

MILK DEALERS HAULED UP.

Nearly Fifty of Them in Court for Selling the Adulterated Article.

PROF. DOREMUS SECURED.

He Will Be Arrayed Against the Experts of the Health Board.

SOME FINES OF \$50 AND \$75.

Contracts with Wholesalers to Pay All Fines That May Be Imposed on Retailers.

Magistrate Jerome, Holbrook and Jacob did a land office business in the Court of Special Sessions to-day in a determined effort to break up the nefarious business of adulterating milk, as supplied to the poor people in the tenements in this city.

There were fourteen other dealers who had pleaded guilty, confessing that they had sold milk from which all the nourishing cream had been skimmed, leaving only the blue, unwholesome part, or had actually adulterated the milk with water, doctored to deceive the consumer.

The milk dealers succeeded in securing Prof. Doremus as a witness, in opposition to the experts of the Health Department. They had been striving to do a raid on the milk adulterators by the determined efforts of "The World," which secured through its reporters many samples of milk from dealers in the tenement quarters, showing startling adulterations and impurities in a chemical analysis.

The fourteen awaiting sentence were Fanny Baff, Elizabeth Damm, Charles F. Klein, Herman Meubur, Morris Polatinsky, Max Blackman, Louis Biegelstein, Gustav Freund, Max Rosenberg, John Schell, Bernard Sutin, Betsy Shideman, Carl Schmidt and Charles Solomon.

Those waiting to plead were Charles M. Eames, John Brinkman, Dora Kalchheim, Frederick Cordes, Louis Penna, Thomas Woods, Martin Lydon, Rosa Beckowitz, Hyman Klein, Freda Alfeld, Imehael Klug, John Millenhauer, Frederick W. Meyer, J. Henry Meyer, William Postel, Abram Robinson, Henry Vogis, Louis Walpers,

BROOKLYN. TROLLEY IS DEFIANT.

Cars Are Run at a High Rate of Speed Daily.

Complaints Are Made but No Suits Are Brought.

Everything Waits on a Decision in the Supreme Court.

Another big batch of violations of trolley speed ordinances was laid before Corporation Counsel McDonald and reported to Mayor Scherren, of Brooklyn, to-day.

Chief Trolley Inspector Franklin in his report to the Mayor, says: During the past month the inspectors of the speed ordinance have reported 104 violations of the speed ordinance.

Atlantic Avenue Railroad Company, 29 violations; highest speed, Vanderbilt avenue line Aug. 24, 25.4 miles per hour.

Brooklyn, Queens County and Suburban Railroad Company, 11 violations; highest speed, Broadway line, Aug. 6, 15.6 miles per hour.

Consp. Island and Brooklyn Railroad Company, 1 violation; highest speed, West street line, Aug. 19, 15.8 miles per hour.

Nassau Electric Railroad Company, 4 violations; highest speed, Marcy avenue line, Aug. 14, 17.45 miles per hour.

There have been violations, with attendant evidence, have been placed in the Corporation Counsel's possession.

Assistant Corporation Counsel Yongo, when asked what the city authorities intended to do to stop the companies from violating the law, said:

"Several suits brought by the city to collect a penalty of \$25 are pending. The companies have sued the city for an injunction restraining us from interfering with the operation of their cars, claiming that the Aldermen had no authority to limit the rate of speed.

This suit will come up for trial in the latter part of this month. Should it result in the city's favor the suits will be upheld, and if it is necessary to bring other suits to compel the companies to run their cars slower, the evidence laid before us to-day will be used."

DELEHANTY TRANSFERRED.

Fined for Disobedience, Not for Allowing Bail to Escape.

Police Commissioners Welles, of Brooklyn, to-day fined Detective Delehanty thirty days' pay and transferred him from the Bureau of Criminal Investigation to the Gates avenue police station.

Delehanty was virtually on trial for allowing Edward Ball to escape from him on a Fall River boat. Ball was being brought from Boston on suspicion of being one of the men who robbed Dr. Drury recently.

The detective was found guilty of disobeying instructions in not endeavoring to have the man held in Boston to await identification. The punishment was not, technically, for permitting a

prisoner to escape, as he legally had no prisoner.

It is only a few weeks since Delehanty was promoted from the De Kalb avenue station to Police Headquarters for his work on the Henry murder case.

As a forecast of the practical white-washing, Commissioner Welles in open court, referred to the detective's record on the force and complimented him on his work on the Henry murder case.

He then asked the detective questions tending to show that Ball was in reality not a prisoner in a legal sense as he was arrested on an outlawed warrant.

Delehanty was the only witness on the stand to-day. He explained that he arrested Ball in Boston on a "bluff" warrant.

Then the Police Commissioner asked him if the prisoner had not the right to leave the boat whenever he wished, as the warrant was worthless at the time.

The detective naturally answered that he had no legal right to detain him. The Police Commissioner then complimented Delehanty on his record and said he would reserve decision. He then went down to his office and a few minutes later rendered the decision.

DO-NO-HA-GA-NAH BURIED.

Gen. Ely S. Parker Was Schemer of the Six Nations.

