COLUMBUS, O. April 21.—Reports at the National headquarters of the Miners' Union regarding the general strike fixed for to-day, are to the effect that in the block coal fields of Indiana, where the men have a contract, they will work two days a week until May 2, when they will join in the suspension.

Maryland, where nothing was expected, has joined in the suspension. On the New and Kanawha rivers there is every indication of a general suspension.

It is an open secret in Columbus that the operators of this region are in sympathy with the strikers and hope the miners will win. The operators here desire to pay the scale proposed by the miners, but are prevented by certain operators in the Pittsburg district, who have been paying lower wages.
