"INSPECTING" THE TUNNEL.

The time for the State Railroad Commissioners to "inspect" the tunnel is not on a clear Sunday, when the traffic is light and smoke and steam reduced to a minimum...

There is a time for all things, but in the present state of public opinion about the disaster the season is not opportune for the Commission to content itself with a superficial and perfunctory inspection...

It is in a crisis like that which now confronts the Central that a railroad reaps some of the fruits of the "favors" done to legislators and State officials in the past...

"Make the Filipinos want peace, and want it badly." It is not the order of a Roman pro-consul about to devastate a rebellious province...

AN INSANE PROJECT.

The glad tidings ring forth from Owaneco, Ill., that a monthly magazine is to see the light edited by lunatics for lunatics...

It is at first rather difficult to realize who will escape being either an editor, a contributor or a reader of this enterprising periodical.

How bitter must be the disappointment of any man of imagination that this monthly was not inaugurated some thousands of years earlier!

Every great warrior, from Philip, who perfected the Macedonian phalanx, down to Buller, who imperfed the frontal attack...

A RULE THAT WORKS ONLY ONE WAY. After Senator Raines had presented in the Legislature yesterday the petition of the Methodist Episcopal Church...

It was a neat bit of irony. Are we too urgently concerned with our own business here that we pay no attention to the spiritual and material needs of our brothers in Savannah?

Mayor Levy calls attention to the fact that "the schools exist primarily for the children." It is a fact you can never persuade the pedagogical theorist of.

THE PRICE OF A DANCE.

There has in the last year or two been a distinct tendency in the cotillions of New York's aristocracy of fashion to give favors which have ceased to be pretty souvenirs and have gradually become valuable presents.

At some recent balls the guests have been debonairly handing one another jewelry and furs as the price of a dance.

A well-brought-up debutante does not nowadays venture to ask a young blood to execute a two-step with her for less than a set of pearl shirt-studs.

This is no doubt delightful to the jewellers and furriers who supply these trifles. But where is it going to end?

Next year there will still be left diamond tiaras for the women and racing automobiles for the men.

Either some new form of polite spurge will have to be invented or cotillions will become as extinct as the dodo.

What is good for pimples? I have been suffering with the itching long enough, and I cannot stand it any longer. I have tried all over me. It is the same with my dry lips and blackheads. MISS EMMA.

I think you undoubtedly need constitutional treatment. Until you get a physician, who alone is competent to prescribe, you might use a temporary relief in the following use of the following wash: For itching of the skin—Carbolic acid, one-half dram, distilled witch hazel, one pint. Bathe the affected parts.

PHOTO OF PRIEST AND ACTRESS.

THE REV. FORBES PHILLIPS AND MRS. JAMES BROWN POTTER.

This picture is probably the first of its sort ever taken. It represents the two extremes—worldliness, Godliness, the stage, the church. The photograph was posed by the Rev. Forbes Phillips, of the Church of England, and by Mrs. James Brown Potter, the celebrated actress.

The photograph was taken while the priest and the actress were consulting as to certain poems of Tennyson which Mrs. Potter was to read at the New Year's service in Father Phillips's church at Gorseham.
