End of the Scientific Testimony in the Buchanan Case. Lawyer Knight Called as a Witness by the Defense. He Says Macomber Said What Was Attributed to the Doctor.

In the combat of the scientists Dr. Robert W. Buchanan, whose life is the stake for which the learned chemists, physicians, pathologists and microscopists are fighting, seems to have sunk into a place of secondary importance, and he sits, small, unobtrusive and unnoticed, behind the group of eminent lawyers engaged in his defense.

It is a battle royal between men who have, geographically remote from each other, achieved fame and honor in their special fields of science; a peaceful battle in which the smoke is represented by the foul odors of ptomaine from decomposing human bodies and acids of the most powerful nature.

In the scientific conflict the lay witnesses and their testimony, the circumstantial evidence by which the prosecution have sought to prove the motive for the crime of wife-poisoning, the guilty actions of the accused before and after the death of his wife, have been forgotten. They are but the inconsequential pawns in the tremendous game of chess.

Began a Month Ago To-Day. If the proof is offered by District Attorney Nicolai that one-tenth of a grain of morphine was found in the dead body of Mrs. Buchanan, and that the woman was in good health when she died, the circumstances shown by the evidence offered to show motive, and that the doctor denied the fact that she was suspected to be morphine and belladonna, will be of no consequence.

The trial began a month ago to-day, and has progressed twenty-two court days. Prof. Walter J. Scheele, the young German chemist from the chemical laboratory of Dr. Otto, the great Bremen chemist and toxicologist, was still on the witness stand in the witness box when the trial was resumed to-day.

O'Sullivan, the scientist of the counsel for the defense, called on the witness stand the authority of Prof. Dr. Robert, the great German chemist and toxicologist, and that any alcohol, one of the agents used by Prof. Scheele in his chemical analysis of the body of Mrs. Buchanan, was not for use in efforts to detect morphine or other poison, because it contained in itself many chemical products which are peculiarly sensitive to the chemical tests to those used as proof of morphine.

Carlyle Harris Case Introduced. Much speculation has been indulged in as to the effect of the conflicting testimony on this trial on the action of Gov. Flower in the matter of the appeal for mercy on behalf of Carlyle W. Harris. Today Mr. O'Sullivan asked Prof. Scheele:

"Have you made a careful and thorough investigation of the conflicting testimony on this trial on the action of Gov. Flower in the matter of the appeal for mercy on behalf of Carlyle W. Harris. Today Mr. O'Sullivan asked Prof. Scheele:

"Well, that's your opinion," broke in the reporter sharply, brusquely.

To the next question he replied:

"The answer is that I have not. I have not been able to do so far as discovering the presence of morphine in the body of Mrs. Buchanan. Well, that's your opinion," broke in the reporter sharply, brusquely.

"No, sir; I did not say that," interrupted the German professor, smiling happily at being able to see Mr. O'Sullivan's face, but he said: "I said that I knew of certain points that are covered to all the tests I have used in my laboratory."

"No, sir; I did not say that," interrupted the German professor, smiling happily at being able to see Mr. O'Sullivan's face, but he said: "I said that I knew of certain points that are covered to all the tests I have used in my laboratory."

"No, sir; I did not say that," interrupted the German professor, smiling happily at being able to see Mr. O'Sullivan's face, but he said: "I said that I knew of certain points that are covered to all the tests I have used in my laboratory."

"No, sir; I did not say that," interrupted the German professor, smiling happily at being able to see Mr. O'Sullivan's face, but he said: "I said that I knew of certain points that are covered to all the tests I have used in my laboratory."

"No, sir; I did not say that," interrupted the German professor, smiling happily at being able to see Mr. O'Sullivan's face, but he said: "I said that I knew of certain points that are covered to all the tests I have used in my laboratory."

"No, sir; I did not say that," interrupted the German professor, smiling happily at being able to see Mr. O'Sullivan's face, but he said: "I said that I knew of certain points that are covered to all the tests I have used in my laboratory."

HE MADE BUT ONE CALL. The City's Guest Inspects the Chamber of Commerce.

A Host of Society People Call Upon the Duke and Duchess. A change was made to-day in the Duke of Veragua's itinerary. Since his arrival last Saturday, the Duke and Duchess and that of his party have been entirely directed to viewing the sights uptown and receiving such political and social honors as Mayor Gilroy and other prominent citizens could offer them.

To offset the uptown frivolity and properly impress the Duke and his family that New York is not all politics and society, and that considerable business is transacted in the downtown end of Manhattan island, arrangements were made to show the ducal party around Wall street and its surrounding country.

