THE NATIONAL UNIVERSITY PLAN.

DETAILS OF THE GREAT PROJECT IN WASHINGTON.

Mr. Carnegie Will Furnish the Endowment—To Be a Private Institution.

WASHINGTON, Dec. 9.—Carroll D. Wright, Commissioner of the United States Department of Labor, today made the following statement as to Mr. Carnegie's endowment of a national university at Washington:

"The general discussion which has been carried on during the last twenty-five years in relation to the establishment of a national university at Washington has culminated in a magnificent plan and endowment by Mr. Andrew Carnegie. The plan was in brief, as follows:

"1. Organization: A private foundation independent of Government support or control.

"2. Objects: (a) To facilitate the use of the scientific and other resources of the Government for research.

"(b)—To co-operate with universities, colleges and individuals in securing to properly qualified persons opportunities for advanced study and research.

"(c)—To establish a national university, devoted to research and the training of capable persons, more in accord with his conception than the establishment of a university that would be a rival of the already existing universities of the country.

"It is probable that the Washington Memorial Institution will sustain the operations for a university, and that Mr. Carnegie's plan will only embrace all the proposed activities of the institution, our own far beyond these.
