MAGIC HAIR STRAIGHTENER

AND SHAMPOO DRIER. LOOK

PATENTED 1903

The above cut represents the **Magic Hair Straightener and Shampoo Drier.** This necessary toilet article will accomplish two results in one operation. It will straighten and dry the hair quickly, effectively and satisfactorily. Its use will give the hair its natural appearance. It is positively the only device upon the market that will accomplish such results. **The purchase price will be refunded if it does not accomplish all we claim for it, by returning it to our office.**

Stop and think how the public is being deceived by extravagant advertisements of various pomades and many impractical straighteners that are foisted upon the market, which are injurious to the growth of the hair, and after their use leaves such an unsightly appearance.

We will forfeit \$100 for any so called hair tonic or preparation that will make the hair straight and soft by applying it without leaving the hair with a greasy, pasty appearance, thereby retarding the growth of the hair and softening the hair follicles, causing it to collect dandruff and dust which is a great cause of so many bald heads; and the promoters of the wig industry. We ask you to name us a hair straightener, of any description, that does not produce these effects. Now in comparison, the **Magic Hair Straightener and Shampoo Drier**, which is a straightener of a steel bar and an aluminum comb attached, six inches long, with a head of hair after a shampoo and straightener as it is combed.

Its mode of operation is easy upon the hair, thereby eliminating the pincher method, which almost pulls the hair out from the roots. The comb separates the strands leaving a beautiful and natural appearance. A heavy head of hair can be straightened in less than thirty minutes. Its use a few minutes daily following instructions will straighten the hair where hours of combing will not. It will save the loss of hair that excessive combing produces, and we guarantee that it is the only device that will accomplish such results. It has been carefully and skillfully examined by the chief examiner of the United States and other countries and has been granted a patent as the latest and most practical appliance of its kind on the market to-day. It will be found an indispensable article of the toilet by all who take pride in their personal appearance. It has the indorsements of physicians. **Price \$1.**

ical School, and she was appointed as teacher at New Orleans, La.

Mrs. Thomas studied medicine under her husband, making diseases of the skin a special study and has applied the knowledge to the treatment of the complexion and hair, which has brought her a large patronage. She owns and controls a large local and mail order business and after Oct. 15th, will be permanently located in Chicago.

Mrs. Thomas is a talented and cultured young matron and is popular in social and intellectual circles in Boston, where she was partially educated and has lived for a number of years.

THE COLORED MAN'S OPPORTUNITY.

The time is past when the only careers in life open to a Negro were to pick cotton, make up berths in a Pullman Sleeping car, or wait on table. The study of the Negro population by the Census Bureau discloses some facts that show very clearly that the colored race is steadily developing a complete social and industrial system of its own. There is hardly any branch of industry in which Negroes are not represented, and that statement includes the women as well as the men.

One of the most serious difficulties which the colored person has to contend with is prejudice against the dark color of their skin. Recent scientific discoveries have made it possible for the Negro to rid himself of this inconvenience. The discovery of Black-No-More has done much to aid the Negro in his upward progress. The more intelligent Negroes will lose no time in taking advantage of this opportunity to convert their dark skin into white. Indeed from the reports that are coming in from all parts of the country it looks as if the colored face will soon be a thing of the past.
