HE STOLE COCAINE.

An Employee in the Bonded Warehouse Makes a Confession.
A Hoboken Druggist Said To Be Implicated as a Receiver.

Both Men Thought To Have Fled to Escape Arrest.

The officials of the Special Treasury Agents' office in the Custom-House were considerably excited this morning by the information that two men for whom warrants had been asked on charges of stealing and receiving stolen goods had disappeared.

Several weeks ago Collector Kilbreth was notified that sixty one-ounce packages of cocaine were missing from a bonded warehouse in Hoboken, the other for receiving the stolen goods and selling them.

Acting on the information contained in this confession, Detective McDonald found that the cocaine had been sold by Reynolds to a druggist named Dreyfuss, corner of Fourth street and Willow avenue, Hoboken.

Reynolds sold the goods to an agent of McKesson & Robbins, wholesale drug men on Fulton street, this city. This agent took the cocaine and disposed of it in the neighborhood of 35,000 leaves of opium.

Cheaper Bread Necessarily Follows Cheaper Flour.

Justness of "The Evening World's" Position Admitted.

"The Evening World's" fight for a reduction in the price of bread is practically won, and within a few days the public will have benefited by reason thereof.

This information was given an "Evening World" reporter yesterday afternoon by the manager of one of the largest wholesale baking establishments in the city.

A special despatch to "The Evening Post" from Washington to-day says: "The greatest piece of good news for civil-service reformers since the Federal Civil-Service law was put into full operation is about to be given to the public in an order of President Cleveland."

This is a widely sweeping order of classification, by which a greater range of offices will be brought under the civil-service rules than by any order issued by himself during his first term or by President Harrison between 1889 and 1893.

Another class included already are the clerks in three divisions of all grades, having twenty employees or more. The numerous line has heretofore been drawn at fifty employees, and the classification has not extended below those clerks drawing \$90 salary.

RETURN OF ENCKE'S COMET.

A German Professor Has Found It, But It Is Not Yet Brilliant.

Encke's comet gets its name from Prof. Johann Franz Encke, of the Conservatory of Berlin, who, however, was not its discoverer. It was first seen in January, 1786, and Miss Caroline Herschel found it in 1796 and made observations of it, but without accurate result as to its orbit.

LAST EDITION. MRS. HERMANN GROWS DEFIANT.

Declares She's Not Afraid of Justice Hogan or Recorder Smyth.

"CAN PROVE ALL THAT I SAID."

Denounces Ex-Ward Man Peterman as a Thief and Loafers to His Face.

MR. SHEEHAN TO BE RECALLED.

Notice Sent to the Commissioner This Morning—Mrs. Hermann Temporarily Excused.

Whether Mrs. Matilda Hermann will tell the Lexow Committee all she knows about the blackmailing police, who discovered in her such a gold mine during the seven years, she said after the broilous business in West Third street was the question which was uppermost when the Senate investigation was resumed this morning.

Mr. Goff employed his persuasive powers yesterday in his efforts to induce her to disclose the names of some of the extortionists, but she was evidently holding back a great deal, and when closely pressed by the counsel for the committee to give the names of particular men concerned in the conspiracy, she said decisively: "Mr. Goff, you may kill me, but you cannot make me tell."

Mr. Goff has her statement.

As a matter of fact she has already told a very complete story of her experience with the police of the Mercer street station, giving the names of all the officials to whom she paid blackmail, and Mr. Goff has this information in his possession in the form of a written statement subscribed by her, the entire details of which he will bring out sooner or later, whether Mrs. Hermann will repeat her story upon the witness stand or not. She has already given her testimony directly to the facts which she has already given to the detectives of the committee.
