

BULLS PUT STOCKS UP. Lively Times in Market with Advance in Prices.

The local stock market was particularly active today and trading was brisk. Prices opened from 1 1/4 to 3/4 per cent higher and the struggle between the bulls and bears which followed was exciting. The figures showed a tendency to sag shortly after the opening, but soon recovered and a general upward movement began. By 11 o'clock the bulls had gained full supremacy and all of the stocks shared in the advance. The volume of business was also very heavy. American Steel & Wire, Sugar and Chicago, Milwaukee & St. Paul showed the largest gains, moving up from 3/4 to 1 1/4 per cent. American Tobacco, Metropolitan Street Railway, Atchafalpa of Baltimore and Ohio and Great Northern, advanced about 7/8 per cent each, while Rock Island, Manhattan, Pennsylvania and People's Gas gained 3/4 per cent each. The materials were the most active stocks. Railroads were not far behind them in volume of business. Fractions were not so busy, gaining 1 to 1 1/2 points. Sugar, Tobacco, the Tractions, Southern Railway preferred, Texas Pacific and Kansas & Texas preferred got up to the highest, but the general market later lagged and eventually turned downward all around. St. Louis first preferred jumped 1 and the second preferred 1/2 points without affecting the general tendency. Bonds were irregular with strong spots. Gossip over the dividend action on Tennessee Coal at today's meeting caused a buoyant rise in the stock to 5 1/2, as compared with 5 1/2, the early lowest. A reaction followed to 5 1/4. In other stocks better prices were obtained but railroads did not rise much. By 2 o'clock the market was on the down grade, heavy realizing in Sugar and People's Gas lowering them more than a point each. There was a report in the local traction stocks which carried Brooklyn Transit up to 5 1/4 on a rumor that it had been absorbed by the Pennsylvania Railroad Company. But the heaviness of the general market continued. Tennessee Coal sold down to 5 1/4 before the news was received that the directors had decided to increase the quarterly dividend at 2 per cent. The stock was at 5 1/4, and by quick successive sales the price reached 5 1/4, and then fell back with feverish fluctuations. The general market was inclined to go off. The closing was quite active and rather easy, a considerable recession from the best. The total sales of stocks today were 10,883 shares and of bonds \$1,119,000.

WHO IS THE "GENTLEMAN ROBBER?" WOMAN'S JEWELS SAVE BURGLAR.

"Gregory Carter, Gentleman Burglar," who was caught robbing a house in Mount Vernon, is an object of amazement to the police. In court today he coolly confessed that he was highly connected socially, and that while moving in wealthy and exclusive circles, went about as a common thief, using his advantages as a gentleman to plan and carry out robberies.

"My name is not Gregory Carter," he said, "but it will do in the emergency. I cannot disclose my identity, for it will involve my relatives in this scandal. I have a wife and mother, and feel sorry that they must know of my disgrace but the public shall not know who they are if I can help it. I am well connected and I do not deny that my family is wealthy." "Carter" was arrested early Sunday morning as he, with another burglar, was ransacking the Summer home of Peter Downey, on Summit avenue, Mount Vernon. His companion escaped, carrying away a quantity of jewelry and small bric-a-brac. "Carter" had none of the plunder, but was armed with two revolvers. He seemed an ordinary criminal, dressed as he was in a blue sack coat, black trousers, tennis shirt, tan shoes and black derby hat. His air, however, was not that of a tough and his speech was refined. On close inspection, too, the police noticed that...

