

BABY BROUGHT ALL HARD LUCK.

Tiny Lena Goldschader's Life Ended When It Should Have Begun.

WAS BORN ON ELLIS ISLAND.

Unwittingly Made Mrs. Poline Keep a Baby Farm.

ITS DEATH BETRAYED HER.

The Widowed Mother, Who Nursed Another Baby, Has No Money to Bury Her Own.

The story of the life of Baby Lena Goldschader is short, but it is a chronic of troubles, and her body, scarcely a span long, lies in the morgue to-day, with Potters Field as its probable destination.

To begin with, Lena's father, Leo Goldschader, died in Russia before she was born. Then her mother, tall, dark-haired, olive-skinned Pearl Goldschader, was detained three weeks at the Ellis Island Emigration Bureau while she went over to Russia for proof that she was or had been a wife, and Lena came into the world on Ellis island a month too soon. This last misfortune occurred four weeks ago to-day.

The hapless, helpless young mother was permitted to come ashore to feed America three weeks ago with her tiny baby. For days she walked up and down, seeking work, but Baby Lena was a hindrance everywhere. At last Mrs. Isaac Frank took the tiny and weak mother that she would put her baby out to board and nurse her little one she would employ her. Mrs. Goldschader found a boarding-house for little Lena and was installed as nurse to Mrs. Frank's baby, at 16 Montgomery street.

Baby Lena boarded with Mrs. Sarah Polline, in the basement of 181 Madison street, and this caused more trouble, for Baby Lena died there yesterday afternoon, and first of all, Dr. O'Hanlon, a coroner's physician, must find out whether Mrs. Polline was to blame for Lena's death.

Then, whether Mrs. Polline was to blame or not, she may have to answer to the law for boarding little Lena at all, for she has no license to keep a baby farm, and, besides the fine she received from little Lena's mother for her board, she had another baby boarder, whose mother was paying something towards eking out the expenses of Mrs. Polline's big family, consisting of a sick husband, four little children, and two bright, big girls, who earn a trifle as sewers on clothing.

And all this constitutes baby farming, a misdemeanor under section 283 of the Penal Code, and punishable by a big fine or a year in the penitentiary, or both.

So there is now in the basement at 181 Madison street, and was in the heart of the widowed mother of the dead baby, for, besides mourning her baby, dead, she has no money with which to bury the little creature, which should have been coming into the world just at this time, instead of going out of it.

Mrs. Polline is a religious woman, and she was at her devotions at the synagogue all day to-day, but her daughters, Becky and Fannie, earnestly assured an "Evening World" reporter that their mother was ignorant of the law, and that the doctor at Ellis Island told Baby Lena's mother that baby couldn't possibly live a month.

"The baby was awful good," said Miss Becky, tenderly. "It slept all the time during the two weeks it was here, and then it died. We didn't know it was sick. Do you think they will send my poor mother to prison for trying to help earn something for the family?"

The mother of the other baby boarder took her babe away this morning, and nobody knows her name or where she lives.

The police of the Madison street station are investigating the baby farm just discovered.

TWO SANE MEN CONFINED.

One for an Unsatisfactory Marriage, the Other for Drunkenness.

William H. Munday obtained from Judge Beckman in Supreme Court today a writ of habeas corpus for the production of Frank North, confined in the New York State Hospital for the Insane at Middletown. The writ is returnable Oct. 2.

Lawyer Munday in his petition alleges that North was placed in the asylum by his parents and that they will send him to prison for trying to help earn something for the family.

CHILD WIFE'S PLAINT.

Dr. A. J. Peet Accused of Returning to His Old Love.

believe prevented her adopting such a course.

Counsel for Dr. Peet said that Mrs. Peet was not the girl's child-wife as she had been represented. She had posed as a mother, while in fact, Dr. Peet met her as she was a living picture at Koster & Bial's.

ITALIANS' BIG PARADE.

Celebrating the Papal Territory's Seizure.

The twenty-fifth anniversary of the seizure of the Papal territory in Italy by force of arms was celebrated this morning with a parade by the United Italian societies of this city, representing over 100 different organizations.

The uniforms worn by the military companies presented a striking appearance. Wavy green plumes, gold lace and shiny ornamented uniforms distinguished the mounted officers, who kept continually maneuvering around the square, giving and receiving orders.

MR. DEPEW PRESIDES.

Important Meeting of Railroad Men in Session To-Day.

A meeting of railroad men is being held to-day at the office of the Truck Line Association in the Grand Building, to perfect an iron-clad agreement regulating all traffic arrangements.

Among those present are President Chauncey M. Depew, of the New York and Erie, and other prominent railroad men.

