

FOUR HUNDRED OUT.

All of Brooklyn's Blue-Stone Cutters and Flaggers Idle.

Yard Owners Band Together and Take a Firm Stand.

Question Whether It Is a Strike or a Lockout.

Nearly four hundred bluestone-cutters and flaggers are out on a strike or have been locked out in Brooklyn to-day.

The men have been out since last Monday. In consequence of the strike the eleven bluestone yards in Brooklyn are closed and work discontinued until men have been found who are willing to take the place of the strikers or locked-out men.

For the past three days the owners of the stone-yards have advertised in "The World" for flaggers and cutters to work for \$3.50 per day of nine hours.

As yet they have been unable to procure any men.

About two weeks ago the stone cutters and flaggers were notified by the owners of the yards, according to one of the bosses, that in order to continue, the men would have to consent to a temporary reduction to \$3.50 a day.

All of the employees are union men. They at once held meetings, at which it was decided to "declare a strike rather than accept a reduction in wages."

All the men quit work, their employers says on Monday, after notifying their employers that they would not cut until the old scale was restored.

Edward Clark, 312 Fourth avenue, one of the largest stone-cutters in the city, who gave this version, said to-day that the employers would fight their men to the bitter end.

"The bluestone business," said Mr. Clark, "depends almost wholly upon the business of the building line, it is decided by the yard owners to reduce wages to cut down expenses. The cut was only to be temporary, and if the men had accepted the reduction, conditionally, there would have been no strike. We had intended to re-establish the old scale as soon as the business picked up."

Mr. Clark added that many bluestone cutters and flaggers in other cities were being laid off, and that the bosses did not anticipate any trouble in filling the places of the strikers.

An entirely different story of the strike or lockout was given to-day by a member of the firm of R. Baird, Myrtle avenue and Hooper street, Williamsburg. He said that no money question was involved, but that the yard owners were being made to decide who was to run the yards, the employed or the employers.

"We are working," he said, "and the yard owners in the city will employ non-union men in the future."

The men, he said, steadily refused to allow their employers to have their stone cut at the quarries, insisting that they should be employed by the contractors, however, were allowed the privilege of getting cut stone from the quarries, this injured the bosses a great deal.

On Friday of last week a meeting was held at the home of Mr. Baird, and it was decided that the employers could take the offensive. Consequently the yard owners, including Mr. Baird, were notified that they were no longer required unless they were willing to do what was asked of them.

All of the men refused to accept and quit work.

THIEVES WEREN'T THIRSTY. But They Were Caught Stealing Beer Just the Same.

Justice Gotting, in the Lee Avenue Court, Williamsburg, to-day held Henry Schaefer and John Kiefer on a charge of stealing beer from Henry Ostermann, a saloon-keeper of 18 Broadway.

The prisoners are drivers employed by S. Liebmann's Sons. Yesterday afternoon Officers Jettis and Claugher saw them plugging up four empty beer barrels and putting stamps on them, so they looked like new barrels. Then they put the barrels with twenty others on the sidewalk in front of Ostermann's place and received a receipt for twenty barrels.

"They took the barrels into the cellar, and while bringing out the empty barrels managed to get the four dummies with the others."

It is said that the prisoners have been practicing this kind of work for a long time, and that their thefts amount to several thousand dollars.

REFORM FOR CONEY.

Excise Laws to Be Enforced, Which Means Dry Sundays.

Mayor Schieren Will Wipe Out the Island Bowery's Dives.

He Declares that Dance Halls Will Also Have to Go.

Excise Laws to Be Enforced, Which Means Dry Sundays.

The annexation bills passed by the Legislature making Coney Island a portion of Brooklyn has created a problem which Mayor Schieren and his Cabinet were trying to solve this morning.

The cause of all the trouble is that part of the island known as the Bowery. The Mayor announced that he would like to see the Bowery, and he was determined to wipe out the dives and dance-halls on "The Bowery," and would begin the work of weeding out the disorderly places as soon as he received a certified copy of the Annexation bill.

The Excise laws, the Mayor said, would have to be observed by the proprietors of all the saloons on the island.

"The great problem which confronts us," said Mayor Schieren to-day, "is how to begin the crusade against the objectionable saloons on Coney Island. I am anxious to get at the work, but I can do nothing until we have first made the Bowery a dry town."

Whether Mrs. Caldwell was in the Bowery, too, and managed to escape in some unaccountable manner, is a question that the Mayor would seem to indicate such a theory.

All the parties are highly respected and in good circumstances.

NOT IMPURE LYMPH.

Commissioner Wyckoff's Reply to Vaccination Opponents.

Autopsy Will Disclose the Cause of Young Smith's Death.

Dr. Costales Insists that Impure Virus Was Used.

In the absence of Health Commissioner Emery, who is confined to his home with sickness, Deputy Commissioner Wyckoff, of Brooklyn, to-day gave out a statement refuting the charges that impure vaccine has been used by the department in conducting its vaccinating raids.

The statement was issued by Dr. Wyckoff in reply to the allegations made last night at a meeting of the Anti-Compulsory Vaccination League, held at 66 Fulton street. The object of the society, is to do away with the laws which require the Health Department to make wholesale vaccinations of children.

At a recent meeting a committee was appointed to inquire into the death of Charles W. Smith, seven years old, of 24 Woodbine street. The attending physician filed a certificate setting forth that the boy's death was due to his having been vaccinated. The Health Department claims that the boy died of Bright's disease.

The Committee reported last night that death was due to blood poisoning, following the use of impure vaccine. Chairman Hitchcock, in speaking to the Anti-Compulsory Vaccination League, said: "I am in possession of positive proof that Health Commissioner Emery refused to issue a certificate which he had issued and summoned Dr. Costales, who attended the boy, and compelled him to issue a certificate of death to Bright's disease and diphtheria. Under compulsion that physician made a certificate which was not true."

Dr. Costales, who was in the hall, said that he was called upon to issue a certificate which he had issued and summoned Dr. Costales, who attended the boy, and compelled him to issue a certificate of death to Bright's disease and diphtheria.
