WHAT HE DIDNT SAY.
In his inaugural address President HARRISON said a number of sensible things. But it is what he didn't say that now seems of the most moment.
He said nothing about the slump in Kings County, which was so large a factor in his selection, nor had he one syllable of reproval for the bad methods of those who paid for the slump in cold cash.
He uttered no word about the "blocks of five" which made their appearance in his own State just before the election and succumbed to financial arguments in favor of the Republican ticket.
He omitted to explain precisely why he took JOHN MONETMAKER into his Cabinet.
He neglected to observe that the surplus is fattened on the necessities of the poor to feed the luxuries of the rich.
He failed to state that the peas of Pittsburg, which echoed down Pennsylvania avenue even while he spoke celebrated the triumphant communism of capital.
He didn't even explain: "Why I Am Here" or "Who Did It with Their Little Pocketbooks."

BRAIN AND BRAIN.
Two dukes, four earls, a viscount, two lords and a baronet will receive the American baseball players when they reach London.
No visitors from the United States to Great Britain ever had so distinguished a welcome.
Brain—and brain—will yet rule the world, when coronets have crumbled and baronial halls become beer caves.

OUR AUTOGRAPH COLLECTION.
THE FIRST DAY AS PRESIDENT.
" 'What Would You Do, if President, On Your First Official Day?'
Could each and every one of us be bent, Old Nick would be to pay!

I'd fire the Weather Bureau,
And inaugurate reform
That would let a President go in
Without a driving storm! B. H.
I'd have the office-holders
Arranged in "blocks of five,"
And give each "Demmy" just an hour
To leave his official heir! W. W. D.

I'd silver-plate the White House,
And on the Avenue
I'd lay down golden paving-stones—
Sing cock-a-boodle-boo! L. F. M.
I'd sell off all the White House stock
Dirt cheap, and straightaway
I'd refurbish the Departments
In Philadelphia! J. W.

" 'What would I do if President?'
Young man you make me faint!
You come to a Cabinet meeting
And just see if I ain't! J. G. B.

Anniversary of the End of the World.
Second Adventists all over the world observe to-day as the anticipative anniversary of Christ's second coming in the air or their Great Day of Days, which they calculate will take place Thursday, March 5, 1890. On this date they are supposed that 144,000 faithful living Christians will be translated to heaven without dying.

CHAMPION DREAMER.
Judge Hawthorne Awards the Prize to J. E. J. Buckley, of Cumberland, Md.

The Successful Dream and an Affidavit as to Its Genuineness.
Very Interesting Report on the Competition from Julian Hawthorne.

THE SUCCESSFUL DREAM.
I dreamed one night last Summer that I met a man of small stature, dark complexion, black hair and heavy black mustache, fashionably dressed, on the corner of Centre and Baltimore streets, in this city. Some quarrel arose, and I shot him in the neck. Some of his blood spurted on my white vest. The next morning about 10 o'clock, as I was turning the corner above mentioned, I met the dream man. He sprang back with a cry, covered his neck with his hand, and said: "For God's sake, don't shoot me!" We were both too much shocked to speak for some moments. Explanations followed. We had both dreamed the same thing. Oddly enough, in looking at my vest afterwards I found a smear of something red on it about the size of a quarter. This had been concealed by my coat and had not been noticed in the hurry of dressing. A chemist afterwards removed the stain and said it was human blood. J. E. J. BUCKLEY, Cumberland, Md.

MR. BUCKLEY'S AFFIDAVIT.
CUMBERLAND, Md., March 2, 1890.
The dream sent by me to the New York Evening World was genuine in all particulars. The participant was also last heard of by me in Los Angeles. J. E. J. BUCKLEY, Cumberland, Md.

State of Maryland, Allegany County, to wit:
I hereby certify that on the 23d day of March, 1890, before me, the undersigned, a Justice of the Peace of the State of Maryland, in and for said county, personally appeared the above J. E. J. Buckley, and made oath in due form of law that the foregoing statement is true, to the best of his knowledge and belief. J. B. WIDENER, J. P.

JUDGE HAWTHORNE'S DECISION.
This tournament has been interesting in more ways than one. It has revealed an imaginative side in the American public—at least when they are asleep. A novelist might get hints from this collection. Again, assuming the dreams to be bona fide, it goes near to establish the new theory of telepathy, and even of prophetic clairvoyance. A majority of the dreams belong to the two latter classes. Of course, it is no part of my present duty to pronounce upon the credibility or accuracy of the competitors. The person who takes the prize will be required to make affidavits that he actually dreamed as he said he did. Many of the dreams are also interesting intrinsically, as picturesque or striking combinations. Altogether, it has been worth a double eagle merely to peruse these romances of the night. SOME NOTABLE DREAMS.

