

IMPROVE BROOKLYN.

Her Crying Needs, as Expressed by "Evening World" Readers.

Suggestions that Tend to Beautify the City of Churches.

Timely Criticisms on Many Existing Announcements.

Brooklynites are voting in this column many imperative needs of their city. Many timely suggestions are made and for the best...

Uniform Pavements. Disobey!—The best improvement, think, is to have a uniform pavement throughout the city.

What the City of Churches Needs. S. A. G.—Whom the City of Churches needs most are honest politicians; men that will work for the benefit of the people and not for what they can make.

Unobstructed Sidewalks. F. H. BARNETT—I would suggest that sidewalks be cleared of all fruit, newspaper and book-stacking stands.

Health—A very fine improvement would be to lay out a continuous park, such as can be seen in Boston and other large cities.

Three Suggestions. A. F. S.—First, if possible, build the city per again.

Second, if not possible to rebuild the city, reorganize the Fire Department.

Third, organize an insurance patrol.

A Branch Line Road. R. J. D.—Why not run a branch Elevated road from Broadway, E. D. either through Kent avenue and Franklin street or Driggs and Manhattan avenue to Hunter's Point bridge.

It would be a great boon to a vast number who have to stand mornings and evenings crunched in a noisy car, and take a long hold on with all their strength to be knocked off.

It would be a great inducement for pleasure seekers wishing to go to Rockaway and other beaches, via Long Island Railroad, Long Island City.

Here's a Big List. L. Hancock street—Brooklyn needs better pavements, clean and well kept. Garbage and refuse regularly removed in a clean manner.

Repeal News. F. B.—Take down the row of buildings in front of our new and handsome Post-Office and it would show off the workmanship to perfection.

Have the "L" road from South Ferry to connect with Fifth avenue.

Have the "L" road, say from Hudson Street to Hunter's Point.

Have an Inspector for cellars and basements, for the purpose of detecting gas.

The Twenty-Sixth Ward's Streets. F. A. K.—First, Brooklyn, near Halsey avenue, the twenty-sixth ward is the coming part of Brooklyn.

Events to Come in Brooklyn. Prof. Robert Spice will lecture on "Long Distance Transmission of Electric Power," at 502 Fulton street, at 8 o'clock to-night.

Three Horses Roasted. 500 Barrels of Ale and Lager Also Lost in a Brooklyn Fire.

The one-story storage house of Howard & Childs, in the rear of 102, 103 and 107 Third street, South Brooklyn, was discovered to be on fire at an early hour this morning.

From the storage-house the flames spread to the live-story of T. F. Riley, which occupies the front of the numbers mentioned.

Three horses were roasted in the building, and it was with the greatest difficulty that any of them were saved.

It was impossible to get them to a place of safety and they were burned to death.

The building, which was destroyed and with 500 barrels of ale and lager which were stored therein. The damage to the two buildings is estimated at about \$50,000.

BROOKLYN'S NEW CITY HALL. FIGHTING BARRETT'S STOCK.

Prospect that Its Construction Will Be Soon Begun.

The Bill Authorizing Expenditures Before the State Senate.

Brooklyn's new Municipal Building is now assured, the bill authorizing the expenditures necessary for its construction is under consideration by the Senate.

The bill authorizes the Mayor, Comptroller and City Works Commissioner to cause to be erected in their discretion a public building on the property now owned by the city and to be known as the Municipal Building.

The bill authorizes the Mayor, Comptroller and City Works Commissioner to cause to be erected in their discretion a public building on the property now owned by the city and to be known as the Municipal Building.

The bill, it is said, will in all probability pass, and work on the new structure will begin at once.

The Evening World's Brooklyn Edition first drew public attention to the crying need of more room for the transaction of the rapidly growing business of the city.

Brooklyn's growth has been phenomenal in many ways, and her population is close to the million mark.

Proposes of a new city building is the discussion of the Board of Supervisors, who have the county's interests in their keeping.

MRS. GLOVER ROUSED AT LAST.

She Sues School Principal Miss Fisk for Alienation.

Mrs. Eliza J. Glover has brought suit in the Supreme Court of Brooklyn against her sister Miss Henrietta Fisk, principal of the primary department of Grammar School 71, in Seventh street, New York, for heavy damages for alienation of her affections of her husband, William Henry Harrison Glover, the Brooklyn contractor and builder.

She charges Miss Fisk with "enticing her husband from his wife and detaining him and living with him against the consent of his wife and in opposition to her efforts to obtain his return to her custody, control and influence."

Mrs. Glover is a comely matron of fifty years and mother of nine children. Her sister, Henrietta Fisk, is perhaps five years her senior. Miss Fisk is no fairy, for she weighs more than 200 pounds, and is also stout. She is a widow, and owns a restaurant of broad streets, at one time president of the Fat Men's Club. Miss Fisk has been a teacher in the New York public schools for thirty-eight years.

The first proceedings of the gathering docketed in the Supreme Court, were the hearing of the case on the 10th of July, following they made another note on the 11th of July, and on the 12th of July, 1891, the court rendered its decision.

The storm broke on Nov. 1, 1888, when Mrs. Glover sued her sister for alienation of her affections of her husband, William Henry Harrison Glover, the Brooklyn contractor and builder.