(Special to The Evening World.) BRIDGEPORT, Conn., Sept. 4.—The funeral of Gen. Ely S. Parker was held this afternoon. The burial was in the Fairfield cemetery.

Much of the ceremony was in accordance with the rites prescribed by the Indian tribes of which he was Schemer.

Gen. Parker's name was Do-No-Ha-Ga-Nah (Keeper of the Western Gate).

The dead General was schemer of the Six Nations, that league which Illinois bounded. His successor will be an eighteen-year-old boy of the Wolf Clan, of the Seneca Nation, now on the reservation at Tonawanda.

At the grave Mrs. Harriet Maxwell Converse laid upon the coffin the "sacchams horns" and a small circle of wampum. The "sacchams horns" were lifted out of the grave before it was covered in and will be sent to his successor at Tonawanda.

In the absence of the higher authority Mrs. Converse performed this sacred rite. She is adopted by the Seneca tribe and is a leading spirit among them. Her Indian name is Va-La-Wa-Nah (She Watches Over the People).

The remains of the dead chief were carried upon the shoulders of the pallbearers from the residence of Arthur Brown, where he died, to the grave, nearly two miles.

There were two representatives from Reno Post G. A. R., New York; two from the Society of Colonial Wars, New York; and two from Loyal Legion.

Rev. Alexander Hamilton, of the Colonial Wars Society, assisted Rev. E. S. Jones, rector of the Episcopal Church, of Fairfield, in conducting the ceremony.

Among those attending the funeral were a large number of city officials from New York.

THE POLICE WARNED.

Any Attempt to Raise a Corruption Fund to Be Punished.

Conlin Does Not Believe Such a Thing is Under Way.

Nevertheless the Police Board Issues a General Order.

Acting Chief Conlin said this morning that the rumor of an effort of sergeants, roundmen and patrolmen to raise a corruption fund to influence legislation at Albany:

"I believe it is a myth. I do not believe a man in the Department to-day would have the temerity to attempt such a thing. It might be attempted ten months ago, but now, never."

Rumor of such a fund reached the Commissioners' ears recently, and yesterday at a conference the topic was discussed. To push forward the reorganization of the Department and to warn the police that such a fund must not be raised, a general order was telegraphed to all station-houses last night and read to the men.

It told policemen it would be dangerous to create such a fund, and dared them to make even an attempt.

This morning President Roosevelt and the Acting Chief had another conference on the subject. What was said neither would tell.

"We talked about the matter," said Acting Chief Conlin. "I want to say if I find such a corruption fund as mentioned in being raised or contemplated, and the guilty ones discovered it will go mighty hard with them."

The following is the order sent last night: The following announcement of the Board of Police made this day (Sept. 3, '35) is herewith promulgated for the information and guidance of the force.

You will read it to the members of your command at each patrol station for three successive days from this P. M.

The foregoing was addressed to the captains or acting captains of the various precincts. This was a continuation of the order:

It has been rumored that efforts are being made to collect money from the members of the uniformed force for various purposes. The Board hereby announces that no officer need contribute a cent unless he wishes for any purpose, and that no money whatever must be contributed for any purpose not entirely proper.

Any attempt by an officer to promise or incite any other officer for not contributing will be met by proper and severe punishment if discovered, and the Board wishes immediate information of any such attempt.

The Board held a public session this afternoon and then went into a secret meeting for the purpose. It was decided of appointing a number of new policemen.

In answer to a communication from F. W. Gibson, deputy and acting Commissioner of the Street-Cleaning Department, complaining that the street cleaners were handicapped in their work through the negligence of the police in properly aiding them, the Board instructed Chief Clerk Kipp to request more specific information.

Those patrolmen were dismissed: Frank Hahn, of Eldridge street station; James McFarland, of East One Hundred and Fourth street station; and Edward Hahn, of West Thirty-seventh street squad.

Hahn and Hahn had been tried and found guilty of being in liquor stores, while in uniform, and on duty. Frank Hahn is the patrolman who, it

is alleged, had an interest in a disorderly house in Eldridge street, of which it is a denied Miss. Artel was proprietor.

Ex-Detective Serg. Charles Jacobs was dismissed from the force. Jacobs sent in his resignation some time ago, and the Board declined to accept it. Jacobs was connected with the Police Department and Detective Bureau a long time ago, with Detective McManus, now being kept in the Police Department's office, was connected with the Parkhurst Society row about Burglar Liss.

Two letters from residents of Pennsylvania and Minnesota, received from green-goods men in this city, were submitted. The address given was G. W. Pitts 314 Central Park West.

The Commissioners referred the letters to Acting Chief Conlin with instructions to have Acting Capt. Conroy, of the West One Hundredth street station, make a thorough investigation.

Patrolman Philip Rosenberg, of the Mulberry street station, sent in his resignation.

Commissioner Andrews had a resolution adopted that the Commissioner be requested to inform the Board whether any person or persons claiming to have performed any labor or furnished any material on contract with Peters & Keine for the construction of twelve patrol vans had any bills against the Commissioner any liens, and if such notices have been filed to give the names and amounts.

