CHLOROFORM KILLED RICE.

Doctors Corroborate Jones's Testimony of Millionaire's Death—Looks Black for Patrick—His Clerk, Meyers, Is Rearrested and Bail Increased.

Two physicians testified at the Rice hearing this afternoon that the Texas millionaire was killed by chloroform. They were Dr. Donlin and Dr. Hamilton Williams, who made the autopsy.

This evidence was so strongly corroborative of Valet Jones's statement of how he murdered the millionaire under Lawyer Patrick's orders that it was considered certain the latter would be held.

It was reported this afternoon that Morris Meyers, the clerk of Lawyer Patrick, whose rearrest was ordered by Justice Jerome, in consideration of immunity had promised to tell all about the fraudulent will in the Rice case.

After the testimony of Capt. James A. Baker, showing that Patrick had never been employed by the capitalist, Meyer was arrested and his bail raised from \$5,000 to \$10,000.

David L. Short's bail was also raised. Both men are accused of forgery in the first degree. They are witnesses of the Rice will alleged to be fraudulent.

RICE KILLED BY CHLOROFORM. Dr. Donlin Testifies that the Millionaire Died as Jones Said.

Dr. Edward Donlin, police surgeon, who was coroner's physician at the time of Rice's death and performed the autopsy on Mr. Rice's body on Sept. 25, was called.

He said the lungs were congested but the other organs were good. The heart was nearly normal and there was nothing to indicate that death was due to anything wrong with it.

FINALLY THE DOCTOR SAID IN HIS OPINION CHLOROFORM CAUSED DEATH, AND THAT MERCURY UNDOUBTEDLY WEAKENED THE MAN. "Chloroform," he said, "inflames and congests the lungs."

MAYOR SUGGESTS SHOTGUN POLICY.

Denounces the Legislature, the New Charter and What He Terms \$1,250,000 "Steal" for the Long Island Railroad.

"SOMEBODY OUGHT TO GET A SHOT GUN AND GO TO ALBANY!" Mayor Van Wyck thus delivered himself today during a continuous attack on the Legislature, which, he says, has robbed the city of \$1,250,000 for the benefit of the Long Island Railroad.

He began his attack on the Legislature and the charter in the forenoon when a committee of Brooklyn men visited him to urge the removal of the Penitentiary, when he said, "I know it is a cruel shame that the State compels us to pay this sum of money to the Long Island Railroad while we have to cut off \$500,000 for fire-houses in Brooklyn."

But it was at the meeting of the Board of Estimate that the Mayor expressed himself most emphatically.

He shouted his shotgun opinion with a mention of the Long Island Railroad matter, which seemed to displease him more than anything else.

When during a discussion of school appropriations Mr. Culer remarked that the cost of building had been doubled in Brooklyn in the last three years, the Mayor sharply retorted:

"We ought to couple with that resolution," he said, "a resolution W. H. Davis who, in return to the city \$200,000 or \$300,000 of the money which he got the Legislature to rob us of, so we could build more schools."

DEATH RATHER THAN PRISON. Noted Swede Counterfeiter Tries to Kill Himself.

It came to light today that Albert Jensen, who attempted to commit suicide by twice shooting himself in the head while being pursued by a crowd in West street, following an attempt to pass counterfeit money, is not "Albert Jensen," and is much wanted by the Government authorities in this country and Sweden.

He is, in reality, John Albert Skog, a Swede, thirty-five years old, and the son of prominent and wealthy parents in Stockholm. He early began a criminal career and is pronounced by officials of the United States Secret Service one of the most expert counterfeiters alive.

On cross-examination Dr. Donlin admitted that diseased conditions of lungs were not uncommon. If Rice had been suffering from incipient pneumonia the same condition would be found as he found at the autopsy.

Dr. Hamilton Williams, coroner's physician, next testified. He was present when Dr. Donlin made the autopsy on Rice's body. He corroborated Dr. Donlin as to the condition of the organs. He said pneumonia could have caused the congestion of the lungs.

"I CAME TO THE CONCLUSION THAT DEATH WAS CAUSED BY CONGESTION, BUT AS TO THE CAUSE, I CONSIDERED THAT IT WAS FROM AN ACID, YAPOR, EITHER CHLOROFORM OR ETHER."

MAYOR VAN WYCK.

TABLOIDS OF LATE NEWS.

Mazulesky, the Jewish comedian of the "People's Theatre Company," died this morning after undergoing an operation for throat trouble.

Within an hour two bold robbers were tried, convicted and sentenced to ten years each at hard labor in Sing Sing by Justice Newburger in General Sessions today. They were John Devaney, thirty-five years old, and William Clark, thirty years old.