As might have been foreseen, the dreams divide themselves into two general categories—those which are curious in themselves, and those which are curious as demonstrating an inexplicable (or unexplained) power of the mind. Some of the former are, for example, "Nirvana's experience of travelling on a 'Space Annihilator' to the planet Venus, and there witnessing a trial of speed between a ray of light and a current of electricity, the course being to Jupiter and return. Others are oddly grotesque, as in the case of 'I. H. S.' of Yonkers, who dreamed that his soul had disengaged itself from his body and was dodging about the room in the shape of a soap-bubble, or of Mr. Butler, of Forsyth street, New York, who saw a Chinese army bombard his enemy with the skulls of prisoners; or of Mr. Mack, of Trenton, N. J., who oversaw a huge beetle checking his accounts, and who was thereby led to the discovery of an error therein. Other dreams have special peculiarities. Mr. John C. Graham, for example, who, at the time of the Indian Mutiny was a boy in India, and underwent a tragic experience there, finds himself rehearsing that terrible episode as often as he is visited by nightmare, and swearing in good Hindostani, though in his waking hours he is unable to recall a word of that language. 'M. L. B.' a deaf and dumb girl, dreamed she was in a tree gathering apples. Her head was knocked off by a branch, and she 'saw it' on the ground, looking up at herself. But by the time she had clambered down to recover it, it was nothing but the head of a dead hen.

SYMBOLICAL VISIONS.
The dreams of rarest occurrence in this tournament are those of a symbolic character, such as we find interpreted in Scripture. 'C. B.' dreamed of standing on the bank of a river with a family of his acquaintance, who were trying to recover a bridge that had floated out in the stream. The bridge represented their little daughter, and her life depended upon their securing it. They failed to do so, and in the sequel the child actually died of fever. 'F. L. S.' saw his son at sea in a boat driven by a white horse. When the boat came ashore it was a large wooden bowl covered over the top, and containing the drowned body of the boy in miniature. The father resuscitated it with difficulty. Next day arrived news that this same boy was dangerously ill with pneumonia, but the father succeeded in saving him. A weird dream is that of 'Mrs. S. D.', whose mother, a 'lovely and good' old lady, is in the habit of visiting the daughter's dreams in the guise of a threatening fiend.

THE MOST STRANDBUS DREAMS.
The prophetic and clairvoyant dreams are, as I have said, the most numerous. 'L. A. S.' Purify Your Blood
When Spring approaches, it is very important that the blood should be purified, as at this season impurities which have been accumulating for months or even years are liable to manifest themselves and seriously affect the health. Hood's Sarsaparilla is undoubtedly the best blood purifier. It expels every taint, drives out the scrofulous humors, and gives to the blood the quality and tone essential to good health.

'I haven't seen you at church lately, my boy. Come up Sunday, and hear the Rev. O. Break Away preach on the 'Derivation of the Psalter from a Sun Myth.'
I am much interested in these modern sermons. If they would only let the service alone! But you would never know that you were listening to a sermon!"

THE EAST SIDE'S NEW CLUB.
To Have a Fine House Without Delay, and Be the Strongest in the State.
The residents of the east side are worked up about their new home, the Stackler Association having been the means of supplying a long-needed want on that side of the town. They have been meeting every Monday night for the past few weeks, making arrangements to have their new club-house ready for occupation by the first week in May. Fully 500 members have been enrolled during the past four weeks.

They have secured 113 Second avenue, which is one of the handsomest buildings in the Seventeenth ward, and work will shortly be done to put it in proper shape. It is to contain a library, reading-room, gymnasium, billiard-rooms, and all other conveniences attached to a club of this kind.
At the meeting last night 105 new members were enrolled, among whom were Judge Henry A. Gildersleeve, Judge P. Henry Dugro, County Clerk Edward P. Bell, Jr., Internal Revenue Collector Leonard A. Gieserich and a number of other prominent citizens. In addition to the sociability to be enjoyed by members of the Club, steps are also being taken to have an endowment branch created, whereby members' families will be benefited in case of death.

Young Lochinvar came in from the West With tringe on his trousers and fur on his vest; The width of his hat-brim could nowhere be seen. His number ten brogans were chock-full of feet; His griddle was horrid with potatoes and things. And he dished up a handful of acres and things. The fair Mariana sat watching a star. When he should turn up but the young Lochinvar. Her rapturite gave him a pectoral glow And he reined up his boss with stentorian whoop. Then turned on the maiden a rapturous grin And modestly asked if he might step in. THE EAST SIDE'S NEW CLUB.
To Have a Fine House Without Delay, and Be the Strongest in the State.
The residents of the east side are worked up about their new home, the Stackler Association having been the means of supplying a long-needed want on that side of the town. They have been meeting every Monday night for the past few weeks, making arrangements to have their new club-house ready for occupation by the first week in May. Fully 500 members have been enrolled during the past four weeks.

They have secured 113 Second avenue, which is one of the handsomest buildings in the Seventeenth ward, and work will shortly be done to put it in proper shape. It is to contain a library, reading-room, gymnasium, billiard-rooms, and all other conveniences attached to a club of this kind.
At the meeting last night 105 new members were enrolled, among whom were Judge Henry A. Gildersleeve, Judge P. Henry Dugro, County Clerk Edward P. Bell, Jr., Internal Revenue Collector Leonard A. Gieserich and a number of other prominent citizens. In addition to the sociability to be enjoyed by members of the Club, steps are also being taken to have an endowment branch created, whereby members' families will be benefited in case of death.
Address: 113 Second Avenue, New York City.
