STOCK MARKET REPORTS.

Speculation Opened Up, with Prices a Little Easier.

WALL STREET, Monday, July 11.—The week opened with a dull market in Wall street and prices were easier all around, owing to the calling out of the Pennsylvania militia by Gov. Pattison. There is a general desire to wait until it is known what will follow the arrival of the troops at Homestead.

London advices came lower, and its speculators sent some selling orders, more particularly in Louisville & Nashville, concerning which company rumors were rife about an impending large issue of bonds. This is an old story, and it is not worth repeating.

The Government crop report for July, put out after the close of business Saturday, and a reduction in the posted rates of exchange, which diminishes the prospects of gold exports, tended to counteract the effect of the adverse influences just noted.

LIBERAL VICTORY CONCEDED.

But the Tories Expect to See Gladstone Much Embarrassed.

They Doubt If His Return to Office Means Full Return to Power.

LOSING, July 11.—At 2 o'clock this afternoon the total returns received showed the election of 194 Conservatives, 103 Liberals, 1 Liberal, 7 Anti-Parliamentaries, 3 Laborites and 4 Paraclasses.

The Conservative papers concur in conceding that Mr. Gladstone will have a small majority in the next Parliament, enabling him to force the Government to resign, but offering no guarantee that the Liberals will be able to carry on business.

The Standard says: "If the Gladstonians cannot be prevented from returning to office they may yet be prevented from returning to power. Mr. Gladstone, with a nominal majority of thirty, would be in an embarrassed and hopeless position as the head of a cabinet composed of the Tories and the Liberals, and would not be able to maintain his position in the House of Commons for a month."

"If he tried to pander with his promises to the Irish he would at once lose eighty votes, placing him in a minority of fifty if the Irish abstained from voting, and of 150 if they voted against him."

"If he brought in his Home Rule bill, unless it contained everything that Mr. Parnell demanded, the Paraclasses and Anti-Parliamentaries would immediately compete in ostentatious dissatisfaction with the measure. If the bill centered upon the Irish Parliament, uncontrolled power a mass of English and Scotch adherents would desert him."

An exciting scene occurred at a Liberal meeting held in the Forest of Dean Division of Gloucester, where Sir Charles Dilke is standing as the Liberal candidate against Mr. Conroy, Conservative. A resolution was offered declaring against Sir Charles Dilke, and adding that the electors of the district desired only a man of high moral character to represent them in Parliament.

The wife of Sir Charles was on the platform when the resolution was put, and she wept bitterly. There was great excitement during the voting, which was interrupted when it was declared the resolution was carried.

Friends of Sir Charles demanded that a rebuttal be made, and this was done, only to confirm the previous result.

T. Curran, anti-Parliamentary, wins in Sligo, south Division, over Col. Pollock, Conservative, by 244 votes to 243.

Timothy D. Sullivan, anti-Parliamentary, returned unopposed from Donegal, West Division.

LAW FOR CHINESE LOAFERS.

Those Corralled on Pell Street Are Fined \$10 Each.

A new sort of Chinese Exclusion act went into effect at the Tombs Court to-day, and the thirty-two Chinese Mongolian loafers were made victims to the tune of \$10 each.

At the same time ten other members of the Chinese colony, who admired American scenery from the Mott street pavement Sunday afternoon, were let off with a reprimand and a threat that if they again offend they will be sent to the Chinese island.

The Chinamen had all been arrested on the charge of loitering and blocking the street. The distinction made in the treatment of those arrested on Pell street and those gathered in on Mott street, has been the cause today of much excited discussion among the Chinamen, and a good deal of comment among Caucasians.

In addition to the Chinamen charged with blocking the pavement yesterday afternoon, forty-two others of the race were called upon to explain their love for opium. The sixty-eight within the rail, and as many more without, transferred the teams of the city, and a startlingly oriental scene, and before Justice Dwyer got through with them he was considerably tired.

Police Captain Warts, of the Elizabeth street squad, had ordered the loafers were front of the officers of the Fourth of the city, and congregated on the streets preparatory to getting drunk and smoking opium.

