

GIVE SEATS TO ALL.

That Is What the Public Demands of Street-Car Lines.

It is Done in Other Cities, Why Not in This?

An Inspector Says the Syndicate Can Defeat Any Law.

If victory can be gained by persistent effort, "The Evening World" is prepared to keep up its crusade against the overcrowding of street cars in this city until the next Legislature meets and the people can demand of their representatives the rights to which they are entitled.

They are beginning to realize, now that the fight has been so far advanced, that the fight is not so easily imposed upon by the grasping and greedy corporations, which have been heaping up enormous profits at the expense of their comfort and convenience, and in violation of their undoubted rights.

They have endeavored submissively for years what would not be tolerated in any other city of its rank in the world, and the turning point has come at last.

It won't do for the companies to put on a few more cars, or run on quicker headway. What the public demands is that it should have the right to expect in every passenger who pays his fare shall be provided with a seat.

If such a system is found practicable in other cities, and is rigorously enforced there is no reason why the people of New York should not enjoy the same advantages.

Readers of "The Evening World" who are waking up to the importance of the situation, and who want to help along the good work, are pouring hot lead into the camp of the monopolists. One of our correspondents writes that he had a talk with an inspector of the Broadway car line and that official is quoted as saying:

"If any step is made by 'The Evening World' to get a law passed compelling the street-car companies to give a seat to every passenger, and to no more aboard than the seating capacity of the car will accommodate, the syndicate will look out for itself as it has always done."

The remarks of the official show the ordinary attitude of the corporations towards the public, which has granted them their valuable franchises and is enriching them with its patronage. To accommodate the patrons is a secondary consideration with these companies. All they care for is a big balance at the end of the month, and they can secure greater profits by imposing on the people and refusing to accord them what they are rightfully entitled to do so without hesitation, and it requires a bundle of strings to their positions that regard the bribery and corruption of the people's representatives as the only legitimate method of securing their ends.

Here are some selections from this morning's mail:

Govs for President Crimmins.

One of the largest stockholders in the Metropolitan Trust Co. has written to the Crimmins. With his big pull he manages to get permits to tear up our streets and to block up our sidewalks and streets with his automobiles and trucks. All of the above without a complaint from any citizen. The man who owns the Crimmins is a citizen of New York. He is also credited with being one of the most charitable men who ever lived. He has given away more money than any other man in the city. He has given away more money than any other man in the city. He has given away more money than any other man in the city.

Another Shot for the Syndicate.

You deserve the thanks of every taxpayer in New York for your fearless exposure of that grasping monopoly, the Metropolitan Trust Company. They have John D. Crimmins at their head, one to cover their illegal tricks, which they carry on under cover of the city's name. Any man who was ever in the employ of the syndicate knows what they are up to. They are carrying on their business in a most disgraceful manner. They are carrying on their business in a most disgraceful manner. They are carrying on their business in a most disgraceful manner.

Crowded as Much as Ever.

If more cars are being run on the Broadway line, the situation will be even more crowded than it is now. The street-car companies are carrying on their business in a most disgraceful manner. They are carrying on their business in a most disgraceful manner. They are carrying on their business in a most disgraceful manner.

Keep Up the Fight.

The Broadway cars are as crowded as ever to-day. Nothing short of adopting the good suggestions printed in "The Evening World" can relieve the crush. Please keep on printing them until they are carried out. There are trailers on the Broadway and Third Avenue lines during the rush hours, and relays at Sixty-fifth street and

ON FIRE TWICE AT SEA

The Grace Liner Capao Narrowly Escaped Destruction.

Forced to Make Rio Janeiro and Restow Her Coal Bunkers.

Her Cargo Thought to Be Badly Damaged by Water.

The Grace line steamship Capao, Capt. Thomas, which arrived this morning from Chilian ports, had a narrow escape from total destruction by fire at sea while en route from Valparaiso to New York.

The Capao sailed from Coronel Aug. 4. At the various ports at which she touched a large cargo, consisting chiefly of silver ore and nitrate of soda, was taken on board.

All went well until Aug. 11, in lat. 44 south, long. 51 west, when a fire was discovered in the vessel's midship bunkers. A stream of water was played on the coals and the fire was apparently put out, but not until it had burned clean down to the flooring of the bunkers and choked the huge pumps, so much so that the pumps failed to draw water.

On the 15th fire was again discovered in the coal bunkers. It was feared at one time that the vessel would be totally destroyed, but the fire was put out by the use of water.

The fire was finally gotten under control, and when off Rio Janeiro Capt. Thomas ordered the vessel to be refueled. Considerable damage was done to the fittings of the vessel, and it is believed that a large quantity of the cargo of nitrate is damaged by water.

BESIEGE BY INCENDIARIES.

Schools Closed in Merced, Cal., and People Terrorized.

MERCED, Cal., Sept. 14.—This township is greatly excited over a series of incendiary fires Wednesday night and yesterday. Between daylight Thursday morning and noon there were seven fires, all of incendiary origin.

PREPARE FOR WINTER.

Fire at National Soldiers' Home.

WASHINGTON, Sept. 14.—Fire early this morning partly destroyed the big barn of the National Soldiers' Home, north of this city, causing a loss of about \$10,000. It is thought that some discharged soldier or crazed inmate of the home is responsible for the fire.

Small Fires.

Six Little Tailors.

The man who says he never heard of "The Six Little Tailors" confesses himself to be an ignoramus of the first water. The famous Jacobs Bros., who have two establishments in this city, one at 229 Broadway and the other at 152 and 154 Bowers, have met with such success that lately they branched out and established stores in Philadelphia and Boston. They have been amply repaid for their enterprise by the grand success they have attained in their new markets.

PAID DEAR FOR AN ANNUITY.

Murdered Man's Heir Deeds Away \$125,000 for \$2,000 Consideration.

DETROIT, Sept. 14.—What is regarded as a singular event in connection with the death of Charles H. Chauvin, the wealthy Cassin family has gone to New York, transpired yesterday, when a deed was placed upon record conveying a half-interest in the Chauvin real estate from William Trombley to John H. Seltz, of this city.

The story is that four years ago Trombley, who is a wealthy man in New York hotel, and who still resides there, was anxious to borrow some money, and meeting Seltz, who is something of a speculator, in New York it was arranged that Seltz should pay Trombley a stipulated sum per year, in return for which Trombley executed to Seltz the deed.

The agreement became valid upon the death of Mr. Chauvin. It is stated that Seltz carried out his part of the bargain up to the present year, but that the latter payments have been made irregularly, and Seltz, who claims that Little would have been thought of the matter had it not been for Chauvin's murder.

HIS DEATH MYSTERIOUS.
