Conferees Devising New Legislation at Washington.

State Bank Issues Would Not Afford Needed Relief.

Mr. Springer's Idea of New Securities for National Banks.

(By Associated Press.)

WASHINGTON, Nov. 15.—One of the first subjects to engage the attention of Congress when it convenes in regular session at the beginning of December will be a new banking and currency system.

For the past two weeks Congressman Springer, of Illinois, Chairman of the House Committee on Banks and Currency; Senator Voorhees, of Indiana, Chairman of the Senate Committee on Finance; Congressman De Witt Warner, of New York, and others have been engaged in frequent consultations with the President, Secretary of the Treasury, the Comptroller of the Currency and other financial officers of the Administration, with a view to legislation which will provide a larger and more convertible circulating medium without involving any financial or political embarrassments that would flow out of a revival of the fiat money days.

When asked for a copy of the measure ready to go to the printing press, he himself said that it could not be given out in detail until it had met the full approval of the members of the Committee over which he presided.

They have been engaged for several months, said Chairman Springer, "in the preparation of a measure which at proper time will be introduced in the House and have referred to the Committee on Banking and Currency, of which I am Chairman."

"Our object is to respond, as far as possible, to the reasonable demands of the country, and to provide some plan by which our currency may be placed upon a better basis."

"Any effort, in my judgment, to return to the system of State banks which prevailed before the war, and even if the 10 per cent. tax on State banking should be removed it would furnish little or no relief to the country."

UNCLE WILLIAM AT THE SHOW.

Came Down from Near Albany, but Missed the Sights.

Too Soon for City Swells, so He Thought He Was Bounced.

She Disappeared Mysteriously Nearly a Month Ago.

The friends of Mrs. Elizabeth A. Tompkins, whose interesting articles on the turf and kindred subjects have been familiar to newspaper readers for several years, are in a state of great anxiety over her mysterious disappearance.

Nothing has been heard of her for nearly a month, and her mother-in-law, Mrs. Margaret Tompkins, of Washington, has just come to town and has asked the assistance of Capt. Byrnes in discovering some trace of the missing woman.

Mrs. Tompkins left New York early in October with the intention of going to California to write up the stock farms which, and also to attend the Fall and Winter races on the Pacific coast.

She first stopped in Washington, where her husband, Dr. Tompkins, a turf writer and horse-owner, lives, and then went on to St. Louis to visit her mother, Mrs. Amoy. She had with her her five-year-old boy Willie.

She only remained with her mother five days, when she went away with her child, saying that she was going to the Gulf of Mexico for her health. During her stay in Louisiana she is said to have acted strangely, spending most of her time writing letters and telegrams to all parts of the country, but which it is believed she never sent.

She seemed to be under some abnormal excitement, and frequently spoke of going on a long journey, from which she would not return for several months. She was attended by her mother and her physician that she left St. Louis.

SMALL-POX IN PRISON.

Michael Driscoll Held for Assault Develops Disease.

Hastily Removed to North Brother Island by Health Authorities.

District Attorney Nicol Notified After the Man Was Gone.

The startling announcement was made in the District-Attorney's office this morning, and it is believed that the show was officially begun, there was a commotion before the box office, it was caused by a man with a long white beard and green cotton umbrella. His trousers were ill-fitting and ran into a pair of cowhide boots. His coat belonged to another decade. He was from the country, and he wanted to be first to enter the building.

When those in the line refused to make way for him, he raised his umbrella, as though to strike one man, so the big policeman was compelled to hustle the offender to the rear of the line. He objected to the line.

"See here," he said, "my name is Hendrik, William P. Hendrik. I've come along on two hundred miles to see this show from my farm near Albany, and I want to get in, sick."

He walked along the promenade, with his umbrella under his arm and his hands behind his back. He looked at empty tan park benches, then his eyes wandered to the tiers of unoccupied seats and the long lines of boxes. He walked the entire circle of the promenade slowly and silently. Then he stopped near the door and exclaimed himself in vigorous language.

