

WINNERS AT BENNING'S.

Track Fatlock Deep and Mudlarks in Demand.

(Special to The Evening World.) RACE TRACK, BENNING'S, Dec. 4.—This was the meeziest day of the meeting so far as weather was concerned. There was a steady drizzling rain and though the air was not cold, it was chilly enough to make one uncomfortable.

The track was fatlock deep in slush and the mudlarks were eagerly dug out of the records. The card was fairly good and there were not more than a dozen horses that the sport promised to be worth looking at.

Hesmeres are preparing to go south and the express trains are working on the sidings outside of the track. The attendance to-day was fair.

Handicap, six furlongs. Starting: White, jockey, 8:10 P.M. 80 Paces. Carberry, 116, McLean, 114, 114, 48. 8:15. Goffey, 102, McLean, 112, 112, 48. 8:20. Hunsdon, 112, McLean, 112, 112, 48. 8:25. Madelon, 105, McLean, 112, 112, 48. 8:30. Star good. Won slowly. Time—1:43.5.

THREE "BIKE COPS" WILL RACE SATURDAY AT THE BIG GARDEN FOR NATIONAL HONORS

HARRIS WANTS THREE FIGHTS.

If Clubs Agree McGovern Will Fight Jordan in England.

Terry McGovern, the little flat wonder, will fight in England if his manager, Sam Harris, is successful in obtaining matches for the latter two fighters, Jimmy Dougherty and Philadelphia Jack O'Brien. If either of the two big stars across the pond agrees to Harris' terms, he will be ready to sign articles to match Terry to fight Ben Jordan.

The National Sporting Club offers a \$1,000 purse for McGovern and Jordan, who are in a \$1,000 agreement cage from newly organized club in London. Each organization promises to arrange for side bet of \$2,500 on the fight.

TROTTING SOLONS MEET.

National Association Adjuncts. Charges and Delinquencies. Members of the National Trotting Association met at 10 o'clock this morning in the Murray Hill Hotel where they will be in session for several days.

President P. P. Johnson of Lexington, Ky., acted as Chairman and W. H. Goehner of Hartford, Conn., as Secretary.

The first work of the day was taking testimony in the matter of disputed and contested races during last season, cases of entering horses out of class, the matter of fines and expulsions or suspensions from the Association of horses and their owners, and the matter of reinstatement of certain horses having been a length in front of the driver.

WINNERS AT NEW ORLEANS.

Heavy Track for Good Things at Crescent City.

(Special to The Evening World.) RACE TRACK, NEW ORLEANS, Dec. 4.—Today's races were run on a very heavy track, but the card remained almost intact.

Secretary Cox received a telegram from Washington today saying that seventy horses would be shipped to New Orleans for the first time.

Third Race—Mile and twenty yards.—Won by Frankie Strangest was second and Dan Cough third.

THE UNIFORMED PEDAL-PUSHERS WHO WILL COMPETE AT THE GARDEN'S MATCH RACE.

Hausssler, of Brooklyn, and Matlock, of Camden, Hope to Win Roundsman Scheussler's Championship Laurels from Him.

The three "bike cops" who claim to be the fastest riders of their class in the country will meet for a race in Madison Square Garden during the holiday season.

Scheussler's records have become matters of public knowledge, and are sufficient to create ambition on the part of others who wear the blue and brass astride of wheels.

It was Hausssler who set the ball rolling in this affair. The Cycle Path man expressed a desire to ride against the Camdenite, who had gotten his name into print. Scheussler came in on general principles, as the champion of his class.

For months Hausssler has been looked upon as the man of this vicinity who could make Scheussler extend himself for the bike squads of the two boroughs.

SHAMROCK II. NO FREAK.

"Like Some Other Big Boats," Says Watson, Lipton's Designer.

GLASGOW, Dec. 4.—Discussing the America's Cup challenger with a noted yacht owner, Mr. George L. Watson, designer of the Shamrock II, said today:

"There is not a bit of truth in the reports that the new boat will embody striking novelties. A cup challenger is rarely the kind of boat a designer would choose for experiments."

