PER YEAR \$10.00
VOL. 22 No. 11,194

Man's head and a fractured skull resulted. CHAPMAN is in danger of death and McDONALD is locked up. The injured boy is sixteen and is said to have picked a quarrel with the younger lad. It is pretty serious business for both of them now.

LET THE PEOPLE BE PROTECTED.
When the Board of Aldermen passed an ordinance requiring the street railroad companies of the city to run cars all night at intervals of not less than twenty minutes a number of the companies refused compliance on the plea that the Aldermen exceeded their power, the public convenience not warranting such a regulation. A test case was made by a suit against one of the delinquent corporations to recover the penalty of \$100 imposed by the ordinance for each violation of its provisions.

THE EVENING WORLD will not, under any circumstances be a thief responsible for the return or safekeeping of any registered manuscripts or pictures, or whatsoever character or value. No exceptions will be made to this rule with regard to either letters or manuscripts. No will the editor enter into correspondence concerning unsuitable manuscripts.

Gen. Alton's Presidential boom has symptoms of paresis.
The uniformed street-cleaners should be able to maintain uniformly clean streets under the new bill.

Jersey City turned out a regular Guttenberg surprise in the race for the Mayorship yesterday. The Republican runner was first under the wire for the first time in years.

Over a hundred bills were put through the Assembly yesterday. But the Park Speedway Repeal, which should have been among the first, was not in the number at all.

Over in Wilshire, on the Avon, a thoughtless lover first killed the uncle whom he accused of opposing his suit. Then he killed a police sergeant who tried to arrest him. It seems that if he couldn't have the nuptial knot he would try the hangman's.

Prince GEORGE OF WALES, it is announced, will visit the World's Fair. And at the same time comes the notice that Chicago will need \$8,000,000 more for the Fair, instead of \$5,000,000. This may be only a coincidence, but it is a well-known fact that Princes do come high.

organized effort to poll illegal votes. But the law provides a punishment for such acts and misconduct on the part of inspectors of Election. The police had no right under any circumstances to seize the ballot-boxes, and it would be a good thing if the legislature had time to so reorganize the police force of Cohoes as to remove from power the men who prompted or sanctioned such an outrage.

BOUNDLESS OPPOSITION.
Senator CHANDLER, of New Hampshire, makes fierce opposition to the proposed constitutional amendment providing for the election of United States Senators by the people. Naturally enough. The popular vote cannot be manipulated as easily as a State Legislature, and the proposed change would bar the Chandlerites out of the National Senate Chamber.

LET THE PEOPLE BE PROTECTED.
When the Board of Aldermen passed an ordinance requiring the street railroad companies of the city to run cars all night at intervals of not less than twenty minutes a number of the companies refused compliance on the plea that the Aldermen exceeded their power, the public convenience not warranting such a regulation.

As the power of the Board of Aldermen to pass the ordinance seems now to be in doubt, the Legislature ought to intervene at once and enact a law before the adjournment obliging every street railroad in the city to run cars all night. This can be easily done if the members of both houses set about the work earnestly and in good faith.

LOOK TO THIS CHARGE.
A morning contemporary makes the following definite and very serious charge in connection with the singular avoidance of action by the Assembly on the bill repealing the Central Park Speedway law:

It seems, after all, that the fire in Jersey City's City Hall was due to crossed telephone wires and not to political lightning. But how hot some of the disappointed candidates must have kept the telephone wires to make them capable of such mischief.

Under pressure of the floods the Tombigger River has swollen rapidly to a Tombigger.
Russell Harrison is hurrying about to secure his father's resignation. The old gentleman should buy a copy of "A Bill in a Chin Shop" and keep him at home until he has read it through and memorized it.

MR. BYRNES'S OPPORTUNITY.
Detective BYRNES has for years made a most efficient and valuable chief of the detective arm of the police service. Supt. Byrnes, it is hoped and believed, will now do as good work as the head of the entire force, a position to which he has been deservedly promoted on the retirement of Supt. MERRAT.

THE EVENING WORLD does not approve the indiscriminate attacks made on the character of the New York police. The city is under better police protection than most of the large cities of the world. Life and property are safer here than in London, and crime is more certain of detection. Still there is doubtless room for improvement in many directions, and to such a large force it is desirable to have a firm, fearless and vigorous head. The new Superintendent has a splendid opportunity before him. He can make such a searching investigation of the management of all the precincts as will not only enable him to discover and put a stop to any improper acts, but will place him in a position to disprove such disparaging rumors and allegations of misconduct as are without foundation.

THE FRIENDS OF JIMMIE HACKETT, formerly the title of the A. C. Dramatic Association, but for the last two weeks a member of Manager A. C. Palmer's theatrical company, are all congratulating him upon the big hit he has just made on the professional stage. Since last Tuesday he has been playing with splendid success the leading role in "The Broken Seal," the company having been temporarily deprived of the services of actor James H. Stoddard, originally cast for the part by the sudden death of his wife. The management were on the point of suspending the performances, as they could find no one to play the part at such short notice, when young Mr. Hackett, who had been playing six-line part, came forward and parlayed Manager Palmer by volunteering to go to the very part in Stoddard's place. He learned the part in five hours, and brought down the house in the first scene. Mr. Palmer says it is the most remarkable achievement that has ever been made under his observation during his entire experience as a theatrical manager. Mr. Hackett will receive no more six-line parts, and his astounding success is the envy of his professional comrades.
