## WHO GOT THE MONEY?

### Statement Demanded as to That \$1,000,000 Park Appropriation.

### Commissioner Straus Favors One and Explains His Official Action.

### Secretary Burns Ventures an Opinion that None Will Be Made.

The announcement made by President Claussen of the Park Department, that within forty days the appropriation of \$1,000,000 authorized by the Legislature for park improvements, and which was intended to relieve the then existing distress, has caused considerable surprise. It is a fact that many men have already been discharged; that more will be let go this afternoon, so that a few will be retained to carry on the work.

What the public is particularly interested in, is knowing how much of the money intended to benefit the employed actually found its way into their pockets and what improvements were actually made in the parks for the amount expended.

If the public hopes to have a detailed statement of expenditures, it will be disappointed, for, according to Secretary Burns, of the Park Board, who was seen by an "Evening World" reporter this morning, no such statement will be given out.

"That million dollars," he said, "was not given to the Park Department in lump sum to do with as the Commissioners pleased. Instead the money was given, as required, for specific purposes. There were at least twenty-five items in the appropriation, which the Board had to estimate passed upon. The whole sum was apportioned among these items, and not so much as one dollar in excess of any particular item could be expended."

"The object of the appropriation was to supply money to the various departments for the winter months, or until business would open up again. That purpose has been served, and the money is now in the hands of the various departments, and the money, or the greater part of it, having been used up, the men are of course being discharged."

"There will be no detailed statement given out so far as I know. The improvements on the parks, and the money expended, and the Commission will take care of that question. President Claussen could not be found to-day, but Commissioner Straus, when asked, said he thought Mr. Claussen had made a mistake in saying that the full sum of \$1,000,000 would be used up in forty days."

"You see," he said, "he has only just been elected President of the Board and perhaps has not read the full report. The greater part of the work has been completed, but there will be a number of unexpended balances which will be carried over to the next year."

"Now, as to how much of the \$1,000,000 is actually gone to the unemployed, I want to say that I received my full share of all my appointments, and that I was fairly well paid for the work I did. I am not a single one of the other Commissioners who are being discharged. I am in every case I voted with them on the question."

"I think myself it would be a good thing to let the public have a detailed statement of everything. I do not see why there should be any concealment. My own belief is that every dollar was spent legitimately. I wish to have a statement of the money that has been spent, and I wish to have a statement of the work that has been done. It would suggest a reform."

"It is well-known fact that the politicians who are being discharged are the ones who are being discharged. Mr. Straus looked after the charities, the other Commissioners looked after the other concerns. I also believed that less than one-half of the money went to the workers. The public will certainly want to know where the balance went, and how much of it still remains."

## WANTS OUR YACHTS.

### Field Thinks England Did Well in Letting Vigilant In.

LONDON, May 19.—The Field, to-day, in its yachting article, says: "It was an unfortunate piece of cautiousness which ruled the Navahoe out of the Royal Western match in August last."

"The general principle, it would be absurd for the Stat- to provide prizes for foreign competitors. But, there may be occasions when it would be politic to do so, or, at any rate, not to place obstacles in the way of a foreigner competing for a prize, such as the Queen's Cup."

"We are informed that the visit of the Vigilant depended upon whether she would be allowed to compete for the Queen's Cup. The question was put to the Royal Dorset Yacht Club, and the sailing Committee, fully appreciating the importance of a visit from the Vigilant, promptly assented."

"We think that every one will agree that the Committee has taken the correct and the broad view of the situation. It is of the greatest importance that the Vigilant should compete in our regatta this season, and it would have been a disappointment of far reaching consequences if the Royal Dorset Yacht Club had taken a red-tape view of the trust placed in them."

TOWNS CHILDREN and dozens of other people would drink 24 cups from 1000 ft. glass.

## HOEY, 70; WORK, 68.

### Score at End of Third Quarter in the Big Pigeon Shoot.

### Hollywood Man Doing by Far the Best Execution.

### Fog and Rain Militate Against the Cracks.

LONG BRANCH, N. J., May 19.—The Hollywood Pigeon Grounds were opened to-day. A drizzling rain fell and there was a dense sea fog.

The principal event was the shoot between Fred Hoey and George Work. The conditions of the match are 100 birds each, thirty yards for the thirty yards Challenge Cup two weeks ago by a score of 47 killed out of fifty birds. Mr. Work immediately challenged the victor and the fog was arranged.

