

CHOLERA RAGES IN THE ORIENT.

Pekin Alone Had Over Fifteen Hundred Deaths Daily in August.

ALSO INCREASING IN JAPAN.

English and American Envoys Charged with Inaction on the Massacre.

NOT JUSTIFIED BY THE FACTS.

Foreign Residents Desirous for Governments to Directly Demand Reparation.

VICTORIA, B. C., Sept. 4.—The steamship Empress of China has arrived from the Orient with advices to Aug. 23, as follows: Cholera increases in Peking and the deaths exceed 1,500 daily. It is also increasing in Japan. The total number of cholera cases reported throughout Japan Aug. 19 was 771; deaths, 129. The aggregate number of cases from the 1st July to Aug. 25, 1890, of which 1,230 occurred on transports, and the deaths are 16,778. There were eighteen new cases in Tokio in the twenty-four hours ending at noon Aug. 21, of which two died.

A telegram from Mr. Cinda, Japanese Consul at Shanghai, reports 263 deaths among Chinese and seven among foreigners in British and American concessions between the 1st and 13th of August. Another case has occurred on the Italian cruiser Umbria, bringing up the total number of cases on that vessel to eight.

The Chinese Massacre. The envoys of the United States and Great Britain in Peking are assailed with excessive violence by their countrymen residing in China for alleged neglect of duty in connection with the anti-missionary outrages at Ku-Cheng and Cheng Tsu. No sufficient evidence is produced to justify the denunciations lavished upon them.

Immediate retribution for the atrocities is demanded, and as this cannot be summarily inflicted, the Ministers are accused of heartless indifference to the claims of justice and humanity. The British Consul officials at the more bitterly arraigned, the incumbent at Foo Chow being particularly charged with reprehensible delay in ordering an investigation.

The American Consuls, on the contrary, are solicited for the energy of their efforts to hold the offenders to account, but their activity is declared to be unavailing in consequence of the apathy exhibited at Peking. It is certain, however, that Minister Denby and his English colleagues have induced the Emperor to order the degradation of the Chief Magistrate of Ku-Cheng and to issue a decree for the extirpation of the Vegetarian Society by Foo Kien, the Viceroy.

Want Governments to Act Directly. The Governments at Washington and London are urged to take direct action and exact reparation without consulting representatives at the Chinese capital. Several of the American missionaries appear confident that this appeal will be granted and that the regular course of procedure will be set aside.

When they find themselves disappointed their rage against Mr. Denby will be greater than ever, but time will probably show that the present censures were never warranted by the actual circumstances. The idea that an American consul should be in a position to deliberately repudiate his responsibility and betray his trust is too monstrous to be long credited in any quarter.

WILLIAM BETS PRAISE.

German Socialists Send Greeting to Their French Comrades.

LONDON, Sept. 4.—The Times's Berlin correspondent says that the Emperor's sharp words against Socialists in his speech to the guards Monday has roused Germany with startling suddenness and has recalled her to the political struggles of every day life. Many comments have already appeared in the Conservative organs applauding His Majesty's words.

As a revenge for the prohibition of their meetings, the Socialists sent the following message to their friends in Paris: "On the twenty-fifth anniversary of Sedan we send as a protest against war and chauvinism, a greeting and a clasp of the hand to our French comrades. Hurrah for inter-solidarity."

ANOTHER TRADE BOOM HERE.

London Chronicle Says Increased Emigration Points to It.

LONDON, Sept. 4.—The Chronicle comments upon the increase of emigration to America as pointing to another trade boom here.

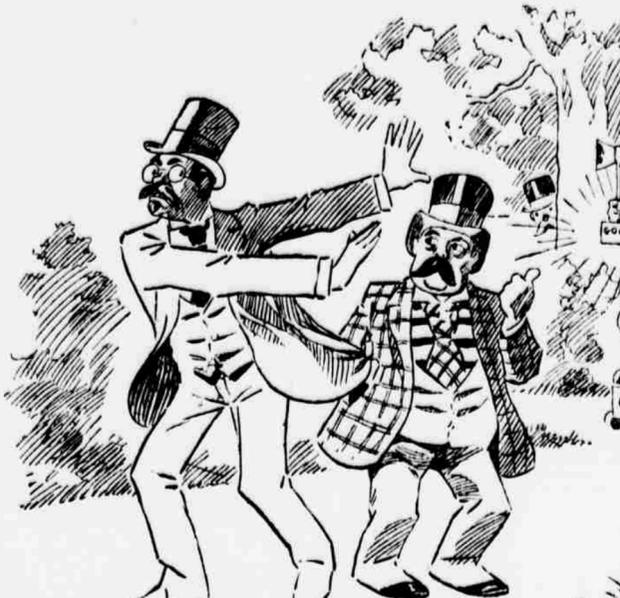

It is certain, it thinks, that if there is a healthy industrial revival there, there will be no more tariff tinkering one way or another.

Even Lovén, the Swedish Naturalist, Dead at Stockholm.

STOCKHOLM, Sept. 4.—Even Lovén, the distinguished Swedish naturalist, is dead, at the age of eighty-seven years.

Lovén, who was a native of Stockholm, was graduated at the University of Lund, in 1829, and after a year's study in Berlin, took up the science of zoology. He was appointed professor on the coast of Scandinavia, in 1827, going as far as Spitzbergen, in 1841, he was appointed Keeper of the Department of Lower Vertebrates in the Swedish State Museum of Natural History at Stockholm. He has written a number of books treating of his specialities in science.

PLATTITES MEET TO-NIGHT.