KILLED WHILE NUTTING.

Young Girl's Fatal Fall from a Tree at New Rochelle.

NEW ROCHELLE, N. Y., Sept. 20.—A number of young girls, including Edith Mosely, the thirteen-year-old daughter of Mrs. Clara Mosely, of Rockland avenue, Syosset park, went nutting early this morning.

Edith Mosely climbed a tree and stepped on a branch. The branch broke and she fell to the ground. Seeing she did not move after falling, her companions called for help.

They told their parents of the fall and Edith was sustained, and Mrs. Mosely was notified. The girl was taken to the hospital, but she died while en route.

CUT TO THE WATER'S EDGE.

Two Steamers Collide off the Entrance to the River Tze.

LONDON, Sept. 20.—The steamers Constantine and Trevellick collided to-day off the entrance to the River Tze. The Constantine was cut to the water's edge and was run ashore to prevent foundering.

MAYBE ALL HANDS ARE LOST.

Schooner Penokee Thought to Have Been Struck by a Water Spout.

MILWAUKEE, Wis., Sept. 20.—It is reported here that the schooner Penokee has gone down with all hands. The Penokee left Buffalo for Milwaukee with 50 tons of coal twenty-seven days ago. Since it left nothing has been heard of it.

COLLIDED IN THE FOG.

Steamer Sagamore, from Boston, Injured in English Waters.

MILK DEALERS UNITE.

They Act on "The Evening World's" Exposure.

A majority of the wholesale milk dealers in the city met in the office of Lawyer Ely, 31 Nassau street, this afternoon and organized a Mutual Protection Association.

The association is the result of "The Evening World's" exposure of the widespread practice of adulterating the lactated fluid that is sold in the tenement-house districts. After the investigation was started and this paper showed to what extent the greedy retail dealers went in deceiving their patrons, the authorities took up the matter and brought a number of the guilty persons to trial.

The objects of the association, as stated by Lawyer Ely, are to prevent the sale of adulterated milk in any form and to protect members and consumers against the sale or handling of impure or adulterated milk by producers, shippers, retailers, wholesalers or anybody else.

The new association pledges itself to aid the Board of Health and the courts in detecting and punishing any person who has a very religious objection to handling milk either adulterated or below the legal standard of purity.

SLAP AT THE "L" ROAD.

Judge Beckman Says the Management Unwisely Resists All Claims.

Judge Beckman today gave the Manhattan Elevated management a rather hard rap. The number of damages, cases against the company is so large that almost the entire time of three courts is taken up in disposing of them.

In the case of Douglas against the New York Elevated Railroad Company, Judge Beckman said that the company's management is unwise in resisting all claims.

BONDSMEN TO BE SUED.

Testing to Recover from Those of Former City Marshal Maber.

Application was made to Judge Pryor today in the Court of Common Pleas by George W. Almilo for permission to sue Louis Muller and Thomas Esleton, bondsmen for former City Marshal John Maber.

Almilo, on Oct. 25, 1914, secured a judgment for \$207.28 against Robert Keefe, and alleges that Maber collected \$12.28 on the execution, in addition to his fee, and that he wrongfully kept the balance.

ADMIRAL PAREJO'S FUNERAL.

Imposing Ceremonies at the Burial of the Spanish Officer.

HAVANA, Sept. 20.—The funeral of Admiral Delgado Parejo to-day was the occasion of an imposing demonstration of public sorrow and appreciation of a brave officer.

SOME DAINTY WRAPS.

O'Neill & Co. Present a Fine Variety of Their Opening.

The Fall opening at O'Neill's, Sixth avenue, from Twentieth to Twenty-first street, occurred to-day. It was a most successful occasion, and the advent of a trade resumption highly satisfactory.

13 KILLED, 60 INJURED.

Wreck of a Military Train Returning from the German Front.

NO BONDS, PERHAPS.

Gold Export Movement Said to Be on the Wane.

THE MONEY MARKET ACTIVE.

Wall Street is More Hopeful To-day than at Any Time for a Month Past.

A more liberal offering of commercial bills, together with a further decline in the rate of exchange, is regarded by operators in Wall street as an indication that the gold export movement is coming to an end, and in that event the task of another issue of Government bonds will soon cease.

Indications point to a still further decline in the exchange market, for advances in the West and South tell of the growing movement of the crops and give promise of speedy relief from the adverse trade balance.

The greater activity in the money market as a result of this movement is already beginning to manifest itself as a feature in the situation, and with an advance in rates and a further depletion of the Treasury gold reserve will be prevented without resorting to a new bond issue.