The Duke's visit to the chamber of Commerce recalls the fact that it was in Spain the Chamber of Commerce, since the sixteenth century a chamber was opened in Cadiz. The Duke and Duchess, who did not reach the business portion of the city till nearly noon. They commenced their tour at the Mutual Life Building, on Nassau street.

They were received by Acting President Dr. O. S. Strauss, William Woodbury Langdon, John S. Kennedy, Henry Heinz and George Norton, on behalf of the Chamber of Commerce. The Duke and Duchess, who did not reach the business portion of the city till nearly noon. They commenced their tour at the Mutual Life Building, on Nassau street.

Only the Duke, his brother and the Spanish Duke, who did not reach the business portion of the city till nearly noon. They commenced their tour at the Mutual Life Building, on Nassau street.

They were received by Acting President Dr. O. S. Strauss, William Woodbury Langdon, John S. Kennedy, Henry Heinz and George Norton, on behalf of the Chamber of Commerce. The Duke and Duchess, who did not reach the business portion of the city till nearly noon. They commenced their tour at the Mutual Life Building, on Nassau street.

Only the Duke, his brother and the Spanish Duke, who did not reach the business portion of the city till nearly noon. They commenced their tour at the Mutual Life Building, on Nassau street.

They were received by Acting President Dr. O. S. Strauss, William Woodbury Langdon, John S. Kennedy, Henry Heinz and George Norton, on behalf of the Chamber of Commerce. LETITIA TOWNSEND MAY DIE. AT THE END OF THE TRIAL.

Large Increase in the Mortality of the Disease Reported. Miss Letitia Townsend, the wealthy missionary and secretary of the Girl's Friendly Society of America, who is ill with typhus fever at North Brother Island, will probably die.

Dr. Doty, of the Bureau of Contagious Diseases, said this morning that she was in a very serious condition. He will not be surprised to learn of her death at any moment.

The recent death of Mrs. Adeline Townsend at her home, 377 Madison avenue, from the disease, together with the affliction of Miss Letitia Townsend, has caused the Health authorities some concern.

The reports now show that the infection has found a lodgment in almost all portions of the city. Since the week ending January 7 this year, 382 cases of typhus have been reported. Of these 132 have proven fatal, or about 30 per cent of the whole number.

There are now on North Brother Island nineteen patients suffering from typhus, and as many more held as suspects. Since the beginning of the year the records show a falling off in the mortality, up to last week, when an increase was observed.

The number of cases for the past five weeks is as follows: Jan. 14, 26 cases, 23 deaths; Jan. 21, 16 cases, 11 deaths; Jan. 28, 14 cases, 10 deaths; Feb. 4, 14 cases, 10 deaths; Feb. 11, 14 cases, 10 deaths; Feb. 18, 14 cases, 10 deaths; Feb. 25, 14 cases, 10 deaths; March 4, 14 cases, 10 deaths; March 11, 14 cases, 10 deaths; March 18, 14 cases, 10 deaths; March 25, 14 cases, 10 deaths; April 1, 14 cases, 10 deaths; April 8, 14 cases, 10 deaths; April 15, 14 cases, 10 deaths; April 22, 14 cases, 10 deaths; April 29, 14 cases, 10 deaths; May 6, 14 cases, 10 deaths; May 13, 14 cases, 10 deaths; May 20, 14 cases, 10 deaths; May 27, 14 cases, 10 deaths; June 3, 14 cases, 10 deaths; June 10, 14 cases, 10 deaths; June 17, 14 cases, 10 deaths; June 24, 14 cases, 10 deaths; July 1, 14 cases, 10 deaths; July 8, 14 cases, 10 deaths; July 15, 14 cases, 10 deaths; July 22, 14 cases, 10 deaths; July 29, 14 cases, 10 deaths; August 5, 14 cases, 10 deaths; August 12, 14 cases, 10 deaths; August 19, 14 cases, 10 deaths; August 26, 14 cases, 10 deaths; September 2, 14 cases, 10 deaths; September 9, 14 cases, 10 deaths; September 16, 14 cases, 10 deaths; September 23, 14 cases, 10 deaths; September 30, 14 cases, 10 deaths; October 7, 14 cases, 10 deaths; October 14, 14 cases, 10 deaths; October 21, 14 cases, 10 deaths; October 28, 14 cases, 10 deaths; November 4, 14 cases, 10 deaths; November 11, 14 cases, 10 deaths; November 18, 14 cases, 10 deaths; November 25, 14 cases, 10 deaths; December 2, 14 cases, 10 deaths; December 9, 14 cases, 10 deaths; December 16, 14 cases, 10 deaths; December 23, 14 cases, 10 deaths; December 30, 14 cases, 10 deaths;