NEW ORLEANS ENTRIES.

(Special to The Evening World.) RACE TRACK, NEW ORLEANS, Dec. 4.—The entries and weights for tomorrow's races on this track are as follows:

SLOAN LOSES MATCH AT TRAPS BY A BIRD.

Jockey and Phil Daly Shoot a Great Duel for \$500 Bet.

(Special to The Evening World.) INTERSTATE PARK, L. I., Dec. 4.—Tod Sloan, the premier jockey, is an ardent wing shot, or he wouldn't have been here to-day.

The little rider braved the storm to take a few pots at the birds flown from traps here this afternoon, under conditions that made it barely possible to pick a bare rock out from the surrounding dizziness that made everything in his best pocket.

Sloan shot a match against Phil Daly for \$500 a side to-day.

The match was the outcome of a "joke" by Daly, who is one of the best men at the traps hereabouts.

A \$500 bet is just about Sloan's size, and he went to work with his firearm to save his money and add the wad of Phil Daly to the snug pile he already had in his vest pocket.

FRANK ERNE TO ENTER COLLEGE.

Pugilist May Take An Architectural Course At Columbia.

(Special to The Evening World.) BUFFALO, Dec. 4.—Frank Erne, the lightweight champion pugilist, returned from New York on Sunday morning, but his whereabouts was not discovered until this morning, when an Evening World reporter found him.

"I am an ex-pugilist now," said he, "for I report that I have made my last appearance in the ring, McGovern or no McGovern. I am out of it and glad to see it. I am here purely on a visit to friends and to settle a few private matters that needed my attention."

"Have you made any arrangements, as reported, with a view to entering Columbia University for the study of architecture?" asked the reporter.

"Well, that is something that I do not care to talk about. Some people are continually telling about their new ventures, and when the time comes they are missing and don't live up to their word. I don't want to say anything about my future plans in this present shape."

"Is it true that you are to study architecture?"

"I like that kind of work," was the evasive reply.

"When you were in New York did you visit Columbia?"

"I don't care to say anything about that."

"It was rumored here that you and Jim Kennedy were to get together again," said the reporter.

"Well," laughed Erne, "I visited Kennedy and talked over old times. Jim and I are very good friends, but there were no business topics discussed at our meeting."

Erne is not to admit positively now that he is going to study architecture in New York he has often said he was.

Erne has been companion in Buffalo for many years, with a degree of fame as an architect.

Erne and Jim Kennedy first suggested architecture to Erne, and the ex-pugilist has been studying in New York to-night and intends to make his home there.

HOPE FOR JOCKEY CLAWSON.

His Friends Say He Has a Good Chance for Recovery.

A friend of Jockey Dick Clawson is responsible for the statement that the popular rider is on the fair road to recovery. Some weeks ago his life was despaired of, as a result he had set in.

It was reported that he (Clawson) had been christened on Sunday because the 7-year-old was up greatly. He was to be christened Sunday on Sunday by his wife and child.

MAHER WILL GET A LICENSE.

Other Yankee Jockeys in England May Be Overlooked.

(Special to The Evening World.) LONDON, Dec. 4.—Danny Maher, the American jockey, has made a big hit with the big men of the English turf.

Other Yankee riders are unpopular with particular set, and it is fairly possible that when the season's licenses are distributed Maher will be the only one of the American jockeys recognized.

The latter, who has taken a great liking to Maher, said as much on the license question at Linfield recently. He is credited with a knowledge of what it is to transpire on the English turf, as his intimation of the execution of the American, with the exception of Maher, is believed to be a forecast of the Jockey Club's plans.

Lord Durham stated that the Jockey Club's intention to refuse to grant licenses to other American jockeys is a license would depend largely on the results of an investigation into the betting operations of the boys. Durham makes the American riders, and one reason for his animosity is that not long before his first outbreak Jockey H. Martin beat out one of his horses by a nose and his Lordship lost many thousands pounds.

