NEW ORLEANS, MAY 28, 1877.

The office of the New Orleans DEMOCRAT has been removed from 74 Camp street to 109 Gravier street.

The Only Authorized Selling Agents of the Democrat for the City are Messrs. H. H. BAKER and P. O. DEVEZIN.

Our subscribers will confer a favor upon us by reporting at this office every failure in the delivery to their address of the DEMOCRAT, as we are particularly desirous of achieving absolute exactitude and punctuality.

TO OUR FRIENDS.

The DEMOCRAT has just added to its office a new and complete Steam Job Printing department, with all the latest and most desirable improvements in types, rules, borders, etc.

A leading Northern paper, in explaining the dissatisfaction felt towards the President's policy, in the rural portions of the Northwest, ascribes it to the bitter and vindictive speeches made during the late campaign.

"One thing is quite noticeable," says the Carroll Conservative, "and this is that laborers are making their crops this year with less expense, notwithstanding the increased cost of rations, than for any year heretofore.

Such is the unanimous opinion of the country press. It has already been shown that the laborers of this State are doing more work and raising more cotton and sugar to the hand than ever before, even in ante-bellum days.

The consequence of this has been an annual increase in the crops of this State and a gradual improvement in the condition of laborers, particularly the negroes.

Emigration is our first great need, Louisiana, although the earliest settled State west of the Alleghenies, and although it came into the Union before a white man had set foot in Iowa.

Radical rule and uncertain government, received but little of this emigration. This must end now, and we must turn the tide of emigration to our State, as it was turned to Texas only a few years ago.

"Two years ago," one of the country papers of this State, the Sparta Rural Times, relates, "we advertised gratuitously every place in the parish for sale, stating its situation and general condition, and sent our paper into such States as we deemed advisable.

Here is a sensible, practical way of inviting immigration much more effective than long-winded speeches and resolutions. If all our country papers will do the same and secure us only a dozen immigrants to each parish, they will begin that tide which, pouring into this State, will make it the richest, most populous and powerful in the Union.

THE CRAWFISH:

its Origin, Habits, Uses, Idiosyncracies, Qualities and Defects.

This muscular crustacean is a cross between a freak of nature and the crab tribe. It has twenty-one stripes around its tail and one down the middle of its back. Its eyes are set on stems and its mouth is placed in its bosom, in order, we suppose, to economize emotional space.

DIED.

enty-five years old, encouraged, perhaps, by the achievements of Myra Gaines in New Orleans, is trying to get back her lands in South Chicago. She lives in Cass county, Michigan, with 180 of her people, who are farmers and Catholics.

The visit of Western capitalists to Columbia, and the study they are making of the Southeast indicates, says the New York Herald, that the West begins to have faith in the future of the cotton States, and that capital—the great want of the South—will be forthcoming for sound and profitable enterprises.

The Utica Observer favors the location of the State capital of New York at Utica. Modest town, that. Senator Conkling lives there, Senator Kernan lives there, Horatio Seymour lives there, Judge Ward Hunt lives there. Wouldn't it be a stroke of economy in the national administration to transfer the seat of government from Washington to Utica?

Col. Gordon's peace mission in behalf of the Khedive to the King of Abyssinia has come to naught. King John said: "Egypt declared war by entering my territory; I am justified in maintaining my boundaries by force of arms. I decline to take Massowah as a gift, but will reconquer it. I will accept no presents, and my army shall resume hostilities immediately." King John's obstinacy and the rebellion in Darfour are causing serious embarrassment to the Khedive.

THE SOUTHERN PACIFIC RAILROAD.

The Work Done on the California End of the Line.

The California correspondent of the San Francisco Chronicle writes that during the month of May the Southern Pacific road would be completed to the Colorado river and Arizona. A telegram from Arizona reports the track finished to within ten miles of that river. The distance completed between San Francisco and Fort Yuma, on the Colorado, is therefore 715 out of the 938 miles subject to the land grant from the Federal Government.

MISS PONGO.

The Educated Berlin Gorilla.

Miss Pongo, the favorite Berlin gorilla, is about three years old, and has got well over her winter attacks of feverish cold. When standing she is about the height of a well grown child of four. She never beats her breast when angry, as Du Chailly's gorillas did, but sometimes with one hand when well pleased; at such times she also claps her hands, passes into Arizona, and the estimated value of \$2 50 per acre, would amount to \$30,684,067. All the land thus sold along the line of route has averaged prices one-third higher than the estimate.

DIED.

GUSTINE—At Elkhorn Place, parish of Jefferson, La., on Saturday, May 26, at 11:30 p. m., Ernest, son of Dr. S. D. Gustine and Maria L. Barnett, aged 9 months.

The funeral will take place at 11 o'clock this morning from the Felicity Street Methodist Church. The friends and relatives of the family are respectfully invited to attend.

I have a full assortment of the same on hand, and invite the public to examine them. I have a low-priced Upright PIANO, made by

HARDMAN & CO.,
