GRANT SAID HAMPTON WOULD STAND, BECAUSE THE PEOPLE OF SOUTH CAROLINA PAID THEIR TAXES.

Compromises seem to have seen their best days. Where is now the man so poor as to do them reverence?

The New York Times, the ablest Republican paper in the country, says that the step already taken by the Administration in the withdrawal of the troops from the State House in South Carolina, "to be followed, as it must be, by similar action in regard to Louisiana."

One of the best jokes of the season is the blind credulity with which many Northern people receive the stories that are sent up from here about Packard's desperate courage.

The "awful disclosures" with which Packard & Co. have been threatening Mr. Hayes and the Republican party arent in the manner in which Presidents and Governors are manufactured in Louisiana and ballots endowed with a sort of back-action, boomerang power that defeats the candidates receiving the highest number of votes, don't seem to have scared anybody very much.

Well, the Commission has been here nearly four days; Ludeling, Leonard, Bay et al. have made statements; the Rump has enforced in several more undying resolves never to abandon their burly leader, so long as there remains a shot in the locker or a dollar of the people's money in his hands, and yet Packard is not happy—because Mr. Hayes will not amend and enlarge those instructions beyond the scope of the "narrow" inquiry "how Nicholls can be sustained and Packard started to death for lack of money to support his government."

The New York Tribune, which, a month ago, was much more inclined to approve Mr. Hayes' Southern policy as a sentimentality than to endorse and advocate the practical and logical consequences which must necessarily flow from a sincere application of that policy to the solution of the Louisiana question, now holds that the duty of the Commission is, not to find out whether military interference should or should not be continued, but, to discover the best way of putting an end to it.

A man who jumped overboard recently to save his wife from drowning, has explained his action satisfactorily to his friends. He said she had a good deal of gold about her person, and gold was high.

In good old times importations of Piper-Heidsieck one year reached 63,000 baskets.

BURNETT'S FLAVORING EXTRACTS.—The superiority of these extracts consists in their perfect purity and great strength. They are warranted to be the composition of many of the famous fruit flavors now in the market.

NOTES.

Four members of Hayes' Cabinet voted for Greeley for President.

In 1875 five hundred and ninety bears were killed in Maine, on which a bounty was paid of \$295.

Jay Gould drew \$1,200,000 dividends on Union Pacific last year. His votes on 133,720 shares.

Currency has been given to a rumor in the city of Mexico that Cortina, Canales and Trevino intend to set up an independent republic.

The San Francisco Bulletin prints figures to show that 73 mines on the Pacific coast have paid \$23,423,100 in ten years. Of this amount twelve of the Comstock mines distributed \$70,000,000.

Germany is now spending \$80,000,000 a year on her army, and France \$100,000,000. The new German Parliament is face to face, for the first time, with an imperial deficit.

From 80,000 to 100,000 horns were weekly used in Aberdeen for comb making until the importation of steel was prohibited. The stoppage of supply has caused great stagnation.

Abner Taylor, the Greenback candidate for Mayor of Chicago, has published a card withdrawing from the contest, and regretting that the time has not yet come when parties are to be disregarded in filling municipal offices.

While a Roman Catholic demonstration was in progress in Derry on St. Patrick's day, the police discovered a large jar charged with gunpowder and sharp stones, and a flag attached to it, placed near the route of the procession.

A huge rhinoceros got loose in the steamer Colon in a storm off Cape Hatteras, and killed two dogs and a horse before being recaptured. It seemed to be infuriated by the rocking of the vessel, but became tractable when a calm ensued.

The Irish Catholic members of Parliament have resolved to present a suitable address to the Pope on the occasion of his great jubilee. The O'Connell Don, Mr. M. A. Sullivan, the Chevalier O'Leary and others were appointed to draft the address.

The gatherers in the window glass factories of Pittsburgh and vicinity have struck for an advance of about thirty per cent in wages. The managers met yesterday and resolved to refuse any advance, saying they are paying all they are able to pay, and if the men insist on the advance the managers will close up their works.

According to some statistics on serf emancipation which have been published in the Gode's, there are still 2,000,000 of serfs in Russia, their emancipation not having been effected, either in consequence of the high price of land or their own unwillingness to accept the new state of things. In the Eastern provinces of the empire the annual number of serfs emancipated is rapidly diminishing. From 1861 to 1863 it was over 500,000; from 1863 to 1870, 350,000, and in 1870 it was only 110,510.

SOUTHERN NEWS.

Louisiana. Labor is good and plentiful in St. James.

The small-pox is gone from Plaquemine parish.

Dr. A. Glady, elected coroner of Lafayette parish at the last election, has resigned the office.

