FOR SICK BABES.

'The Evening World's' Free Doctor Corps Begins Work.

Trying to Relieve Some of the Tenement-House Misery.

Eleven Hundred and Twenty-four Families Visited Yesterday.

Many Sad Pictures of Suffering, Want and Wretchedness.

The corps of Free Physicians swung into line this morning and submitted to Chief-Staff Dr. Foster reports of the first day's work among the sick children of the poor families.

Every one I saw seemed grateful that the World doctor was again on his rounds and the old women were profuse with their blessings.

Another doctor reports: While going my rounds in the crowded east side district I entered house 34 Pitt street, a double-decker occupied by twenty-four or more families.

I picked my way carefully from floor to floor, descending for needy children that lay huddled in books, until I reached the top floor. I knocked for admittance at one door and found a faint female to "come in."

I learned the particulars of the case before me, and found that the mother had intestinal disorder for the last two weeks, and was wasted almost to a skeleton.

There were two little white combs, my tardy appearance in each instance moving the mother to intense sorrow.

In one house in Bleeker street a doctor found twenty families, all wretchedly poor, crowded into a single room.

There were three children lying about the floor on straw pallets, one very ill with diarrhoea and the other slowly recovering from the attack of meningitis.

no able-bodied man could sustain. These brave child-parents need your help.

You have furniture of this sort; much of it is in your way and you have innumerable ways of assisting these baby martyrs.

The charity which does these unfortunate people the most good is verbal instruction on the rules that govern health.

The fund has just reached the first thousand, which will defray the expenses of the corps for but a short time.

Her real name is Clara Sherck Forney, and she is the daughter of D. C. Forney, proprietor of the Washington Sunday Chronicle.

After a season or two following her entrance to society she began to show tendencies towards a life of reckless gaiety.

HALLINGER IS SAFE.

Gov. Abbott and Attorney General Stockton Consulted This Morning.

They Decide that the Hanging Must Be Postponed.

Auxiliary Moments at the Hudson County Jail While Awaiting the Decision.

Edward Wilmington Hallinger, who murdered his paramour, Mrs. Mary Fry, born Peters, in Jersey City April 3 last, will not be hanged to-day.

There was a sigh of relief in jail, and Hallinger, quickly restoring his composure, broke out into a song.

Back of his cell door at the end of a long narrow corridor stood the weird machine waiting to strangle him as it has strangled many another.

The information had been guardedly imparted by Sheriff McPhillips.

There was a sigh of relief in jail, and Hallinger, quickly restoring his composure, broke out into a song.

WALLED IN A COAT.

A baby dressed in a man's overcoat; a poor ignorant man bending over a cradle, praying for the recovery of her dying child; little boys and girls running about actually naked; scores of others wearing but a single garment; poor cloakmakers in single-room tenements without food or provisions and dwellers in basements who have been supported for months by begging, are a few of the harrowing things chronicled by the physicians who began their rounds of mercy and compassion yesterday.

Here is a copy of the first report from the corps of 1891. No word of introduction or comment is needed, for there is nothing so comprehensive or so eloquent as facts:

At 25 Cherry street I found a poor woman who had been suddenly stricken by rheumatism and was unable to move from one side of the bed to the other.

The best patient I saw was a little two-year-old girl on whose aged face could be traced lines of suffering that a long struggle with scarlet fever had imprinted.

At 31 Rocklock I called where a woman had just returned from her day's work. She had been washing since 5 o'clock, and brought home 20 cents as the proceeds of her labor.

In one room where happily there were no children, the mother was sitting on a bed, and only a thin mattress had been left in what was left of a home.

At 100 St. John street I saw a woman who was washing her clothes in a tub, and she was washing her clothes in a tub, and she was washing her clothes in a tub.

AL BEN AMER, the accused Algerian's signature, written in Arabic from right to left.

Intestinal wounds of old Shakespeare, while others will be the corpses of blood found on the floor and furniture of room 33 in the East River Hotel, where Amer Ben All is said to have slept that fatal night.

Under cross-examination by Fred House, Eddie Fitzgerald said that he was twenty-one years old, born in Hoboken, and was an orphan.

But he was quietly content to spend by saying that anyway he gave Frenchy the key of No. 31 and he had never seen Frenchy since.

Then Mr. House drew out that Eddie had never received any steady or stipulated wages from the proprietor of the miserable East Side Hotel and that the size suit of clothes that he wore today were bought by the hotel.

Has any one given you any money since you have been in the House of Detention? Mr. Fitzgerald said that he had never seen any money since he had been in the House of Detention.

This offspring of the slums blushed with indignation and vigor incompatible with the evident physical make-up of the lawyer. He called attention again to the statement of Mr. Wetman that Frenchy had occupied a room in the hotel with old Shakespeare frequently.

But he was quietly content to spend by saying that anyway he gave Frenchy the key of No. 31 and he had never seen Frenchy since.

FATAL BULLETS FOR TWO.

John Kausch Kills Sweetheart and Self at Lawrence.

LAWRENCE, Mass., June 30.—John Kausch, a weaver employed in the Washington Mills and about thirty years old, this morning shot and killed Miss Mary Burchell, daughter of Henry Burchell, of Milford street, a beautiful girl of eighteen.

The tragedy occurred in Union street at about 7 o'clock.

Kausch and the girl have kept company with each other about two years, but for certain causes Kausch became impressed with the idea that his affection was not fully reciprocated.

This morning he left his home at 137 Jackson street, armed with a 30-calibre revolver of the American bulldog make.

While Miss Burchell was on the way to her work he met her near the north corner of Garden and Union streets, and drawing his revolver, shot her through the heart.

She managed to go a few feet away, falling into the arms of Michael Cleary, who was standing near by.

Kausch then pointed the revolver at his left breast and discharged the weapon, falling dead on the sidewalk.

NELSON TO BE REINSTATED.

The Great Stallion May Again Trot on Association Tracks.

NELSON TO BE REINSTATED. The American Trotting Association, which issues a circular to-day reinstating the great stallion Nelson and his owner on the tracks of that Association.

Nelson was suspended from the same year as the cause of the death of the old big, Carri Brown, by Dr. Justin Herold, who was for years Dr. Jenkins's associate on the staff of Coroner's physicians.

The battle of the scientists bids fair to be a most memorable one, and whether Frenchy will be reinstated, even though it may be done, is a question that will be decided in the future.

Nelson has a father and mother living in this city. Jealousy is the only known cause for his action.

Mayor Chapin lays the corner-stone and makes a speech. Other speakers are Lieut.-Gov. Jones, Justice Kenna, District Attorney Ridgway and John P. Adams, Chairman of the Kings County Democratic Committee.

FOUR BLOWN TO DEATH.

A Jersey Central Locomotive Boiler Explodes with Terrible Effect.

WHITE HAVEN, Pa., June 30.—A disastrous explosion occurred at the Central Railroad of New Jersey last night near Nesquehoning Junction, by which four men were instantly killed.

Yard engine No. 335 was shifting freight and had just passed out of the yard, in which there were several other engines and crews.

When it reached Nesquehoning the fire underneath the engine boiler was noticed by a fireman who was on duty.
