

EXTRA  
HERE HE IS.

HORACE LOOMIS CHOSEN  
TO-DAY TO CLEAN THE  
CITY'S STREETS.

MAY CAUSE A TAMMANY ROW.

THE APPOINTEE A CIVIL ENGINEER  
AND NOT A WIGWAMITE.

The street-cleaning problem has been solved at last, and the Department is no longer without a head. The new Commissioner is Horace Loomis, a well-known engineer, who has been connected with the Department of Public Works for the last fifteen years.

He received notice of his appointment from Mayor Grant this morning, and soon after came in to see the Mayor in company with Commissioner Gilroy, who, it is understood, strongly recommended him for the office.

He was congratulated by the Mayor and several of his friends, who were present, and the new Commissioner immediately went over to take charge of his office.

Mr. Loomis is a man of about fifty years of age, and tall and commanding in appearance. His hair and full beard are black, tinged with gray.

He first entered the Department of Public Works in 1875, when Gen. Fitz John Porter was the Commissioner, as assistant engineer.

It was under his direct on that the first surveys were made for the new Croton Aqueduct.

For five years he was in charge of the improvements of this city, and for the past four years he has been Chief Engineer of Sewers. His record has been excellent, and he has been regarded as one of the most valued attaches of the Department.

Previous to holding public office, Mr. Loomis was for twenty-five years a civil engineer in this city, and during that period was engaged in railroad building and other public works.

Mr. Loomis has lived for many years at Mount Vernon, in Westchester County. He is a Democrat, but he has never been a member of Tammany Hall.

Those who know him say that he is one of the most competent engineers in the Department of Public Works. He was appointed Chief Engineer of Sewers by Rollin M. Squire.

The appointment of Commissioner Loomis will have to be approved by the Board of Health, which can be sworn in, according to the provisions of section 101 of the Consolidated act. He will hold office for four years, which is the remainder of the unexpired term of James S. Coleman.

The following additional facts in regard to Mr. Loomis's career have been obtained. He was born in New York City, N. Y., in 1840, and was graduated at the Troy Polytechnic in 1865.

From 1868 to 1870 he was an engineer in the employ of the Erie Railroad and built the road to the stock yards at Hoboken and Fort Lee.

He also made surveys for the House-boat Aqueduct, known under Commissioner Allan Campbell.

He has been a member of the American Society of Civil Engineers since 1876, and is also a member of the Engineers' Club.

Mr. Loomis says that he does not believe that the streets of New York can be kept clean unless the Commissioner of Street Cleaning receives the active cooperation of the Police and other departments.

Above all, he must have the cooperation of the citizens if he expects to be successful in carrying out his duties as Chief Engineer of the Department.

There were rumors late this afternoon that the appointment of Mr. Loomis had created much indignation among Tammany workers, and might lead to a serious row in the organization.

It was stated that the talk about the necessity of appointing the active Commissioner who was an engineer was only a blind. The piece had been offered to several people with a certain proviso, and it was known very well at the time that it would not accept it.

Now, it is said, a man has been appointed who will simply be a tool of Commissioner Gilroy in carrying out his ideas of street pavements.

A very prominent Tammany man said this afternoon:

"Loomis has always been a Country Democracy man, and I am opposed very strongly to the appointment of any man to a Department Commission-ship who is not in accord with our organization. It does not look right, and there are a great many who are prepared to kick against it."

GRIPPED BY THE LAW AT LAST.

Defaulting Teller Jackson Lodged in Ludlow Street Jail.

Henry Martin Jackson, the story of whose theft of \$10,000 from the United States Sub-Treasury two years ago was fully told in THE EVENING WORLD, is in Ludlow Street Jail today, waiting an examination in court next Monday.

NO MONEY, NO MARRIAGE.

HERE MULLER SAYS THOSE WERE MISS CAMMERER'S TERMS.

He Denies the Romantic Proposal in Central Park.

Herr Clemens Muller had his turn today and told his side of the story of the singular two years' courtship which he had with pretty Caroline Cammerer, the Philadelphia beauty and musical prodigy, while Mrs. Muller was confined in the Morris Plains Insane Asylum in New Jersey.

Herr Muller's story was widely different from that of the simple and unsophisticated maiden.

Herr Muller indignantly denies that he proposed marriage to Lenchen in Central Park in 1885, but confesses that he was then solicitous about her health and had not so much money, the love affair ended, Lena declining to fulfill her contract.

He declares that the young woman knew all the time that his wife was living and that those were the terms which she insisted upon for her to marry him.

That it was not till 1886 that anything was said about marriage, and then he sought her to keep house for him till his wife died, and then he would marry her. She agreed on condition that he buy her a brown velvet gown and send a housemaid to her.

Papa Cammerer agreed, too, till he examined the papers and learned that there was a mortgage on the property and that besides the insane wife had a dower right in it.

Then the prudent parent wanted \$5,000 cash instead, and when Muller declared he had not so much money, the love affair ended, Lena declining to fulfill her contract.