The Robinson place, parish of St. John the Baptist, which sold six years ago for \$12,125, was re-sold last week for \$22,000.

Some sixty residents of the Fourth Ward of Carroll parish, have forwarded a petition to Senator Gila, protesting against the division of the parish.

The sugar-house of the Villers plantation on Bayou Lafourche, six miles below Thibodaux was burned last Sunday night. The fire was the work of an incendiary.

Mr. Delucky, on Bayou Beuf, planted fifteen acres of cane, but not a stalk came up. All rotted in the ground. It is greatly feared that much more cane will turn out equally bad.

Planting has been seriously retarded in Livingston parish by frequent and heavy rains. The streams on the main route are almost impassable, and communication between the towns and farms very inconvenient.

There was picked up last week, near Campje, the body of a white child, between nine and ten years old, without head, arms or feet—the body so mutilated as not to distinguish sex.

Notwithstanding the efforts of the City Council of New Iberia, rowdiness still prevails in that town. On Monday night of last week a crowd of ruffians completely demolished a negro cabin with brickbats and stones, in a wild drunken spree.

A charge of disturbing the peace has been made against G. W. Simpson, Radical justice of the peace for New Iberia, by deputy town constable Charles Davidson. An affidavit was also made against him for carrying and drawing a concealed weapon upon Fred, Decourt.

There seems to be a gloomy fear in Lafourche that the cane stubble is all rotting in the ground. In looks it is all right, but is now so fearfully behind time that it is thought it will never come up. When examined closely, it shows a black speck which, it is thought, is rot.

Livingston holds its election, to determine on the location of the parish seat, the first Monday in July. There are three places to be voted for, Springfield, Port Vincent and the centre of the parish, alias Centreville. The question of parish seat has been an old sore in Livingston. It is to be hoped it will be settled this time forever.

A most shocking murder took place in Sabine parish last month, one of the most estimable citizens of the parish, Dr. H. W. Evans. Dr. Evans was arrested on a charge of bigamy, by G. B. Goodloe and Porter Brown, without warrant or authority, as is stated in our informant; they took him some eight or ten miles to near or at the Sabine river, and there shot him to death. Evans had \$25 in money, of which he was robbed; and some native gold in his possession, with his hat and valuables to the amount of \$100, were taken from his body by these parties, Goodloe and Brown. The citizens of the neighborhood, both on the Louisiana and Texas side of the river, were naturally incensed at this brutal murder, and offered \$1500 for the capture of the murderers. One of these, Goodloe, is the brother-in-law of Dr. Evans, the doctor having married his sister only some six weeks ago.

Mississippi. A number of our citizens left yesterday to attend the New Orleans races.—(Vicksburg Herald.)

Gen. E. C. Furlong of Vicksburg, is another suggestion as a fit Democratic candidate for Governor.

Jane Anderson, Helen McLean, Willis Teague, and Perry Harris of Keokuk—all colored—convicted of the murder of Wiley Miller, colored, were sentenced to be hung on the 4th of May.

Handsome boasts of mysterious aerial music that is wholly unaccountable. Gayarre in his history of Louisiana tells of a similar phenomenon that occurred a century and a half ago at the same place. Will not some natural philosopher explain this mysterious music?

The Edwards citizen says there has been several cases of small-pox among the negroes on Mr. Henry Coker's place, between Edwards and Raymond, within the last two or three weeks. The disease, it is said, was brought from Vicksburg, but Vicksburg denies the charge.

Clatsop county, Miss., is a correspondent of the Vicksburg Herald shows, one of the best ports on the Union for stock raising. It now boasts of Berkshire and Poland China hogs, short-horned cattle and fine sheep. "All cotton is played out with us," the correspondent writes up.

Texas. Cotton receipts are improving at Jefferson.

Dallas is troubled with a superfluity of rats.

Good horses are selling at \$5 a piece in Bexar.

The pecan crop of Brown county is worth \$23,000 a year.

Liberal contributions are being made to the State Fair fund.

There is good promise of an abundant peach crop in Brazos county.

A drove of 5000 cattle, from Goliad county, is on its way to Fort Worth.

The Statesman says farmers are delaying crop planting on account of grasshoppers.

Only twenty-eight men are announced in the

Democrat as candidates for city offices in Fort Worth.

Six prisoners broke jail at Fort Worth on Wednesday night. Two of them were recaptured, but four got away, three of whom were horse thieves.

The recent advance in State warrants is, under all circumstances, very gratifying, and is a good indication that Texas is taking care of her local interests. State warrants now command 95 cents.

Another party have left Fort Worth for Northwest Texas to make permanent locations. This party goes to Archer county and will locate near the Three Forks of the Little Wichita, and near the celebrated Archer copper mines.

