

A LOCKOUT SEEMS IMMINENT

Electrical Contractors After Non-Union Men.

They Insist that the Ward-Leonard Strike Be Called Off.

Although the Electrical Contractors Association has not said it is so many words, it seems evident, from the fact of its members advertising for non-union men, that a lockout of all employees, either members of Electrical Workers, especially Local Union No. 3, will occur in the near future.

The Electrical Contractors Association is composed of the following firms, most or all of whom are sub-contractors:

The Tucker Electric Construction Company, Western Electric Company, Complete Electric Construction Company, Heston & Folsom, and others.

The Association's grievance against the Union is its refusal to call off the strike before the strike is called off by the Union.

The strike was ordered, the men say, because Ward, Leonard & Co. refused to employ non-union men.

The Contractors' Association, it appears, tried to induce the Union to declare the strike against Ward, Leonard & Co. off, and upon their failure to negotiate an amnesty proposed its support to the proposed men in its fight against the Union.

There are only about 400 men employed by the association, and only a few of them are out this morning.

"We propose," said delegate Hoadley, "to conduct this strike on a strictly non-union basis. The men have been told to remain at work until discharged, whether the conditions are satisfactory or not."

The association, however, alleges that the Union is too dictatorial and demands too much. They insist that the men should be paid as work as possible, and that the maintenance of those who are discharged.

The National Executive Board of the Brotherhood of Electrical Workers are discussing the strike to-day in Cleveland, Ohio.

RUTHERFORD'S SENSATION. An Assemblyman's Arrest Followed by That of an Editor.

RUTHERFORD, N. J., May 22.—Rutherford has a mild, though entirely unexpected sensation in the arrest yesterday of Assemblyman John J. Dupuy, on charges preferred by Marshal Philander Johnson, of assault and battery and disorderly conduct.

About two weeks ago Assemblyman Dupuy told Mayor Luther Shafter that he had seen the borough marshal under the influence of liquor. This reached Johnson's ears and he went to see the Assemblyman about it.

Hot words followed and Johnson claims Dupuy struck him a stinging blow under the chin.

Johnson was looking for a re-spectation as Mayor Luther Shafter, that Dupuy's charge was made to defeat him.

As soon as Johnson qualified he accused the Assemblyman's arrest and Dupuy gave bonds to appear for a hearing.

This morning Editor Thomas Stevens, proprietor of the Rutherford Herald, a Democratic paper, was arrested and placed under bonds, charged by Assemblyman Dupuy with gross and demeritary libel.

Marshal Johnson, after his trouble with the Assemblyman, published a long statement in the Herald in very complimentary terms, which displeased the Assemblyman. Stevens had the original letter written by Johnson.

THE GENERAL ASSEMBLY. Report on Sunday Observance Presented by a Committee To-Day.

WASHINGTON, May 22.—Rev. Thomas Brackett Ward, D. D., conducted the half-hour devotional exercises with which the second week's session of the Presbyterian General Assembly was ushered in this morning.

Promptly at 9.30 Moderator Craig opened the Assembly with a word of prayer.

The report of the special committee on Sunday observance, of which the late Col. Elliott V. Shepard was chairman from its inception, submitted its fifth annual report, which was read by Elder W. H. Worrell of the New York conference.

HOT WAVE IS GOING AWAY.

By Wednesday, Mr. Dunn Says, It Will Be Over.

Thunder and Lightning Scheduled for To-Morrow Night.

At 5 o'clock this morning New Yorkers awoke in an atmosphere of 60 degrees Fahrenheit, and but for a slight breeze that blew in from the south, life would have been almost unbearable in the city.

While the heat was not particularly intense, the sudden change in the temperature and the consequent upward rush of the mercury were due to a cyclonic depression that passed through Canada on Saturday and was central yesterday over the West Lawrence Valley.

This depression caused an outburst of warm air from the south which set the mercury bubbling upward at an alarming rate.

Now, says Mr. Forester Dunn says, need not expect any relief from the warm conditions until tomorrow afternoon, when the conditions seem favorable to rain, accompanied by thunder and lightning.

A storm in central Ohio, however, will not affect this district, and the only effect it will have upon New York will be to cause a rainfall, which will be particularly welcome if it is heavy enough to lay the dust.

This will be followed by an area of much cooler air from the north, and, evening there, it will be a decided relief. On Wednesday and Thursday next will mark the limit of the hot wave.

The highest point reached by the thermometer in the weather bureau on the top of the Equitable Building yesterday was 85, and last night was the warmest evening this year.

The warmest temperature ever recorded in this city in May was in 1880, on the 25th of the month, when the mercury touched the 94 degree mark.

The warmest days in May generally come between May 18 and 23, so that this warm spell arrived about on schedule time.

The hottest place in the country to-day is Point Jervis, N. Y., where the barometer is 78 degrees.

At Newburgh the temperature is 76 degrees, and at the Hudson River it is 75 degrees.

A few venturesome brokers on the New York Stock Exchange came downtown this morning, but the first of the season, was a heavy loss.

As the season for this sort of headgear does not open until June 1, according to tradition, the first of the season, was a heavy loss.