his face was that of a man of good station, his thin black mustache being well kept, while his hands were soft and white and his nails manured. While he was being questioned, W. T. Ames, whose house adjoins that of Mr. Downey, entered the police station and told Chief Foley that burglars had entered his residence and carried away jewelry, watches and small articles valued in all at about \$10,000. White cuffs, collar and kerchief were not in keeping with her mourning veil and costume. She had evidently done this for the occasion because of the opportunity it offered to hide her identity. She appeared agitated during her conference with the lawyer. After handling him the package of valuables she entered a private coupe and was driven rapidly toward Fifth avenue. Mr. Friend admitted that the woman had spoken to him in the interest of her client, but would not say whether she was his wife or another relative. When arraigned before Judge Bennett in the City Court in Mount Vernon this morning "Carter" was unshaven and generally unkempt. He was self-possessed, though, and still boasted of his wealth and family connection. He was identified in court by Mr. and Mrs. Ames as their caller of Saturday. When his case was called Lawyer Friend waived examination and the prisoner was held in \$1,500 for the Grand Jury.

Chief Foley said he had tried in every way to learn the young man's identity and failed. "He is, I am sure, some young swell who has turned burglar," he said. "None of his friends know his real character, and he uses the advantage his station in life affords him to plan and carry out robberies. His method is to go about at fashionable resorts, visit the houses and then with his pals rob them. We will prove, I think, that he is one of the gang that has been robbing resorts in this vicinity all Summer. His visit to Mr. Ames in the guise of a purchaser for a house proves that. "When he is released on bail I will have him shadowed and soon learn who he is and about him." "I cannot tell his real name, for it would of course disgrace the family and add to their troubles."

THE PARTING. "Sunday Mrs. Hill went to Harry and took him home. He left again Monday and came to my boarding-house. Mrs. Hill followed him and again he went home. "Tuesday night I was frantic. It seemed as if I were to be robbed of the one thing in all this world I wanted—Harry Hill. "I telephoned him late that night. He said he could not come to me. I begged and he did slip away to see me. "When he called I saw that his mother had filled his mind. His own will was gone. "Alfred, dearest," he said, "I love you. But it may be best that we should keep apart for a while until I get firmly settled. "I grew cold. The thought came to me that I would rather die. At first the idea shocked me, but I listened to my heart's prompting. I decided. "I must go now," he said. "Wait! I replied, and slipped from him. I went to his medicine case in the hall and took out a bottle of tablets marked morphine. Yes, I would die. I passed him again, taking what I thought was a last look at his dear face, and went to the bathroom. "I dissolved eight of the morphine tablets in water and drank it, tasted bitter. Then I grew cold and almost fell. "I staggered back to Harry. I would die while I was happy. "I remembered no more until I saw his mother bending over me. I can never tell what she whispered to me, but it made me welcome death. "It hasn't come, I am sorry. Maybe I shall be happy yet. Anyway, I love Harry Hill and he loves me."

SHOT DOWN THE BANDIT. Express Messenger Killed Robber Who Tried to Dynamite Car.

COUNCIL BLUFFS, Ia., Oct. 4.—Lying at the morgue in this city with a bullet through his heart is a man, powerfully built, with black mustache, about six feet tall, aged apparently forty-five years. He was one of two men who held up the Kansas City passenger train on the Burlington Road, three miles south of here, at midnight. Express Messenger Charles Baxter killed him. The two men boarded the train at Union Pacific transfer and climbed over the tender just as the train was crossing Mosquito Creek bridge. Engineer Donnelly and Frank Holman, fireman, who were in charge of the engine, were ordered to slow up as soon as the train had crossed the bridge. HELD UP TRAIN CREW. While the man who was killed held a revolver on the engine crew his companion went back and cut off the baggage and mail cars, leaving the day coaches and sleepers standing on the main line. Acting under orders, the engineer pulled the train half a mile down the track, where a stop was made. Here the robbers approached the express car and ordered Messenger Baxter to open the door. He refused to do so. Engineer Donnelly was forced at the point of a pistol to attach a stick of dynamite to the side door of the car and blow it open. Messenger Baxter seized his gun and escaped from the door on the opposite side of the car. As soon as the door was opened one of the robbers entered the car while his companion marched the engineer and fireman back to the engine. KILLED ONE ROBBER. Baxter crept around in front of the engine and, seeing the robber keeping guard over the engine crew, fired one shot and killed him instantly. As soon as the shot was heard the robber in the car jumped to the ground and fled through a cornfield. The dead man was picked up, placed on board and the train was backed, but nothing was found on the body by which it could be identified. The highwayman was dressed in a neat suit of black clothes, over which overalls and jumpers had been drawn. In his pockets were found about \$15 in money and a watch and chain. Conductor William McGraw, who was in charge of the train, thinks the dead man is one George, of St. Joseph. The robber who escaped was larger and taller than the dead man, being apparently about six feet in height. Both men were masked and both wore overalls and jumpers. The door of the express car was badly shattered by the explosion of dynamite. The robber inside the car was preparing to blow open the safe at the time his companion was killed. He ceased operations at once and no damage was done to the contents of the car. Nor was anything taken. After putting on a new express car and transferring the freight, the train proceeded to Kansas City.