The Waco Economist of March 27 says: The Mexican lion which some weeks ago annoyed the citizens of the Barrett's Mill neighborhood, and was driven away, reappeared there last week. Mr. Allen Watson, of a hunting party, was attacked and severely bitten by the animal. They had not, at the last accounts, succeeded in killing it.

Reys the Houston Age: There is not now nor has been the slightest trouble existing between the Texas planter and his colored laborer since the overthrow of the carpet-bag State government. They live in peace and quiet, fully and freely acknowledging mutual obligations. After all the falsehoods which have been published, the colored laborer is paid more on the plantations in Texas than the white laborer makes upon the farms of Illinois.

HAMPTON GOVERNORS SOUTH CAROLINA THROUGH THE FORCE OF TAX RECEIPTS.

The Safety of Our Families and Homes.

The advantages offered by the American District Telegraph Company are so manifest and invaluable that we cannot avoid expressing our astonishment that so few of our citizens have availed themselves of its benefits.

An individual applies to the company to place a signalling apparatus in his premises—whether business establishment, private residence or boarding-house—and this is forthwith effected without any expense or trouble to himself, the instrument being connected at the same time with the District Telegraph office by means of the electric wire.

The signalling apparatus has but four duties to perform, and these are carried out in the following manner: By moving a crank to the word "summoner" and letting it go you will summon a messenger boy to your store or house, in from two to seven minutes.

By moving a crank to the word "summoner" and letting it go you will summon a messenger boy to your store or house, in from two to seven minutes.

By moving a crank to the word "summoner" and letting it go you will summon a messenger boy to your store or house, in from two to seven minutes.

P. O. FAZENDE, Stock, Note and Bond BROKER.

OFFICE—No. 175 COMMON STREET.

SELF-HEATING, FLUTING, AND NOBI ONHISTION

One Whole Set of Irons in One. ALL THE IRONING AND FLUTING ONE HAND CAN DO WITH ANY NUMBER OF IRONS.

It is a Nickel-plated case Iron, with a wooden hand piece, heated and continually kept hot by two cast-iron plugs.

ITS ADVANTAGES. First—Saves one-half or more of the fuel ordinarily used in ironing.

Second—Saves three-fourths of the walking and changing of the old iron process.

Third—Can be heated with either coal or wood stoves or grates.

Fourth—We use all sides of the iron and utilize all the heat, thus gaining one-half on the old process.

Fifth—Always clean; never rusting, never being exposed to soot.

Sixth—One single heat will iron from thirty minutes to one hour, according to weight and moisture of the goods.

Seventh—The fire you cook with can be covered with vessels, thus saving the entire amount of fuel used ordinarily in ironing.

Eighth—Does better work, more smoothly and less soiled than any other iron in the world.

Ninth—Saves time, fuel and labor; thus saves money; is the only practical Patent Iron on the market, and will eventually take the place of the old one-faced iron.

J. M. BRAND, Sole Agent, 202 Canal street.

FOR SALE. A HANDSOME PLACE OF TWO ACRES front on the beautiful river Tchou, comprising 24 acres of excellent newly-fenced land, of which 20 are admirably adapted to the cultivation of sugar, cotton, or corn; the balance consisting of a magnificent meadow in which the residence is situated. The whole property will be sold, consisting of the land above mentioned, and a residence, kitchen, cabins, stable, vegetable and fruit gardens, and all necessary outbuildings. This offers an excellent opportunity to any one wishing to raise stock, or to cultivate cotton or sugar on a small scale, there being a cotton gin and sugar mill in the neighborhood. The property has never been inundated. The dwelling-house is comfortably furnished, and will be sold with or without furniture.

For particulars address A. E. G. Postoffice Box 220, New Orleans.

BUDWEISER BOTTLING BEER

BUDWEISER BOTTLING BEER

BEER,

which is undoubtedly the best beer in the world. We offer it in cases (Pints and Quarts) at very LOW PRICES.

MILLER & BIELMANN, 121 Canal Street.

Southern Shoe Factory OF JOHN HANSEN, 33 and 35 Canal street, New Orleans.

TO ALL SOUTHERN CITIZENS.

I am of the same opinion as yourselves, and am determined to help build up the manufacturing interest of our native State in order to help the laboring classes and keep the money which would otherwise go to the North, at home.

About a year ago I started my Factory, and by using the best material and paying my hands promptly, I have been enabled to extend my business and support 500 women and children that would have otherwise left the State. In order still to increase my Factory, I would earnestly call upon the merchants, not only of the city, but of the whole country, to give me their aid and encouragement. Come and see me.

J. N. HANSEN