Nine new cases of small-pox were reported to the Board of Health today, and the patients were immediately transferred to North Brother Island. They were J. A. Nichols, No. 210 Second avenue; Jennie Ripley, No. 398 One Hundred and Fifty-second street; Harold Meyers, No. 7 Tenth place; Lizzie Tasholtz, No. 353 East Eighty-first street; Mary Goof, No. 169 East Ninety-sixth street; Julia Lensch, No. 310 East One Hundred and Ninth street; John Greedy, No. 227 East One Hundred and First street; Daniel Moriarty, No. 1913 Lexington avenue, and Oscar Hausman, No. 414 East Fifteenth street.

Frederick Koneman, of No. 294 Tenth street, Brooklyn, has been missing since Wednesday last. His wife, who is crazed with grief, believes that he is the victim of a crime. She has vainly searched the hospitals for him and has asked the police to send out a general alarm.

Missing since Saturday night last, under circumstances so mysterious that the cleverest detective search has been baffled, the parents of little Lena Pensak fear that she has been fondly carried off. The child stepped out into the hallway of her home on the fourth floor of No. 141 Attorney street and vanished as though dissolved into air.

A hearing today in reference to Assemblyman Marshall's bill to remove the Kings County Penitentiary, a detriment to the increasing population of Brooklyn, caused the mayor to break out several times bitterly against the State Legislature. He declared that the only cause to disapprove the bill was the question of money.

"Mr. Ruggles," said the Mayor, "we don't know what we've got while the Legislature is alive."

Hatch and Weeks, counsel for Mrs. Helen Potts Hall, who claims the vast estate of the tea millionaire, George Travers Gilman, have commenced an action in Supreme Court against Theophilus Gilman and Edward L. Norton, administrators in the State of New York, of the estate, the Bridgeport Trust Company, as administrator in Connecticut, and all the heirs at law and relatives of the dead tea merchant.

Mrs. Hall claims the whole estate, real and personal, and including the 200 tea stores and groceries of the Great American Tea Company and the Atlantic and Pacific Company located in twenty different States, the whole valued at \$1,500,000.

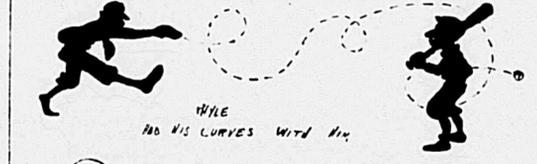

She claims that she was adopted by Gilman on or about Nov. 1, 1900, under an agreement that she should remain with him, love him, keep house for him and take care of him.

BIG BRAVES AT HEADQUARTERS ILL FROM ATTACK

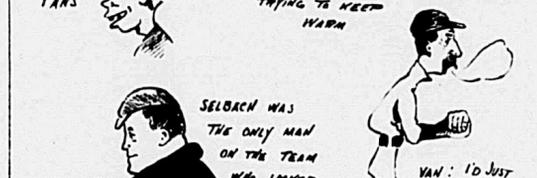

There was a large gathering of politicians at Police Headquarters today—the first since Commissioner Murphy established his office in the city.

Among the leading Tammany men present were Larry Belmont, City Chamberlain Patrick Keenan, Patrick Conner, President Haffen, of the Bronx; Councilman Frank Goodwin, Senator Henry of the Bronx; Sir John Bull, Confessionist Percy Nagle, and others. Many of the politicians went in to see Deputy Commissioner Devery and afterwards called on Murphy upstairs.

Nagle was the only man who said he was present on business. He said that he was trying to get policemen detailed to his department to prevent people from throwing things in the street on the east side.

DIVORCE FOR KALTENBORN

Quartet Organizer Gets an Absolute Decree from Clever Wife.

A decree of absolute divorce has been granted to Franz P. Kaltenborn, organizer of the Kaltenborn Quartet, from his wife, Louise Kaltenborn, the accomplished musician.

The decree was granted by Judge Keogh, in Supreme Court, White Plains, and is dated March 30. Its issuance has been kept a secret by both sides, and only became known today when the papers reached Brooklyn.

Kaltenborn is given the right to marry at will, but his privilege is denied the divorced wife.

The first public intimation of trouble between the Kaltenborns came on Jan. 14 last, when the quartet disbanded. Mrs. Kaltenborn then accused her husband of "professional jealousy," and charged that he had deserted her, taking with him a \$5000—divorces belonging to her father.

The last airing of the couple's domestic troubles was on Feb. 5, on the night of that date Kaltenborn, with a friend, broke into Mrs. Kaltenborn's room in the Bingham House, Philadelphia, and claimed to have found his wife there with "Fred Engle," a member of the quartet.
