed, and no expense or effort spared to make the KNICKERBOCKER more than ever deserving of the first position among our original American Magazines.

TERMS.

Three dollars a year, strictly in advance—there will be no deviation from this condition. Two copies for \$5; Five copies and upwards, \$2 each. Post-payers, and Postmasters are required to send their names, those who will undertake to procure subscribers will receive favorable terms. Specimen numbers will be sent free on application, post paid.

Inducements for Clipping.

The Knickerbocker and Harper's Patman's, Graham's, or Godey's Lady's Book will be sent one year for FIVE DOLLARS; the Knickerbocker and Home Journal, for FOUR DOLLARS a year.

POSTAGE—Two cents per number prepaid at the office where the work is directed, quarterly in advance.

All remittances and all business communications must be addressed, post-paid, to

H. BONNABEL'S BI-SULPHITE OF LIME.

NEW ORLEANS, September 20th, 1856.

THE UNDERSIGNED are now manufacturing, and prepared to supply, pure and refined Bi-Sulphite of Lime, which exceeds in quality and strength any that has been heretofore manufactured. It is almost unnecessary to remind the planters, as they are already aware of the fact, that this Bi-Sulphite of Lime when properly used, never fails to produce a beneficial white and yellow crystallized sugar, that always commands the highest price in the market, and the very best recommendation it can have with Western and other buyers is the fact of its having been made with Bonnabel's Bi-Sulphite, as they consider that a guarantee against any loss in weight, and are always willing to pay a higher price for it. The high repute and favor in which the planters generally hold this Bi-Sulphite is so much a matter of notoriety that it is quite unnecessary to publish here any of the many flattering testimonials received daily from those who have used it, and in variously succeeded beyond their most sanguine expectations in not only making the best sugar ever produced by them, but also in realizing the highest prices for their crops, that always command the highest price in the market, and the very best recommendation it can have with Western and other buyers is the fact of its having been made with Bonnabel's Bi-Sulphite, as they consider that a guarantee against any loss in weight, and are always willing to pay a higher price for it. Very excellent barrels have been secured this season to ship the Bi-Sulphite of Lime in: they are guaranteed not to leak, and when returned they will be refilled and shipped, and the planters will invariably be allowed fifty cents per barrel. Planters who order through their merchants must be particular to instruct them to buy none but H. Bonnabel's Bi-Sulphite, and all orders must invariably be addressed to H. BONNABEL, Corner of Notch and Tchoupitoulas streets.

Barrels returned to be refilled will be taken from the highest price of charge, and will be re-shipped at an additional expense to the planter, except dayage.

Bi-Sulphite of Lime.

THE SUBSCRIBERS inform the planters of the Bi-Sulphite of Lime in the parish of Terrebonne, who have used this Bi-Sulphite, that they are now ready to fill orders at as low rates as any of the New Orleans Manufacturers. By purchasing of us, planters will save the freight from New Orleans, and be allowed the highest price for the empty barrels which they may return. Thibodaux, Nov. 1, 1856. SCUDDAY & EWING.

Notice to the Public.

TO counteract the slanderous reports circulated during the last few days, in regard to the quality of the BI-SULPHITE OF LIME manufactured by us in the town of Thibodaux, the following certificates have been voluntarily offered. SCUDDAY & EWING.

LAFORCÈRE, November 12, 1856. I having been said in the neighborhood within the last few days, that I had tried that the Bi-Sulphite of Lime manufactured in Thibodaux by Scudday & Ewing, was not good, I hereby declare the report false, and further that the article is of excellent quality. P. LORIO.

LAFORCÈRE, November 12, 1856. It affords me pleasure to state that having used several barrels of the Bi-Sulphite of Lime manufactured by Messrs. Scudday & Ewing in Thibodaux, it has proved to be of excellent quality. G. B. GUION.

LAFORCÈRE, November 12, 1856. I certify that I have been using the Bi-Sulphite of Lime made in Thibodaux by Scudday & Ewing, during the last five days, and pronounce it a good article; the sugar made with it being very fine. R. G. DARDEN.

BI-SULPHITE OF LIME.

THE UNDERSIGNED having established a BI-SULPHITE OF LIME MANUFACTORY in the City of New Orleans, take pleasure in stating to the Planters generally, that they are prepared through the assistance of an experienced Chemist, to furnish a superior article.
