HILL'S GREAT SPEECH. Senator Hill has won credit and honor by his brilliant speech of yesterday defending President Cleveland's action in writing the now famous Wilson letter, justifying and warmly indorsing the principles it enunciated, and criticizing the course of the Senators who had yesterday, one after another, "detailed conversations of a semi-confidential character at least with the President."

Loss of Senatorial tempers may bring glory to the popular cause. A "straight" local ticket in New York City is the natural prop of bossism.

Senator Hill knows a little Shakespeare himself. But there is reason to believe that he shares in no Shakespearean doubts as to the existence of a to-morrow.

SEEKING HER FATHER. Mrs. Harnig's Systematic Search for Robert Freilingham. Her Parents Separated in 1868, When She Was a Baby.

A Fortune in Germany is Said to Be Awaiting Her Efforts. Mrs. Annie Harnig, of 25 Bouday-dam street, Brooklyn, will begin to-day a systematic search for her father, of whom she has but a faint recollection, and of whose disappearance from his home in this city twenty-six years ago she tells a remarkable story.

Robert Freilingham, the man for whom she is searching, was a born painter at the time she was a baby. His shop was located on East Fourth street. His relatives in Germany were even at that time said to be wealthy. He had come here when little more than a boy; had grown up in New York, made money and married. Annie was the only child of this marriage.

After a few years of married life Freilingham grew careless and indifferent. He neglected his wife to such an extent that quarrels arose and finally a separation was decided upon. What money he had in bank was drawn out and equally divided, and then husband and wife parted. That was Feb. 2, 1868.

Her Frigid is in the Way. To the Editor: Will some of the young lady readers of this column give me some advice. Creton, Proof of Creator. To the Editor: "A Kaplan" believes in a Supreme Being, a unit God, who is not a Creator, and claims to have sufficient proof for his assertion in his "Creton, Proof of Creator." Noni writes the proof, and his assertion stands therefore, as yet, unsupported by authority, logic or scientific research.
