

CUMMINGS OUT; HAMILTON IN.

Platt Republican Succeeds the Tammany Man as Subway Commissioner.

THAT ENDS ALL REMOVALS.

The Wigwam Has Lost 178 Offices Since the Removal Bill Became Law.

PLATT GOT MANY OFFICES.

But None of Them Was Important—Strong Would Abolish the Subway Board.

Mayor Strong this afternoon appointed Thomas L. Hamilton a Subway Commissioner in place of Amos Jay Cummings, removed. The salary is \$5,000 a year.

Hamilton is a builder and lives in the 43rd Street Assembly District. He is a Platt Republican, was a member of the Republican County Committee and is an intimate friend of Fred Gibbs.

The other members of the Subway Commission, Kearney and "Jake" Hess, are Republicans.

The place which Hamilton was appointed was offered to Henry L. Stoddard, anti-Platt man, but he declined it, preferring a place on the Park Avenue Commission.

The removal of Amos J. Cummings as the Subway Commission because it is a sort of a fifth wheel to the city service and in his opinion, he got along without it.

It is not improbable that he will get the approval to resign in an effort to secure the abolition of the board by the Legislature.

Up to noon today the Mayor has removed 178 Tammany city officials, and appointed independent Republicans and Democrats, Platt and anti-Platt Republicans, O'Brien, Committee of Seventy and German American Democratic organizations, Good Government and unidentified and unclassified reformers.

Every brand of politicians has been recognized, except the Prohibitionists, Seventh Day Adventists, National Union Labor and Populist man has even been rewarded. That was Police Justice Simms, who was appointed a police magistrate. The total number of removals made by the Mayor since he began to boss the town is 180.

Two Platt Republican Police Commissioners, Murray and Kerwin, were among them. Any day now for the Mayor to get back into the Mayor's office, then some pointers in running a police department.

The first appointment made by the Mayor was that of John E. Hodges, who was appointed to the position of Police Commissioner. He was appointed at 12:15 o'clock on June 27.

The last appointment made by the Mayor was that of John E. Hodges, who was appointed to the position of Police Commissioner. He was appointed at 12:15 o'clock on June 27.

The Mayor did not begin to swing his axe under the Power of Removal bill until February 13, principally because the bill didn't become a law until two days before.

But he gave it an extensive swing on the 13th. "Mike" Kelly went to jail that day and Brookfield got his job.

Ex-Senator Platt came in for a drubbing that day. He called the Mayor's hand and foot and he was a member of the eleven appointments made on that fatal third day. The Mayor's hand and foot were not as important as they were.

Brookfield was a bitter case for the machine men, but Francis M. Scott, for Corporation Commissioner, that he was treated all parties alike. He thinks he has done so.

The appointment of Scott wasn't the end of it either. The Mayor continued to fire hot shot at both Tammany and Platt and he has been doing so ever since.

Platt got it "in the neck" here, for not one of the men appointed was an avowed Platt man. He had been a member of the Legislature, but he was not as important as he was.

The Mayor chuckled when informed of the results of the analysis of his appointments this afternoon, and appeared to be gratified that the figures bore out his official declaration that he would treat all parties alike. He thinks he has done so.

The Board appointed Grand Jurors, of 145 West 12th Street, at \$1,500 a year, dockmaster, at a salary of \$1,500 a year, Vice-President, at \$1,500 a year, and a clerk, at \$1,500 a year.

The Board appointed Grand Jurors, of 145 West 12th Street, at \$1,500 a year, dockmaster, at a salary of \$1,500 a year, Vice-President, at \$1,500 a year, and a clerk, at \$1,500 a year.

AT WORK ON NEW TAMMANY.

(Continued from First Page.) 2 o'clock, and from that hour until 4 the "reorganizers" drop in. By the law of fitness the loungers in the office cluster in a fringe about the windows discussing in monotonous the absorbing topic of deals and majorities and leave the quartet of purifiers undisturbed. Occasionally Mr. "Mike" Kelly, who is a member of the Public Works, crowds a fifth chair into the gloomy corner, but not often, as he is not strictly a local politician.

Converse in Low Tones. For a full hour the figures in the group converse in tones so low that the clerk who sits half a dozen feet away can determine only the uncertain articulation of voices. "Larry" appears to act as judge, the others as associates of witnesses stating facts after the manner of an attorney in the courts of law, justifying and qualifying an argument.

The function that engrosses the attention of these distinguished purifiers is the question of the essential facts of the condition of each Assembly district and what the city, and the result of their work will form the basis of the plan which will be presented to the Mayor.