Justice Dwyer promised to be less lenient to such cases in the future, and instructed the interpreter to carry the news into the Chinese colony that the paving stones on Pell and Mott streets are not reserved for the Chinamen's exclusive use.

It was stated by Capt. Warts that the primary cause for the arrests was because of the complaint of officials of the Fourth of the city, Transfiguration that its members are hindered on their way to their house of worship by the loafers who loiter in front of it, it alleged, block the pavement.

SIT BACK IN YOUR CHAIR.

Keep the Spine Straight and Your Posture Will Be Perfectly Proper.

A proper sitting position requires that the spine shall be kept straight and that the support needed for the upper part of the body shall be felt in the right place.

Therefore, sit as far back as possible in the chair, the Ladies' Home Journal enjoins, so that the lower end of the spine shall be braced against the back of the seat. If this back is straight the shoulders will also rest against it; if not, they will have no point of support, and it will be found that they do not hold.

This position makes no strain upon the ligaments of the spine. It allows a proper position of the shoulders, consequently the chest, stomach and every other organ of the body. Their work is carried on naturally and comfortably, as is also the circulation of the blood, which, in a wrong sitting position, is seriously interfered with.

With the feet resting squarely upon the floor, the hands resting easily upon the knees, and the arms straight and consequently perfect rest of the body is secured. There is no strain upon any part of the body, and the muscles of the back are relaxed.

Another interesting point was that these trains are not "patched up" with a new car now and another new car again, but are always sent out in complete sets of cars from the shops, and when this is done the train which is taken off to give place to the new one is used for some less distinguished run.

SQUINTS IN THE EYES.

Dr. Chalmers Prentice's Theory About Nervous Diseases.

Dr. Chalmers Prentice, of Detroit, who has made a study of eye troubles, says there are a great many people whose eyes are slightly out of place, so that the axes of the eyeballs are not parallel.

In the majority of cases they are not sufficiently out of position to cause a squint, but there is a similar displacement of the system in a more serious form. In these cases the muscles which move the eyeballs are able to adjust the slight difference, so that the axes of the eyes are made parallel and perfect vision is secured.

In order to maintain this harmonious working the eyeball muscles are placed under a constant strain, which is communicated to the brain, and being continued day after day the abnormal tension induces irritation of the brain, which re-

THE TURF.

Western Turfmen Make a Big Coup on Queenie Trowbridge.

She Was Not a Ringer.

Marcus Daly Stable's Handsome Winnings—Other Track Talk.

The delegation of Western turfmen which arrived here a few weeks ago gave the ring a bad shaking up at Monmouth Park on Saturday. They started in by playing J. P. McCaffery's filly, Helen Nichols, to beat Queenie Trowbridge. Helen Nichols proved that her victories in the West were not taken, and her record is now six straight victories.

With the money won on Helen Nichols safely laid away the Westerners waited for the seventh race, a dash of five furlongs for selling-players. The list of entries included Queenie Trowbridge, a four-year-old mare with a very good record, she having scored the wins of seven straight stakes a year. She was entered to be sold for \$500 and an unknown jockey named Jordan was announced to ride. No one had a chance to look up her record, and she might just as well have dropped from the clouds for all the bookies knew concerning her.

When the betting opened 10 to 1 was quoted against the mare with no takers. Then the price went up and up until 100 to 1 could be seen on various boards. Then the Westerners commenced to play the mare. Their money went on quietly in \$5 and \$10 bills. Sol Lachman, who was sitting opposite Queenie's name when an innocent-looking gentleman came along and handed up \$10 to be better on.

"One thousand dollars against ten, Queenie Trowbridge," said Sol, and he smiled as he wondered where his customer got his money by getting away in front and was never headed, winning in the last time of 0.56 1/2.

The talk of Queenie Trowbridge being a ringer for Helen Nichols was a popular fallacy. Helen Nichols was a hot favorite, and the excellent record of being placed second three times was a better record than that of any other mare in the country.