An enterprising "fakir" who established himself at the corner of New and Wall streets, did a running business selling "hot water" while over at a fruit store on Broadway there was nearly a riot when a fine watermelon, the first of the season, was overthrown in front of the door on a cake of ice.

Edward Leck, thirty-four years old, of 319 East 30th street, was overthrown by the heat this morning while at work on the roof of 30 East Thirty-fifth street. He was taken home.

MAY KNOW HER FATE TO-DAY. Summing Up in the Trial of Mrs. Dietrich for Arson.

The summing up in the trial of Mrs. Helena Dietrich, accused of having set fire to the house at 354 East Sixty-second street, on Jan. 14 last, and indicted for arson, was begun by counsel before Judge Martine and a jury in Part II. of General Sessions this morning.

The trial was begun a week ago last evening, and the taking of evidence occupied a week.

Lawyer Sager, counsel for the prisoner, began his address to the jury at 9.45 and concluded at 11.30, when Assistant District Attorney Davis began summing up for the people.

NEWARK STRIKERS TO ARBITRATE. NEWARK, May 22.—This afternoon the Committee of the men on strike at the Spencer Optical Works will meet J. P. McDonnell, chief of the arbitration committee, who will accompany them to the works to talk with Superintendent Meigs.

Brooklyn's Day at Chicago Fair. Mayor Hood, of Brooklyn, today requested the Board of Aldermen to allow him to fix June 27 as Brooklyn's Day at the World's Fair.

JOHNNIE WALSH'S HAPPINESS He Gets the \$2,000. Reward for the Johnson Diamonds.

Little Johnnie Walsh, the New London (Conn.) newsboy, who found the four and a half carat diamond earrings that were heirlooms of the wealthy Norwich Johnson family, was the happiest boy in America when he was handed the reward of \$2,000 by Mrs. Johnson at Tiffany's this morning.

The money was in three crisp new bills, one of \$1,000 and the others \$500 each.

JOHNNIE WALSH. The little fellow, realizing that he ought to do something to say something, raised his eyes from the money to the inquiring gaze of Mrs. Johnson and said simply "Thank you," but in words as expressive of gratitude as anything could be.

When asked what he was going to do with the money, Johnnie answered that his mother wanted him to put it in a bank, where it would accumulate interest until he became of age, but that he wanted to use it to buy a home.

"I'm going to stop selling newspapers," he said, "and go to school, and maybe after a while I'll learn to be a carpenter."

Johnnie and his mother were accompanied to New York by the boy's uncle, Dr. N. A. Harris. They were met at Tiffany's by Mrs. Johnson at 10.30, and after the earnings, which had previously been forwarded by an express company, had been received, Johnnie was rewarded, the reward was paid.

Johnnie's mother first pinned the money in his coat pocket, but after consideration it was concluded to let Dr. Harris care for it. They left the city this morning for London, and there will be a little party at Mrs. Clark's to-night to celebrate the event.

As a matter of fact, Johnnie and Johnnie's celebration commenced a couple of days ago. The local baseball team has enlisted him as a mascot, and feels that victory is now certain.

Manager Hyde suggested to the little fellow this morning that Johnnie Walsh might give him a nice thing to travel with the New York team, but he thought he would rather be a hero at home than in Gotham.

Little Girls Charged with Theft. Bessie Woods, of Columbia street, Brooklyn, is an undeveloped child of thirteen years. She was arrested before Judge Figue, in the Butler street Police court, Brooklyn, this morning, on the charge of stealing a pair of boys' clothing from the store of Albert Rosenstein, 201 Columbia street, on May 20. Judge Figue sent the child home with its mother, pending trial on May 31.

CONEY ISLAND IN FULL BLOOM. Hot Wave Makes a Great Rush to the Favorite Resort.

Women Overcome at the Ferry—An Elopement Nipped. The Coney Island season has begun in earnest, and hotel-keepers, popcorn men, concert-hall proprietors and vendors of the delectable frankfurter are giving thanks to-day in consequence.

A conservative estimate of the crowd which sought Coney's beach and breezes yesterday placed the number at 50,000. It was not until late in the day that the thousands of residents of New York and Brooklyn who have acquired the Coney Island habit realized that old Sol was imposing upon them, and then the rush began.

Every line of travel was taxed to its utmost; in fact, the facilities afforded for transporting the multitude were decidedly inadequate.

A woman who occupied an adjoining berth rushed to her and raised an alarm. When assistance arrived she was terribly burned all over the body and died at 4 o'clock in the afternoon in terrible agony.

The ship's surgeon and officers did all in their power to alleviate her sufferings. Strange to say the infant escaped unhurt, and was immediately landed.

Two children stowaway passengers on the Fabre line steamer Burgundia, from Naples, died during the voyage, as follows: A seventeen-year-old girl, the daughter of a merchant, died of cholera on May 13, at 5.30 A. M., the mother while in bed lighted an alcohol lamp close to her berth to make hot coffee, and from some unknown cause the lamp exploded, and instantly the woman and her berth were one mass of flames.