"Wall, I will be gosh darned, it's all a story. I came to see all this here beauty and such that the man says he has, and I see people ain't here. I've been robbed."

Then he made a demand for a return of his money. He didn't get it, but he left anyway.

THURBER-WHYLAND AFFAIRS.

Big Concern Going Along as Usual, but Receivers in Charge.

The business of the Thurber-Whyland Company was going on to-day just as usual, excepting that it is now being conducted under the authority of the court, and in the name of Receivers Kirkpatrick and Reid.

All the clerks in the counting-room were on hand, besides the regular corps of salesmen and other employees, and the former will be busy night and day some time to come taking a complete inventory of stock and banking the books so that it may be clearly shown to the court.

Following the attack, the High Bridge mounted squad gave chase and arrested Miller near Lenox avenue.

Mr. Conkling announced that he intended to protest against the canvass of the Board of Trade would be held in the Ninth and Twenty-second Election Districts of the First Assembly District on the ground of irregularity.

Mr. Conkling declared it was an outrage to have a meeting of the kind at the Board of Trade Building, and that he would be there in the interest of an honest count and had a right to see that the building is rapidly settling and that the Board of Trade would be liable unless it was at once repaired.

Mr. Conkling's protest was supported by the Board of Trade yesterday. Gen. Sholly-Smith, the well-known engineer, said that the building is rapidly settling and that the Board of Trade would be liable unless it was at once repaired.

(By Associated Press.)

John Buttner, of 49 Avenue C, was arraigned before Justice Ryan in the Essex Market Court this morning to answer to a charge of following an assault preferred by his wife, Catherine.

Mrs. Buttner said her husband was a worthless fellow and did no work. She went to Brooklyn yesterday, and on her return her husband charged her with having been out with a man. She denied it, and he stabbed her in the breast with a penknife, inflicting slight wounds.

When Buttner was arrested he was found in the company of an intoxicated woman, who was also taken into custody, and gave her name as Jennie Thompson. Justice Ryan sent her to the district for two months, and held the husband for trial in default of \$1,000 bail.

TURNER WEDS AGAIN.

He Was the Co-respondent in the Bloomfield Divorce Suit.

His Wealthy Wife Obtained Freedom on the Same Testimony.

His New Bride the Daughter of Mr. Mrs. Frances A. May.

The formal announcement in the advertising columns of "The World" of the marriage of Thomas M. Turner and Miss Maude May, caused something of a sensation among clubmen, men about town and others.

The announcement gave no dates, and the question arose, who was the bride and when did the wedding take place. Mr. Turner is supposed to have sailed for Europe yesterday, or rather, such a statement was made this morning at the establishment of his father, J. Spencer Turner, 109 Duane street.

Miss May is the daughter of Mrs. Frances A. May, proprietress of a fashionable boarding-house at 125 West 107th street. Mr. Turner is known better as a man about town who attained considerable notoriety a couple of years ago as co-respondent in the noted Bloomfield divorce suit. Prior to that time he had been the husband of a woman named Mrs. Bloomfield, from whom he procured a divorce from him as the result of his intimacy with Mrs. Bloomfield.

Many will remember the case. Turner was the intimate friend of James M. Flannery, the wholesale jeweler. They were chums as boys, and Turner, now a resident in the noted Bloomfield divorce suit, prior to that time he had been the husband of a woman named Mrs. Bloomfield, from whom he procured a divorce from him as the result of his intimacy with Mrs. Bloomfield.

Turner and Mrs. Bloomfield were together to such an extent that gossip began to talk. On June 7, 1891, Mrs. Bloomfield asked her husband to wait at home for her, but she never returned. Then he began to be called a womanizer, named Turner as co-respondent.

Turner retailed by having Bloomfield arrested for having an obscene picture in his finger ring.