Mr. Croker's plans will be of a general character. The details to be worked out are being worked by the Tammany quartet.

The former standing and influence of an Assembly district leader is a factor in the consideration. Hence the utmost care has been taken to determine the exact accuracy of the claim that County Clerk Henry D. Purroy is one of the members of the Tammany party.

The former standing and influence of an Assembly district leader is a factor in the consideration. Hence the utmost care has been taken to determine the exact accuracy of the claim that County Clerk Henry D. Purroy is one of the members of the Tammany party.

Know Purroy's Power. Just how much Mr. Purroy can swing his district should be known to the Tammany men. It is known to the quartet. They have made it their business to find out and in the early morning hours they are at work after the fashion of detectives and in the afternoon they meet under the Kelly portrait to exchange news and inform "Larry" of their doings.

The mid-afternoon gatherings of the four men are held in the office of the various lights by the subordinate leaders and rank and file in Tammany. One of the members of the most powerful political faction in the world rests in the hands of these four men; that is, the Tammany party.

Another view, and probably the correct one, is that the quartet of reformers is simply preparing a scheme—or one of two schemes—to be submitted to the Mayor, and that the Tammany party will undertake the task of reconstructing Tammany from superstructure to foundation.

Another view, and probably the correct one, is that the quartet of reformers is simply preparing a scheme—or one of two schemes—to be submitted to the Mayor, and that the Tammany party will undertake the task of reconstructing Tammany from superstructure to foundation.

HARVARD DECLINES, IT WAS WILE THE MAY.

Will Not Compete with Yale Against English Athletes. Neither University Represents Supremacy in This Country. Willing to Co-operate in Forming a Representative College Team.

(Continued from First Page.) brought the shell to a standstill. Harvard crossed with her spurt still in evidence, but a length and three-quarters behind her old rival.

The poor Columbia men bent their young but bullock-like backs to the oars and struggled gamely and dutifully to catch up with the rear when they were when the victors crossed the line.

RACE LACKED INTEREST. New London Seemed to Be in the Business for Revenue Only.

(Special to The Evening World.) NEW LONDON, Conn., June 27.—This town awoke with a yawn this morning. It was late in tumbling out of bed, but time, tide and wind wait for no man, and by 9.30 o'clock the transient population was ready to cheer or groan for the freshmen crews of Harvard, Yale and Columbia, at the start of the regatta which was against them.

Pale young men from Cambridge, New Haven and Forty-seventh street, and the advance guard of graduates journeyed to the foot of State street after a breakfast was negotiated.

Dead Sirs: Your letter of June 10, inviting Harvard University to unite with Yale University in meeting the universities of Oxford and Cambridge in an athletic competition in this country next Autumn, has been referred to the Harvard Committee on the regulation of athletic sports.

We appreciate highly the courtesy of your invitation, and it is with much regret that we feel obliged to forego the pleasure of the proposed competition.

We could hardly accept your invitation without assuming in appearance at least that Harvard and Yale occupy the prominent position among American universities which is held among English universities by Oxford and Cambridge. As there is no foundation in fact for this assumption, we think it better for university athletics in this country, as well as for university interests in general, that we should not lend any countenance to it, and that we should, therefore, avoid all semblance of a spirit of exclusiveness towards our sister universities.

Nor, considering the narrow ground of athletic skill, can we forget that, in the latest competition among American universities, Harvard won only the third place.

As a matter of general principle, it seems to us that international student competitions would be best arranged either between two groups of universities, fairly representing the general body of students in each country, or else between single universities on each side.

We regret that you were not free to accept the invitation of the American Intercollegiate Association, and we are especially sorry if any misconception as to our attitude in regard to that invitation influenced you in declining it. We should be pleased if even now you were disposed, with Yale's concurrence, to arrange for a competition on the basis of that invitation.

If we should be fortunate enough in some future year to win on this side of the water the leadership of the track athletics which this year belongs unquestionably to Yale, we shall hope to have the pleasure of competing with one of you as the winner of the Oxford-Cambridge games. Very truly yours, J. B. AMES.

Chairman Harvard Athletic Committee. A copy of Harvard's reply was also sent to the Yale athletic authorities.

LONDON, June 27.—The reply of Harvard University's committee to the invitation of Oxford and Cambridge Universities to take part in an international athletic competition in England next Autumn, in conjunction with Yale University, has caused much regret at Oxford and Cambridge, where the answer of the American University was communicated to the Presidents of the University Athletic Clubs exclusively by the Associated Press.