The Prince of Wales, it is said, decided to let Tod Sloan go because he had been informed that Sloan would not be recognized.

KID M'COY COMING HOME.

He Will Bring Mitchell on a Challenging Tour.

LONDON, Dec. 4.—Kid McCoy intends to sail for America some time this month. He has reconsidered his determination to remain in England this winter and has practically decided to return home and embark again on the pugilistic sea and challenge every fighter worth challenging.

McCoy and Mitchell had decided to make a tour of the music halls here in England, starting with a performance in London. The tour was to be a success, but the report which reached these shores to the effect that McCoy and Corbett had faked their fight in Madison Square Garden.

McCoy doesn't like to talk about himself here and only after considerable trouble he was interviewed as follows:

"I have made up my mind to leave England and will start for America the latter part of the month. I will bring Charley Mitchell along with me. He will be my trainer if I am successful in getting on a fight in America."

"I don't know if New York will issue a challenge to fight either Corbett, Rutin, Sharkey, Fitzsimmons or Jeffries in United States."

"I will make a side bet in each fight. I see George Considine says I admitted that in England I had a hand with Corbett was a fake. Well, he lies when he says that. I did not discuss the fight with him, and I tried to get me to say something about the fight and the report that it was a fake. I refused to talk on the subject. I will claim that the fight was on the level."

SAVS DETECTIVES WERE BRUTAL.

Grierson, Co-Respondent in Fries Divorce, Makes Charges.

The divorce suit of Edward A. Fries, the wealthy Brooklyn coal dealer, against his wife, Susan, was resumed to-day in Part V, Supreme Court, Brooklyn.

George Emerson, bookkeeper, who is the co-respondent, was on the stand. Grierson denied all the allegations made by Fries, and said his relations with the wife of the plaintiff were purely platonic. He and Mrs. Fries both liked bicycle riding and frequently went out together.

As to the events of the night of July 20, the time when Fries and his detective surprised the couple in the Eastern Parkway, Grierson said the detectives punched both himself and Mrs. Fries, and that when the woman fell from the effects of a blow one of the men with Fries shouted, "Take the diamonds off her! This isn't the first woman I've struck!"

Mrs. Fries was cross-examined, but nothing beyond a general denial was elicited. Mrs. Jackson, a sister of the defendant, testified that there was nothing wrong between her sister and Grierson so far as the detective case was concerned.

Mr. Fries, resumed, said that he went with the detectives that night of July 20, when he was in very much of a hurry, had heard about his wife were true. When he saw the couple together he could not restrain himself and struck Grierson.

His wife, the plaintiff continued, attempted to get the detective with a hair. He took the pin from her, she then, he says, spat in his face and expressed her contempt for him. Finally she pleaded for Emerson.

After the hearing of Fries' testimony the case was summed up.

BANDED TO SEEK FOR LOST GIRL.

Bronx District Roused at Edith Leumer's Disappearance.

There is a mystery worrying a number of persons in the Bronx. It is the disappearance of Edith Leumer, a pretty young girl of fourteen years, who left her home at Westchester avenue and West 174th street at 8 o'clock Saturday evening last.

Edith, who is only a school girl, has never returned away from home before. When she went out she wore a bright gray cap and wigs and a Tam O'Shanter cap trimmed with fur.

Although only fourteen years old she would readily pass for several years older. She is 5 feet 5 inches in height, her complexion is olive and clear and her hair a light golden brown.

Neighbors fear that ill has befallen the girl and search parties have been out looking for her, but so far without finding the slightest trace of her whereabouts.

Her parents finally called upon the police for aid in their general search, but were sent out from Headquarters.

CZAR ABLE TO SIT UP.

His General Condition Good and Improvement Steady.

LIVADIA, Dec. 4.—The physicians of the Czar issued the following bulletin today:

"The Czar passed the last twenty-four hours very satisfactorily. Yesterday evening his temperature was 100.6 and his pulse 96. This morning his temperature was 96.6, pulse 94. His general condition is good and he is able to sit in an invalid chair at intervals during the day."