At the end of the second quarter the score was Hoey, 47; Work, 45. Work missed his thirty-sixth and thirty-seventh birds, and Hoey missed his thirty-sixth and thirty-seventh. The fog had settled and the birds were swifter.

In the third quarter the fog raised a little. Hoey's sixteenth bird jumped up and Hoey shot over him. The bird dropped again, then raised, turned and flew towards the marksmen. At the end of the third quarter the score was Hoey, 70; Work, 68.

Hoey was doing the better work, his birds being the faster.

## CARTER IS BILLED TO PITCH.

### The Elm City Crowded with Baseball Enthusiasts.

### Rain May Prevent the Great College Game.

(Special to the Evening World.)  
NEW HAVEN, Conn., May 19.—The town a full of Princeton men, and every train brings loads of out-of-town Yale men, for the great game between Yale and Princeton, which is called for 3 o'clock this afternoon.

The game is expected to be a very close one, and the weather looks very threatening. At noon it is raining and a severe thunder-storm is in progress. It is doubtful if the game will be played.

The Princeton team arrived from Meriden early this morning, where they rested last night. Betting is not very lively, but the game is expected to be a very close one. Yale men are cheerful, as Carter has announced that he has recovered sufficiently to pitch. The teams will line up as follows:

Princeton:	Yale:
Wright, c.	Greenway, c.
Altman, p.	Stephenson, 1b.
King, 2b.	Cass, 2b.
Brooks, 3b.	Arbuthnot, 3b.
Gunter, 4b.	Spears, 4b.
McKenzie, lf.	Kear, lf.
Palms, cf.	Keator, cf.
Wright, 5b.	Keator, 5b.

The Princeton glee and banjo clubs gave a concert at Hyperion last night to the benefit of the fund. Afterwards 400 Yale and Princeton men attended the pipe of peace at Warner Hall.

## BEAT HIS INVALID WIFE.

### He Is Held While She Is in the Hospital.

John Morelli, twenty-five years old, of 222 One Hundred and Fourth street, was held in \$500 bail in Harlem Police Court this morning to await the result of injuries he is charged with having inflicted on his wife, Phloemina.

His wife, who is only nineteen years old, is in Bellevue Hospital with her face and body covered with black and blue marks, the result, she says, of beating her husband gave her last Saturday night. She has been suffering from consumption for six months.

The assault, the doctors say, may have been committed by the couple having been married but one year and have a three-month-old child. After the assault she was taken to the hospital, where she was taken to her sister's home, in MacDougal street, and then transferred to the hospital.

Yesterday Detective Mooney, of the East One Hundred and Fourth street station, sent Morelli a message, telling him his wife had forgiven him and asked him to meet her at the hospital. Morelli came and the detective arrested him.

# LAST EDITION.

## BURNED 5,000 INDICTMENTS.

### Lawyer Purdy Tells a Startling Story of Bribery and Corruption.

### Clarke Paid to Steal Them.

### After His Death a Burglar Was Hired to Break Open His Safe.

### LEGAL EVIDENCE DESTROYED.

### Well-Known Lottery Men Said to Have Been Principals in the Crime.

A startling story of crime and corruption has just been made public by Lawyer Ambrose H. Purdy. Although the events happened several years ago and some of the principals concerned are dead, the mystery of why some criminals are still at large, although indicted for almost every crime in the calendar, is cleared up.

Mr. Purdy says that five thousand indictments, stolen from the District-Attorney's office, were destroyed by fire in the home of Moses Clarke in Staten, N. J., one summer night. While those interested in getting the indictments out of the way were feeding the blaze in a grate, Clark lay dead on a bed in an adjoining room.

Mr. Purdy was at one time connected with the District-Attorney's office, and its workings are well-known to him. The story he tells is of additional interest at this time because it goes to show that a repetition of the crime he alleges took place so long ago is not impossible, provided men can be found who are wise enough to accept the same terms.

It was in the simplest manner that Mr. Purdy dropped the secret which has been so closely guarded for nearly fifteen years; a secret which although known, as he says, to over one thousand men, not a word of it ever got into print.

He was before Judge Cowing, in Part III. of the General Sessions Court, a few days ago, asking to have some of his clients discharged. They had, he said, been locked up a long time; the Summer was coming on; the courts would be closed; hundreds of officers were on their feet