Roundmen John Flood and William E. Petty, attached to Acting Chief Conlin's staff, were detailed as sergeants on probation. Flood was stenographic to the late Chief Hyman. Petty is the champion pistol shot.

WARING TO CONTRACT.

He Will Be Relieved of Collecting and Disposing of Garbage.

The Board of Estimate and Apportionment to-day adopted a resolution which will partly revolutionize one branch of the Street-Cleaning Department. There were two propositions introduced, providing for the disposition of garbage and ashes, by collecting, practically taking the work out of the hands of the Street-Cleaning Commissioner and having it done by contract.

Comptroller Fitch presented one and Mayor Strong the other. The Mayor's was adopted.

The question of letting the final disposition of garbage out by contract has been adopted by the Mayor since Aug. 1.

The resolution adopted to-day is as follows: Resolved, That the Commissioner of Street-Cleaning be and he is hereby instructed to prepare a form of advertisement and contract for the disposal of garbage and ashes, to be approved by the Council to the Corporation, and after such approval to be inserted in the City Record and other papers for thirty days, and when the proposals are received and tabulated that they be submitted to the Board of Estimate and Apportionment for their action as may be determined.

The Board appropriated \$100,000 for work on the Mulberry Bend Park, and applied to President King, of the Park Board, that he could employ watchmen for looking after the park.

The Board also appropriated \$80,000, the remainder of the million-dollar appropriation of last year to asphalt Fifth avenue from Ninetieth to One Hundred and Tenth street.

The only full accounts of the baseball game are given in "THE EVENING WORLD'S" NIGHT EXTRA, issued immediately after the last play has been made.

WANT HIGHER PAY.

Park Policemen Say They Are Worth More Money.

The Commissioners Will Take It Under Advisement.

Long Meeting To-Day, with Much Routine Work.

The Park Board to-day received a committee, representing park patrolmen, who wished to present arguments for an increase in salary. The Committee included Officers John T. Smith, James Fitzgerald and Michael Moss. They wanted the salary of patrolmen raised from \$1,100 to \$1,300 a year. At present mounted policemen are allowed an additional \$100.

Patrolman Smith, a mounted policeman, said the duties of a park policeman are as onerous as those of the municipal force. Patrolman Fitzgerald, who served five years on the municipal force, referred to the fact that in stormy weather there are no "friendly storerooms" to shelter park guardians.

The regular city or "municipal" police, after serving a few years, now get \$1,000 a year.

President King said the Board would give the subject due consideration.

Two letters were received commending Roundsmen James McGlynn for stopping a runaway in Central Park last Friday afternoon. The writers were E. T. Palmenberg and Carl Ordeman, whose mother and daughter were in the vehicle. It was ordered that the letters should be placed on file and the contents communicated to the force.

A letter from Henry Koster, applying for reinstatement as a captain of Park Police, who was dismissed in 1875, as he says, without a hearing, was simply placed on file.

A resolution was passed requesting executors of the estate of the late Robert Ray Hamilton to have plans prepared for a fountain to be constructed in Mulberry Bend Park. Mr. Hamilton provided in his will for such a gift to the city. The resolution provides that the fountain shall not be more than forty feet in diameter.

A resolution was passed also requesting John Gilliam Howard, the architect, to prepare plans and specifications for a viaduct for the Riverside Drive at

Ninety-sixth street. It will cost about \$100,000.

A report from M. A. Kellogg, engineer of construction, informed the Board he had consulted with Lieut.-Col. Gillespie, of the Engineer Corps of the United States Army, who has charge of the Harlem River improvement, regarding the proposed bridge over the Spuyten Duyvil Creek, at Broadway.

Mr. Kellogg said that the United States authorities would not object to such a bridge, provided the consent of adjacent property owners is obtained and a guarantee given that if the Federal authorities shall order the construction of a draw span it shall be put in. The Board directed steps to secure consent. The bridge will cost about \$7,000.

The President was authorized to obtain estimates for repaving Fifth avenue at Fifty-ninth street, in front of the Hotel Netherlands, with granite blocks or asphalt.

A letter from Acting Corporation Counsel Turner advised that the lowest bid for the new west wing of the Museum of Natural History was informal. The lowest bidder was T. A. Burke.

WAS FITZGERALD BRUTAL?

A Prisoner Accuses His Captor of Ill-Treating Him.

Policeman Michael Fitzgerald, of the West Thirtieth street station, was accused in the Jefferson Market Police Court to-day by John Hetschoff, thirty-three years old, of 1823 Amsterdam avenue, with having brutally beaten him. Hetschoff is a little man and the policeman a veritable giant.

Hetschoff was arrested in front of the Sturtevant House, where he is employed, last night, for making a speech to a crowd. He had been drinking. He said the policeman grabbed him and hauled him all over the sidewalk.

A spectator who said he was James R. Geardell, white and red, and a complainant. The policeman denied the charge. Magistrate Corneil said, however, he believed Hetschoff's story and adjourned the case to permit the policeman to bring witnesses of the affair. Fitzgerald told the Magistrate that Police Commissioner Parker witnessed it and promised to ask the Commissioner to come forward and testify. Hetschoff was held in \$100 bail.