STRANGE LIFE STORY OF GIRL WHO TRIED TO DIE.

am a Protestant. I am not especially devout in religious views, but I was devoted in my love and I gladly offered to become a Catholic if it would remove her dissatisfaction. I would be married by a priest in her church and we would rear our children in her faith. "It did no good. She thought Harry was a little boy still and that she must arrange all his affairs of head and heart for him. "I was in despair after she left until Harry came. He said he and his mother had quarreled and he had gone from home to friends. I was sorry and glad. "Is it true that you came from Boston, as reported?" he was asked. "It is, as reported," he said. "Although the police insist that they will prove that 'Carter' was the leader of a gang of burglars who have been robbing Summer resorts, Mr. Friend declares that the Mount Vernon robberies constitute his first offense. "The young man has a wife and mother, and is a member of a wealthy family of fine standing. "I cannot tell his real name, for it would of course disgrace the family and add to their troubles."

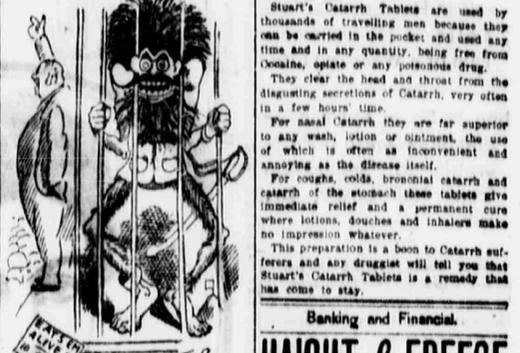

MR. HARRISON'S SUDDEN AILMENT. Benjamin Harrison, a staunch Republican and one of the ablest orators in his party, refused to speak for McKinley. Mr. Powers, whose sources of information are unusual, reports the following conversation as having occurred between Mr. Harrison and Mr. Hanna: "Come, now, Ben," says Hanna. "Speak a few words for Mack. Say something. Then the people will think you are not on to us. Put up the hammer, Ben; you're queering the game." "No," says Ben. "I can't see it. I don't like the imperial dope Mack is smoking. Besides, he is a friend of Platt. Why should you ask me to speak when you have Teddy on the stump? No, I'll not say a word. My throat is sore."

LONDON STOCKS HIGH. The London stock market was strong today on the cessation of fears regarding the monetary outlook. It was also favorably affected by the fact that the Bank of England did not advance the rate of discount. The market for American securities displayed firmness, and in sympathy with the New York upward movement developed a tendency to advance prices, showing gains of 1/2 to 1 1/2 per cent. The leading stocks were the center of attraction in this department.

FLED REBELS ONLY TO DIE. MacArthur Oables Five Americans Perished in Hills.