This regret is all the more keen because the Oxford and Cambridge athletes feel they are unable to arrange to go to America every year, and the Englishmen had anticipated the visit with the greatest possible interest and enthusiasm and the athletes had built up many hopes on the result of their visit.

Consequently, it may well be imagined that Harvard's answer was a most unpopulous surprise.

The suggestion of Harvard that Oxford and Cambridge should challenge Yale and Pennsylvania to meet in the United States next Autumn, in conjunction with Yale University, has caused much regret at Oxford and Cambridge, where the answer of the American University was communicated to the Presidents of the University Athletic Clubs exclusively by the Associated Press.

GRANT NO A SNAP.

He Fines Delinquent Patrolmen, Regardless of Explanations. There Are Eighty-six Cases on the Calendar for Trial.

(Continued from First Page.) This is trial day at Police Headquarters, and Commissioner Grant started in at 11 o'clock to dispose of the eighty-six cases before him.

Roundsman Jackson, of the Delancey street station, had Patrolman John Stiller up before the Commissioner for not properly patrolling his post.

"I was investigating a disturbance," said the officer.

Col. Grant did not like his excuse.

"The impression has got around," said the officer, "that I am an easy-going man, and the boys try to get before me to be tried. They will find out differently. You are fined seven days' pay."

Roundsman Hickey, of the West Thirty-seventh street station, complained that Patrolman James Gillespie had not properly patrolled his post.

"This is a very nice way to do your job," said the Commissioner, as he handed the patrolman to step down. He had given a five-day suspension to the officer.

A. C. Kent and William Mitchell were fined for not properly patrolling their posts.

"I charge under rule 199 that Patrolman Thomas H. Doyle, of the East Fifty-fifth street station, was drunk in the streets," said Acting Capt. Steinkamp.

Your duty compels you to make this charge, does it not, no matter what the circumstances may be?" asked Col. Grant.

"Yes, sir," said the Commissioner to Doyle.

"I was chasing Mike Callaghan, a robbery case, and I got into a fight with him. I fired one shot in the air, but he did not hit and then I fired and hit him in the back of the head."

"O.K.," said Col. Grant. "I have investigated the case thoroughly and completely. You are fined five days' pay. I shall try and see that you receive prompt punishment."

William Z. O'Neill, a patrolman, attached to the West Twentieth street station, was fined for not properly patrolling his post.

Acting Capt. Lynch, Police Justice Simms was a witness in the case, which was the last of the day.

Police Officer James Oates, of the Kingsbridge station, was fined for not properly patrolling his post.

BULLS AND BEARS CAUGHT.

Slumps in Chicago Gas and Sugar and a Rise in Reading. There were some lively movements at the Stock Exchange this morning and some of them came in the nature of surprises to bulls and bears alike.

The former were considerably upset by a slump in Chicago Gas and Sugar, the former selling down 2-1/4, to 20, and the latter 1-1/4, to 112-5/8.

The heaviness of Gas was due to the disappointment felt over the Governor's veto of the Frontage bill and reports that measures inimical to the Trust will be introduced in the Illinois Legislature to-night.

Another rumor had it that a rival company, backed by ample capital, will shortly begin operations and will lower the price of gas to consumers.

Tennessee Coal & Iron was another weak spot and broke 1-7/8, to 24-1/4, and subsequently rallied to 25-1/4.

On the other hand a number of shares were positively buoyant. Reading was the first to come into prominence and shot up 1/2 to 19 1/2 on heavy purchases, which were attributed to the First National Bank party in the interest of the Jersey Central Company.

It is said that active steps are being taken to harmonize the differences between the cost of the two companies. Reading will be speedily reorganized, and that the assessment on the shares will be smaller than expected.

The selling movement in Chicago Gas and Sugar continued, and both stocks were very firm. The sugar stock, however, held very firm, the buyers of considerable magnitude, particularly in the anthracite coalers and some of the low price shares.

There was a further bad break in Chicago Gas this day. The stock sold at 36-7/8, a decline of 1 per cent. from yesterday's closing. The disappearance of the stock by the company has raised doubts in the minds of many as to the payment of the dividend which will fall due in August.

The total sales of listed stocks were 265,000 shares. In the unlisted department 73,000 shares of Sugar were traded in.

The Closing Quotations. American Tobacco, 117 1/2; 118 1/2; 119 1/2; 120 1/2. American Sugar Ref., 21 1/2; 22 1/2; 23 1/2; 24 1/2. American Sugar Ref., 24 1/2; 25 1/2; 26 1/2; 27 1/2.
