

THE EQUINE NOBLES.

Fine Horses Will Be at Madison Square Garden. Several Hundred Cases of Election Law Violation.

Directum and Flying J.B. Among the Horses Exhibited.

Society and other people have signified their intention of devoting a week to the discussion of the equine nobility. Each other by buying up the best of the stable boxes at Madison Square Garden, and nothing remains but to open the Horse Show. This will be done Monday morning with a great flourish.

The officials of the National Horse Show Association have worked hard this year to bring to the public a better class animal, and quality rather than quantity will be looked for.

Several radical changes have been made in the matter of judging. It has been passed upon by three judges. This year that very popular class of the "open" Hackney Club, Middlethorpe, England.

A division of the secretary's favors will be made, however. Heretofore the official has to remain in the ring almost continuously during the judging. It is now great a step on one man to keep this up for a week, so that duty will devolve upon other men.

Tuesday—Day, Messrs. Kip and Morris; evening, Messrs. Fellows and Wharton. Wednesday—Day, Messrs. Hockesher and Lawrence; evening, Messrs. Hitchcock and Nichols. Thursday—Day, Messrs. Cassatt and Wetmore; evening, Messrs. Bronson and Sturgis. Friday—Day, Messrs. Fellows and Wharton; evening, Messrs. Kip and Morris. Saturday—Day, Messrs. Hitchcock and Nichols; evening, Messrs. Hockesher and Lawrence.

A feature of this year's show will be the horses in harness and the classing of high jumpers. It is said that there will be much difficulty in awarding the prize in class 4, calling for high jumpers, to be taken in the hands.

The entries in the tandem class are very full, and all are of beautiful performers in harness. Of course the jumpers will come in for a full share of the attention. There will be no circus jumping at the coming show, but in some instances high jumpers will insure some entertainment.

To lovers of trotting horseflesh, the champion stallion Directum (2:14-1) will prove a star attraction. The pace Flyer will also be a feature. The latter will be the first two-year-old filly Director's Flower.

There are \$2,500 in prizes to be distributed, and the judges who will decide which horses have earned the rewards are Dr. A. Smith, Toronto, and James Rowe. For trotters, roadsters and harness horses, Dr. A. Smith, Toronto, and James Rowe, Toronto, and James Rowe, Toronto, and James Rowe, Toronto.

For thoroughbreds, Dr. A. Smith, Toronto, and James Rowe, Toronto.

The veterinary inspectors are Dr. W. P. Cantray, New York; Dr. J. H. Cantray, New York; Dr. J. H. Cantray, New York, and Dr. O. C. Farley, New York; Supt. Frank C. Clarke.

The program for the week follows: Monday, judging to begin at 11 o'clock. Tuesday, judging to begin at 11 o'clock. Wednesday, judging to begin at 11 o'clock. Thursday, judging to begin at 11 o'clock. Friday, judging to begin at 11 o'clock. Saturday, judging to begin at 11 o'clock.

WANTED: BROKER'S CASE.

John Y. McKane, the Grayson "boss" around whom the meshes of the law are slowly tightening for the frauds committed in the last election, was not at his office, at Court street, Brooklyn, this morning. Four of his henchmen remained examining the locks on the desks and office furniture. They knew nothing whatever about McKane except that he would not be at the office all during the day.

One of them volunteered the statement that McKane would not start on his "outing trip" until about 10 o'clock this morning. It was generally believed that he left Brooklyn this morning. This belief was strengthened by the fact that his lawyer, Mr. Roederich, who announced his intention of accompanying the Grayson victim, did not appear at the office in the local State Exchange Building. Neither could Judge Newton, who is also one of the hunting party, be found around his usual haunts.

The sub-committee having charge of the inquiry into the Academy of Music on Monday night is rapidly completing its arrangements. Chairman Charles F. Johnson, secretary, called on Mr. Governor at the latter's office this morning and were in conference over James McMahon, president of the Rutgers Industrial Savings Bank, a prominent member of the committee. The principal speakers will be St. Clair McKelway.

While the public mind has been fastened upon McKane, the "big game" official has to remain in the ring almost continuously during the judging. It is now great a step on one man to keep this up for a week, so that duty will devolve upon other men.

STOLEN WORLD'S FAIR PROFITS.

Deflectives Kearney and Noonan, of the lower Fulton street police station, Brooklyn, are looking for two Italians who are wanted for stealing \$500 in English money and 2,000 francs from Montreal, one of the managers of the Cairo Village at the World's Fair.

Mordue and an Egyptian came to New York a few days ago and took lodgings at 24 Bleecker street. He had his money secreted in a belt.

They secured passage on La Gasconne, which sailed to-day. Yesterday they started out to see the town. They met two Italians, and after several drinks they started for Brooklyn. The Italians persuaded Mordue to play a game of cards, and he won \$2,000 of them. Mordue retained \$2,000 of the money to carry the value.

The next important witness was a prisoner, Frank L. Wallace, who testified that he was transferred for refusing to carry a trunk. He said that he and his partner lived. For this reason while at the Reformatory he was chained to a wall in such a position that he could not stand up.

MORE BROCKWAY BRUTALITY.

That President DeLozo is not doing purchasing vessels for his embryo navy there is little doubt. A gentleman who has been engaged in naval construction for many years and who is in touch with Charles R. Flint said to-day that Flint & Co. had only begun to spend money for ships.

The idea that El Cid and Britannia were intended to cope with Mello's big warships, he said, was entirely erroneous. El Cid and Britannia, with their sister-ship, Destroyer, Frigate, Javelin, Nautilus and the Yarrow boat, are, according to "The Evening World's" informant, only expected to take care of the fleet of twenty or more torpedo boats which Mello has at his command.

INDUSTRIALS TAKE A PRO.

The industrial stocks were under the hammer in the closing dealings in Wall street to-day. Chicago Gas dropped to 61 3/4, Sugar 98 1/4, Great Central Electric to 41 1/2, and Cotton Oil to 28. The remainder of the list held comparatively steady, only slight concessions being made and very little long stock having come out. The bank statement had no perceptible influence.

The rapid growth which money is accumulating at this time even exceeds the expectations of leading bankers. The banks this week added \$7,897,100 to their cash resources and \$3,272,300 to their deposits. The total increase was only \$562,700. The gain in reserve was \$3,315,725, raising the surplus to \$57,825,725, against \$52,513,999 at this time last year. The condition of the banks is a guarantee against stringency in money for some time.

The following are the comparative figures: Nov. 4, 1893. Nov. 11, 1893. Cash resources, \$7,897,100. Deposits, \$3,272,300. Total increase, \$562,700. Surplus, \$57,825,725. Total assets, \$115,653,425.