WASHINGTON, Oct. 4.—Gen. MacArthur cabled the War Department today as follows: "MANILA, Oct. 4.—Reports are that there died in the mountains of Laguna Province after their escape from insurgents, five Americans, these men: Hospital Steward Alexander Medlock, Edward F. Sixton, Company K, Thirty-seventh Infantry; John Bolan, Company F, Signal Corps; Oaf Sundwall, Company A, Thirtieth Infantry; and John W. Kenney." MANILA, Oct. 4.—A detachment of the Forty-fourth Regiment at Bohol Island, one of the Visayan group, has encountered a force of the enemy, killing thirty of them. One American was killed. The new Commission today appropriated \$200,000 (Mexican) for the payment of military expenses incurred by the Insular Government during September, and also donated \$100,000 (Mexican) to the widow of the loyal and efficient Filipino President of the town of Santa Cruz, who was courageously murdered by the insurgents.

IS TEDDY A WILD MAN?

Mr. Croker says Teddy Roosevelt is a wild man. Does he mean to class Teddy with Bosco, the wild man at Coney Island, or just an ordinary wild man of the woods. You know Bosco "eats 'em alive," and it costs 10 cents to see him. Mr. Croker should be more explicit. T. E. P.

ACKRON DID NOT TELL. Source of Dive-Keeper's "Pull" is Still a Secret.

The public apparently will never know where Charles E. Ackron, of Tivoli notoriety, obtained his pull. Although the District-Attorney's office promised to ask Ackron this important question on his cross-examination the dive-keeper escaped telling the stand being taken that such a question was not pertinent to the charge of grand larceny for which he is on trial. One of the jurors in the trial, John O'Brien, was half an hour late this morning. Judge Cowing was angry, but was appeased when Juror O'Brien explained that his house up in the Bronx had been crossed to the ground early this morning. Ackron's bureau-examination, which was concluded this morning, did not develop much. He admitted that he had served two terms in State prison on convictions for felonies. With tears in his eyes he said: "I was innocent of one charge." The show of emotion was for the jury, and apparently it had some effect. The case will in all probability be submitted to the jury this afternoon by Judge Cowing. If declared guilty Ackron can be sentenced to Sing Sing Prison for ten years. Mr. O'Hare this morning called as witnesses for the defense several chain-smokers who had furnished supplies to the Tivoli before the resort was opened. All testified that they had dealings with William Somers, a co-defendant, and not with Ackron. Somers, they asserted, made the purchases, while Ackron simply signed for the receipt of the goods as manager. Lawyer O'Hare summed up for Ackron, declaring that he was an employee in the Tivoli. The District-Attorney held that he was the proprietor and responsible person. The case was given to the jury shortly after noon.

RICE'S STRONG BOX. Lawyer Patrick to Be Present Today When Securities are Scheduled.

Capt. James A. Baker, of Houston, Tex., who holds letters of administration granted him in Texas on the estate of the late William A. Rice, will today visit the vaults of the New York Safe Deposit Company in company with Lawyer Albert T. Patrick and open Mr. Rice's strong box. Each will be accompanied by counsel. Neither admits the other's right to examine the dead millionaire's papers, but the inspection will be purely an act of courtesy between opposing lawyers. After the securities have been inspected, the contents will be returned and the custody of the box restored to the safe-deposit company until the will of Mr. Rice is probated or letters of administration granted to his heirs. Mr. Patrick claims to be administrator of the estate under a will of later date than that already probated by Col. Baker in Texas. He also claims to be administrator of the estate under the contents of Mr. Rice's strong box.

COULD GIVE \$10,000. The lawyer wanted this reduced, saying that it was his client's first offense. "Oh, \$1,500 is nothing," remarked "Carter." "I can give \$10,000 ball just as easy." Judge Bennett refusing to lower the bail, Mr. Friend gave notice that he would go before Justice Lent, in a higher court, and ask the reduction. Then turning to Chief Foley, who was in court, Mr. Friend asked whether it would help his client any if the plunder taken from the Ames and Downey houses was returned. Being assured that it would, Mr. Friend said: "My client has told me where the stolen property is, and if you will make an appointment to meet me in New York to-night I will return all of it." The Chief agreed, and "Carter" was taken away to the White Plains Jail on the 11 o'clock train. She handed the lawyer's package containing...