Lauterbach and Brookfield Will Battle for Delegates.

The Republican County Committee will meet to-night to make up its programme for holding next Tuesday night's primaries to elect delegates to the State Convention; to settle the row between Col. S. V. R. Cruger, to arrange for swatting the administration a deadly blow—if it can—and to carry out Henry Platt's wishes in other directions. Mr. Platt, through his eloquent lieutenant, "Smooth Ed" Lauterbach, controls a majority of the County Committee, and if the Brookfield men who are doing most of the fighting for the Mayor don't look sharp, Lauterbach will try pipes to-night to run the primaries his way, which isn't the way of anybody else.

The Brookfield men are prepared to give battle at the primaries, and are expected to hold enough delegates to their allies to make a deadly, interesting for the Platt outfit. Lauterbach got in his first work last night in the Twenty-eighth by having himself nominated, with Henry C. Ades and Christian Horlich, as delegates to the State Convention. Lauterbach lives in the Twenty-ninth District, and represents the Fifth District in the County Committee.

PROHIBITIONISTS "ANTE UP."

Campaign Fund of \$7,100 Submitted at the State Convention.

SARATOGA, Sept. 4.—Volney B. Cutting, Maine, this morning addressed the annual meeting of the Prohibition State Convention. He argued that all political parties must give way until the great principle of prohibition is forever settled, and added that prohibition is the foremost principle now before the country, and is the only one which a Christian citizen's ballot is his testimony witnessing his political righteousness. He said that the platform proposed does not in full accord with the principles of prohibition, opposed to all religious tests of sectarian purposes; opposed to all combinations and trusts that fatten at the expense of the masses; in favor of proportional representation; in favor of civil and religious liberty; opposed to class legislation.

AGAINST SUNDAY OPENING.

Probable Attitude of Republican Clubs on Excise Matters.

BINGHAMTON, N. Y., Sept. 4.—The incoming train bring in a few delegates to the meeting of the State League of Republican Clubs that begins to-night, but up to noon here the whole number of delegates does not exceed one hundred. As yet there are but two representatives from New York and Kings Counties present, and there are not many indications of larger numbers. The National League, and Congressman Thomas A. Groves of Pennsylvania, who has been absent during the Summer, did not sail from Europe in time to reach America for the Convention.

President Groves said to-day that the most important of these questions is the matter of the Republican party taking action on the excise question. So far as can be learned, the sentiment is against any legislation whatever, and particularly against anything that would lead to the creation of a continental Sunday. "I have been all through our State," he said, "and the sentiment of rural Republicans is bitterly against any legislation that will all but settle on Sunday. We cannot afford to antagonize the moral element."

PEQUOD CLUB'S OUTING.

DEVASTATION BY WIND AND RAIN.

Tornado Demolished Thirteen Houses in a Town in Tennessee.

INDIANAPOLIS WAS DELUGED.

Business Streets Flooded and Families Rescued with Difficulty.

A HURRICANE NEAR CHICAGO.

Passengers on a Lake Michigan Steamer Panic Stricken—Worst Storm in Years.

NASHVILLE, Tenn., Sept. 4.—A report has reached here that thirteen houses at Huntington, Carroll County, were demolished by a tornado at 2:30 o'clock this morning. One man is reported to be seriously injured. INDIANAPOLIS, Ind., Sept. 4.—As the result of a veritable deluge which set in last night and continued until this morning this city was flooded and thousands of dollars' worth of property was destroyed, besides the inconvenience of suspended street transportation. The business portion of the city was flooded because of the inability of the sewers and streets to carry the water away.

At 4 o'clock reports began coming in of great damage in various portions of the city. It was about 8 o'clock before a south side street-car could be moved, the severest part of it suffered the breaking of the piston rod on one of her cylinders. This necessitated the shutting down of the machinery, and the boat consequently drifted about at the mercy of the waves.

As the boat tossed about the passengers were almost panic-stricken, many of them expecting that with each succeeding career they were going to the bottom of Lake Michigan. Many of them seized life preservers, and those who did not take this precaution stood by their seats, ready to jump overboard in case they were launched.

CHICAGO, Sept. 4.—A very severe storm of wind, rain and lightning prevailed throughout the northern portion of Illinois and Southern Wisconsin last night. Much minor damage was done, and telegraph and telephone communication was seriously interrupted. Reports from many of the towns in Illinois, north of Bloomington, state that the storm was one of the most furious known in years. At some points it reached the proportions of a hurricane. The City of Louisville, one of the Graham line boats, heavily loaded with passengers as well as freight, met with an accident in midlake last night which delayed her nearly two hours and caused a great deal of worry in this city. The boat encountered the storm out in the lake and while weathering the severest part of it suffered the breaking of the piston rod on one of her cylinders. This necessitated the shutting down of the machinery, and the boat consequently drifted about at the mercy of the waves.

SUES A STOCK BROKER.

David Steele Causes the Arrest of Le Grand S. Cholwell.

Le Grand S. Cholwell, a stock broker of 60 Broadway, who is well known in social circles in Brooklyn, was arrested by Deputy Sheriff Waiving to-day on an order signed by Justice McCarthy, in this city, in suit brought against him by David Steele, a marine surveyor at 15 Whitehall street.

Cholwell is a member of the Consolidated Stock and Petroleum Exchange. Steele alleges he entered into an agreement with Cholwell whereby the latter purchased thirty shares of stock of the Tennessee Coal and Iron Company in May, 1892. In August, 1893, Cholwell purchased thirty additional shares of the same stock on Steele's account. The total cost of the stock was \$1,567.50.
