Dr. Samed M. Bemiss said the the sessions of the cemnits on will be held in the east wing of the University building at the corner of Baronie and Common, for a number of days, after which it will a journ to some other points to investigate the cause, origin and spread of the yellow favor in the said localities.

The commission will have to report its workings from time to time to the American Public Health Association, as to the facis collected, bearing on the all absorbing subject of yellow fever.

Dr. Bemiss has been notified of the fact that in New York the sum of \$10,000 had been pledged in support of the commission.

The whole work when finished will be submitted to Congress for consideration.

ORLEANS COMMITTEE.

The Reply of the *ecretary of War to the Application for Entions.

In reply to the dispatch of the charitable associations requesting the Secretary of War to reached his order stopping the delivery of the additional forty thousand government rations. the following was yesterday received: Washington, D. C., October 3, 1878.

Washington, D. C., October 3, 1878.

I. N. Marks, New Ocieans, La.:

I am in receipt of telegram signed by presidents of New Ocieans charitable associations, asking my to reconsider the question of sending forty thousand, dditional rations to your city for relief of yellow fever suffe ers. You say that the Howard Association refuses to aid you, on the grounds that the funds in their bands have been sent with the excress object in aid of sufferers from yellow fever. I am still of the opinion that it is possible or you to get relief from private sources, and that it is therefore not a case for the extension of government 'id in the absence of authority. If the Howard Association have a large unexpended fund

they can properly belp you sat all events their discretion is far more ample than mine, GEO. W. McCRAIN, Secretary of War. A meeting of the Orleans Relief Committee and the presidents of the charitable association has been called for this morning at 10 o'clock for the purpose of finally passing upon the above, and preparing an address and appeal to the country for assistance.

ANOTHER INSTANCE.

Full of that mountful poetry which comes back to us as the faint and sweet seem of those flowers that loving and blows hands scatter over newly made graves, is this:

In the braining of spring a fether left his blooming and bealthy family of five children to er as the ocean, on his way to Paris on a business tour. He had promised each child a fine present when he came back. Tows such as children dream of, inimitable playthings that can only be found in Faris, the centre of an initial test phases Gio from succious of ingentity hat make the happiness of those wild little resatures who are at the same time our misery and infinite joy. A toy from Paris is a filt from fairy tand, and as such do the culdren await its coming. ANOTHER INSTANCE.

fairy land, and as such do the condern await is coming.

Business having detained the father abroad, be in order not to disappe in the children, purchased the toys and sent them to New Orleans by steamer. We think of his beating and happy heart when he dispatched the package that was to give so much by to the little cores he doted on. And there are abyses in his world where in the human beart sinks and that are full of utiling rocks that tear it to pleces! When the neckage arrived in New Orleans the five children were dead.

POLITICAL GOSSIF.

Republican Committee.

The Beoubitean State Central Committee met yesterday in executive session. There was some littlediscussion of the Natchitoches affair. but no action was taken, the time of the committee being principally occupied with the question of assessments.

There has been considerable inquiry as to the time of the meeting of the time fixed for the meeting of the time fixed for the meeting of the inquiry as to the time fixed for the meeting of the convertion, and for the principal to the convertion.

The national convertion, and now when the time fixed for the curious it is cleared.

And now when the time of the convertion, and now when the time fixed for the curious it is cleared.

There has been considerable inquiry as to the time fixed for the meeting of THE NATIONAL CONVENTION, and for the b point of the curious it is stated that the time has not been d signaled. The time of the same him of the convention is left entirely to the discretion of the chalman of the Parish Committee, he being accredited with sufficient judgment to decide when the interests of the party demand that it should meet. The general supposition that there was an election in all the wards on Wednesday evening for delegates to this convention is cronsous. There was a meeting in but one ward the thirlifer that purpose. The time of heiding the lection is left discretionary with the citals of the several wards, the only slipulation being that it shall be held before the tenth of this month.

Since their signal defeat at the convention by the Custom-House faction of the Republican party.

THE COLORED MEN'S PROTECTIVE UNION has been quiet, very quiet indeed, and it appears to the casual observer that the members of the Union have come to the conclusion that there is no use kicking, and have gotten back there is no use kicking, as into the party traces.

THE BOARS OF MEALTH.

Yesterday evening the regular meeting of the Board of Health was to have taken place, but, owing to the fact that Drs. Taney, Jones and Hardee had sickness in their families, that Dr. Austin is very busy attending to the sick, and

Hardee had siekness in their families, that Dr. Austin is very busy attending to the sick, and that Dr. Taylor, secretary of the board, is at Osyka, Miss., no quorum was present, and Dr. Choppin, the only member at hand, adjourned the meeting on account of the circumstances. However, the following reports were received:

SANITARY REPORTS.

Dr. Landry, inspector of the Second District, reports that his employees have not yet been able to report on account of their arduous duffice. The yellow fever has encroached upon his whole district from the river to the swam; s. Many of the cases present a mider type, especially among grawn persons. Malarial fevers cause grat have oil a sections hitherto exempt from the scourge, as, for example, in St. Martin parish, where the quarantine is so strict, children die of a perceicious fever accompanied by chills, pains in the I has and hioody urine.

Dr. Bezar, sanitary insocetor of the Third District, in his report, stated that the fever had augmented in his district, and was prevailing in the vicinity of the Slaughter-house.

A STATEMENT.

In relation to the article published in yesterday merning's DEMOCRAT about their arrest, Mesers. Pierce and McKnight make the following statement: Mr H. E. Pierce is employed at the Cinderella Shoe S ore. No. 592 Magazine street, and has worked there for the last six months.

athim. That was all, Mr. Plerce was arrested, and about an hour afterwards Mr. M Knight surrendered himself, whereupon both were re-leased on bonds by half-past a o'clock the same evening.

BEGRETS.

It is with feelings of the despest sorrow that we learn of the death of Lizzle Lyle, daughter of L. A. and Mrs. E. L. Saxon, a beautiful and promising child of eleven summers. The pride and hope of its parents' household was stricken and nope of the parents household was stricken down whilst its mother, as president of the Ladies Physiological Society, was engaged in her labor of love in succerning the poor and needy caused by the dreadful epidemic. We sincerely regret to learn at the same time that Mr. Saxon himself has been prostrated by the fever. Our hopes are that the life of such a worthy citizen will be spared to his family and out community.

Jaquet, of the Regiment Orleans Arbiley, L. saudes, other beginnen orienne Arbiley, held last night at the State Arsenal, the following officers were elected to fill vacancies, viz.: L. Henry Canonge, first licutemant, innor; Edward F. Plaswirth, second licutemant. After the electron the members were entertained by the newly elected officers.

STATE-HOUSE NOTES.

Judge Robt. H. Marr, Associate Justice of the Supreme Court, has been granted by the Gov-ernor a fifteen days' leave of absence. Superintendent Lushor received the sad tid-ings of the death of his nices, Miss Aina Lusher, at Memphis. The young lady, only seventeen years old, had been on a visit to her aunt in that city, and fell a victim to the sick-ness.
