

TAMMANY PUPPETS.

Servile Dook Commissioners Do the Leaders' Bidding.

Steel Piers for Brewers at Stadler's Request.

McBride Reluctant at Dry Dollar Sullivan's Asking.

Politics and politicians played an important part in the proceedings of the Dook Board this morning. To begin with the meeting was delayed forty-five minutes because the Commissioners thought the business of the Tammany leaders was of more importance than the public's affairs, and the public's affairs and the citizens interested in them had to wait the Commissioners' pleasure.

President Cram was willing to suspend the proceedings at any time to give Tammany leader a hearing. Senator Timothy D. Dollar Sullivan walked in during the meeting, and Mr. Cram asked him what he wanted. "All I want is a duckmaster restored. He is a veteran and ought to be put back in the service," he said.

Mr. Cram said the pier should be built of steel, and they would be the first of the kind in the city. Commissioner DeLano objected to a contract estimate of the cost of wood and steel. No other action was taken on contract which tries to get the duck that have to pay for it. If it's sold at auction it'll bid it up to \$40,000.

WHERE DOES THE \$118,000 GO? Speedway Sidewalks to Cost \$62,000 Instead of \$180,000.

The Speedway muddle has taken another turn. An attempt was made yesterday by the chairman of the Park Department, and Secretary Burns to give the impression that the \$180,000 that is to be expended beyond the contract price was due to the change in the specifications. This turns out to be untrue.

FAIR TO-MORROW, SAYS DUNN.

Weather-Wearied New Yorkers Hope that He'll Be Right.

Gotham Has Had Rain for a Straight Week Now.

Local Forecast Official Dunno to-day holds out hope to weather-wearied New Yorkers that a change for the better will occur to-morrow.

If Mr. Dunn is correct in his forecast Friday will dawn bright and clear, and the storm that has been hovering over New York and vicinity for a week will pass out to sea.

The storm, which only abated for a time yesterday afternoon, started in again last night and continued through the early morning hours to-day.

A respectably Londonese fog hung over the rivers and bay this morning, but no accidents or collisions were reported by the harbor police.

Notwithstanding the amount of rain which has fallen at the Weather Bureau it was reported that the deficiency in the rainfall for the year up to 10 o'clock this morning was 3.24 inches.

Up to the present time the normal rainfall since Jan. 1, Mr. Dunn says, should be about nineteen inches.

The forecast for to-morrow is generally fair with a drifting fog from northeast to northwest.

At the Post-office this morning Superintendent of the Mail Service said that the West and Southwestern mails, due to reach this city over the Pennsylvania Railroad at 6:17 and 9:50 A. M. yesterday, did not arrive until 6:30 this morning.

The Pittsburgh mail, due here this morning at 12:30, did not arrive until 10:15. As no other cause had been reported the delay was attributed to the storm.

Weather Forecast. The weather forecast for the thirty-six hours ending 12 P. M. today is as follows: Showers with fog along the coast, to-day; generally fair on Friday; stationary temperature; northeasterly winds shifting westerly.

BASEBALL CHAT.

The stockholders of the Philadelphia Club are busy notifying Secretary of the game about the disgraceful actions of the Boston players at the game last Friday.

The general baseball public are entitled to the protection guaranteed them by the League rules. These rules are simple and plain to the purpose, but they are not enforced.

In order to strengthen and encourage him to a fair and honest game, the following suggestions are made: 1. To the umpire, after warning-removal from the game, to remove the pitcher, who frequently ignores or forgets the rule.

To the pitcher, to obey your instructions, in these or other particulars, shall on sworn violation, forfeit your position as pitcher.

An officer in Covington, Ky., Tuesday night arrested a poor, broken-down, old woman, with three children, for being on the streets.

He was really generous of the Boston to let Ward and his men escape with their lives.

DWYER CASE CLOSED.

Turman's Habeas Corpus Case Before Justice Gaynor.

Claim that the Evidence is Insufficient.

Decision May Be Handed Down To-Morrow.

The habeas corpus case of Philip J. Dwyer, President of the Brooklyn Jockey Club, accused by Peter De Lacy of conducting a lottery at his race track, was before Justice Gaynor, in the Supreme Court, Brooklyn, this morning.

After filing the evidence and information introduced on the hearing before Justice Walsh, the warrant for Dwyer's arrest, the articles of incorporation of the Brooklyn Jockey Club and the rules of racing, Mr. Patterson said the facts introduced on the hearing were insufficient to show that a crime had been committed.

Mr. Bowers then read the entire affidavit of Frederick Judson, on which the warrant was secured. The affidavit was in effect that Mr. Dwyer had organized a lottery in the Brooklyn Handicap by which \$25,000 was distributed on the result of a horse race.

He said if any section of the law had been violated it was section 352. He said that the Lottery law which was alleged to have been violated was section 325, which declared lottery selling to be a felony.

Mr. Bowers said that in Judge Pryor's decision the pool-selling was not a violation of the lottery laws, but a violation of the same line of reasoning human life is made ready to be sacrificed to the end, as chance formed a great portion of it.

Mr. Steinhart said a man who paid \$20 to enter his horse in the Brooklyn Handicap was not a gambler, but a man who was willing to take his chance.

At the conclusion of the argument before the court, Justice Gaynor said he would begin work on a decision at once.