Next day I went to their home in Philadelphia, said Herr Muller. "I had to my overcoat. Her father opened the door a little and I squeezed in. Then Lena said, 'Get out of here right away! I don't want anything more to do with you.'"

Herr Muller was turned over for cross-examination to Lawyer Lewis at the point, and the trim and fascinating plaintiff drew her chair up close behind that of her lawyer.

"Mr. Muller," began Mr. Lewis, "are you engaged to marry Miss Cammerer?" "I think I am, yes," replied Herr Muller, with the slightest German accent.

Herr Muller turned his drooping gray eyes upon the pretty face of the fair Philadelphia, and his dull face assumed an expression which probably purported to be one of ecstasy as he replied, leaning far forward:

"I loved her! I loved her! Indeed I did. When did you first love her?" asked the cross-examiner.

"I think I am, yes," replied Herr Muller, "I think it was from the first and it grew on me," replied the witness in a full, rapturous voice.

The lawyer led Herr Muller over the old story again of how he and Miss Cammerer were musical enthusiasts; how they met in Philadelphia and elsewhere; how they dined, rode, walked and visited together, and how he kept getting more and more in love with his charming little companion.

But he steadfastly insisted that their marriage was never anything more than a fancy affair, and that he had no intention of marrying her.

Those who know him say that he is one of the most competent engineers in the Department of Public Works. He was appointed Chief Engineer of Sewers by Rollin M. Squire.

The appointment of Commissioner Loomis will have to be approved by the Board of Health, which can be sworn in, according to the provisions of section 101 of the Consolidated act. He will hold office for four years, which is the remainder of the unexpired term of James S. Coleman.

The following additional facts in regard to Mr. Loomis's career have been obtained. He was born in New York City, N. Y., in 1840, and was graduated at the Troy Polytechnic in 1865.

From 1868 to 1870 he was an engineer in the employ of the Erie Railroad and built the road to the stock yards at Hoboken and Fort Lee.

He also made surveys for the House-boat Aqueduct, known under Commissioner Allan Campbell.

He has been a member of the American Society of Civil Engineers since 1876, and is also a member of the Engineers' Club.

Mr. Loomis says that he does not believe that the streets of New York can be kept clean unless the Commissioner of Street Cleaning receives the active cooperation of the Police and other departments.

Above all, he must have the cooperation of the citizens if he expects to be successful in carrying out his duties as Chief Engineer of the Department.

LANIGAN'S WEDDING BELLS.

MARRIAGE OF THE WELL-KNOWN POLITICIAN TO MISS FLORENCE MOREY.

The Wedding Reception a Great Social Event in the Fourth Ward.

Mark Lanigan, Fourth Ward politician, ex-Deputy Collector in the Custom-House, ex-Deputy Sheriff and ex-Inspector of Meters in the Police Department, and at present Deputy Collector of Internal Revenue—a man with lots of friends and a big "pull" in the Fourth Ward—was married Wednesday night to Miss Florence L. Morey, of this city, and the happy couple are now on their wedding tour.

The couple were married at 7 o'clock Wednesday evening at the Paulist Father's Roman Catholic Church, in Fifty-ninth street, Frank Powers performed the ceremony.

This is Mark's second venture in the matrimonial lottery, and he is positive that he has drawn one of the big "caps." Mr. Lanigan is a well-known saloon keeper and politician in the Fourth Ward, where he has spent the greater part of his life. He is a member of Tammany Hall and numerous other organizations of the city.

FAIRLY WON. THE GLOVES.

NEW YORK'S VICTORY TO-DAY IN THE QUADRO-CENTENNIAL FIGHT.

A SPECIAL COMMITTEE IT IS, AND OLD FOREIGN AFFAIRS CAN DROP THE EXPOSITION SITE.

The cream of the amateur boxing talent of New York and New Jersey will meet in the 34-foot ring to-morrow evening at the New York Athletic Club.

Over a month ago Supt. Thomas Toly promised that the best of the amateur boxers would come together to-morrow, and his promise is to be verified.

Some striking good boys are entered in the lantern-weight class for this tournament, prominent among them being Mike Bent, who performed brilliantly at the Vanura competition; Jerry Barnett, of the Atlantic Athletic Club, who has won an established reputation among the better fellows; Tim Murphy, the plucky fighter of the Fa Times, and James Ross, who came off F. Slone's hand a hard tussle at the Armory exhibition.

William Kennedy, of the New Jersey, is the favorite in the feather-weight class, though there are other good men in the same class, notably Hagerty and Marah, of the Pastime Athletic Club.

If Hagerty and Kennedy come together they will be a rare sight.

In the 125-pound class are Peter Trolan, the victor at the recent Vanura meeting, of the Manhattan Athletic Club; and Fred Scheninger, who made such a good showing at the A. U. champion-ship, and M. J. Donovan, a rising boxer of the Pastime Club.