In fact, the talk in Wall street this morning is decidedly more hopeful than that at any time during the past month, and the assurances from Washington that Secretary Carlisle had positively denied that any arrangements had been made for the syndicate bankers looking towards a loan of bonds were generally accepted as a fact that the situation was improving.

So long as the Treasury gold reserve can be maintained at its present level, even though it is a few millions below the legal limit, it is considered that the business situation continues to improve. This deficiency will correct itself in the ordinary course of the week.

TO PROTECT FOREIGNERS.

British Cruisers Are Moving Up the Yang-tze-Kiang River.

LONDON, Sept. 20.—A special cablegram from Shanghai received here to-day reports that the British cruisers Aetolus, Spartan, Rainbow, Caroline and Daphne are ascending the river Yang-tze-Kiang, in consequence of information that foreigners are being threatened with violence in the interior of China.

China to Retake Possession Oct. 15.

LONDON, Sept. 20.—A special dispatch from Shanghai states that the Chinese expect to retake possession of the Liaoting Peninsula about the middle of October. The same correspondent reports that Russia has secured the purchase of a second Chinese loan of 100,000,000 taels.

Details Completed for Investigating the Missionary Riots.

WASHINGTON, D. C., Sept. 20.—Minister Denby has completed at last the arrangements for the investigation of the missionary riots at Cheng Tu, in the province of Szechuen, Western China.

He called Secretary Olney to-day that the Chinese Government had withdrawn its opposition to the Commission, and that the latter will start at once for the scene of the riots.

As the British missions suffered much in their case there was actual loss of life, our State Department sought to secure the co-operation of the British Government in making the investigation, and in a joint demand upon the Chinese Government for full reparation, just as was done in the case of the Ku Cheng investigation.

The British Government consented at first, and charged one of their consuls to represent it, but delayed sending the consul until the British would be ready to proceed on independent action.

The Chinese Government did not reply to the British ultimatum, but Denby's despatch, it has finally given its consent to the inquiry, and will send a Chinese official as a member of the Commission.

The representatives of our Government, in the person of Tien-Tsin, Commandant Francis M. Barber, United States Cavalry, and the British representative, D. Chesholm, the interpreter of the Chinese, will start at once for the scene of the riots.

INDUSTRIALS BROKE.

Around Midday There Was a Sharp Reaction.

TOBACCO DROPPED 6 POINTS.

Considerable Excitement Early in the Day and the Dealings Were Large.

There was considerable excitement at the Stock Exchange this morning, the dealings having been unusually heavy, and the fluctuations wide and frequent.

There was a sharp reaction around midday there was a sharp break in the industrial, but the reaction in the railway list was comparatively slight.

Tobacco sold at 98, a drop of 6 points from the highest. Chicago Gas fell 2-5, to 67-8, and Sugar 2-18, to 195-8. The dealings were moderately large.

The Rio Grande Western road reports for the week ended June 30 gross earnings of \$2,180,000, a gain of \$83,372 over the corresponding week of 1919. Net 1,444,448, increase 19,112, and surplus after fixed charges \$40,251, increase \$29,219.

The imports of dry goods at New York for the week were \$2,829,935 and the amount marketed \$2,922,508. For the corresponding week of 1919 the imports were \$2,782,196 and the amount marketed \$2,920,284.

The exchange is somewhat firmer at 48 1/4-1/2 for bankers' 100; 48 1/4-1/2 for sight, and 48 1/4-1/2 for 60 days.

The demand from remitters has cleared the market of the bills made against London, and the outlook for the future, and this revived the talk of gold shipments.

Money, 3 per cent. on call. Commercial silver sold at 66 1/2-3/4. The improved outlook for the markets for securities is due to the falling off in the price of gold, and the favorable outlook for the railroads. The coal companies have made important advances in the price of their securities, and the price of their securities is also rising.

Mr. Depew, in commenting upon the report that the Erie and Western trunk lines held yesterday, says: "Only routine work was done. Restored rates have been put in better shape than they have been for some time. The Erie-Superior line, which is a very large, they will make a large carrying trade."

The steamship Eurym sailing for Europe to-morrow, will take out 25,000 boxes of goods, including 15,000 boxes of goods, shipped by the following firms: J. W. Seligman & Co., 20,000 ounces of silver; Handy & Harman, 20,000 ounces of silver; and Zimmerman & Forster, 20,000 ounces of silver.

Messrs. J. P. Morgan & Co., state that they have 150,000 shares of Erie common stock out of total of 1,000,000 shares.

There was another sharp reaction in the market around midday, and the price of gold fell to 48 1/4-1/2.
