

WARRING FACTIONS IN \$100,000,000 COMPANY GIVE LIFE TO MARKET IN SCRAMBLE FOR STOCK OF THE CONCERN.

Warring Factions in \$100,000,000 Company Give Life to Market in Scramble for Stock of the Concern.

WHEAT A CARD FOR BULLS.

Bears Not in Evidence, but Trading Shows Little or No Change for the Better, Favored Issues Making and Losing Fractional Gains.

Under vigorous competitive buying by the warring factions in the \$100,000,000 Colorado Fuel and Iron Company that stock was to-day made the active feature of an otherwise colorless market.

The arrival from the West of President John C. Osgood and his statement that George Gould and Edwin Hawley were now interested led the Gates-Mitchell-Blair crowd to start an active movement which spurred the other side to retaliatory measures.

Except for the brief contest between these factions, there was no relief from the prevailing apathy.

Professional traders had full control of the situation, but apparently were too timid to attempt any pronounced movement either for higher or lower prices.

The official Sub-Treasury statement of operations within the banks for the week up to the close of business on Thursday shows a gain in cash by the banks of \$18,828,000.

The banks lost to the interior \$1,021,200, thus leaving their apparent gains from all sources \$18,806,800. In addition the Sub-Treasury was debtor at the Clearing-House this noon \$1,008,885.

Two of the largest banks in the financial district to-day loaned in the open market \$1,000,000.

This broke the call rate from 5 percent to 4-1/2 percent, and later to 4 percent.

Gains Not Important.

After a distinctly quiet and irregular opening the market dropped into a listless state. There were less than 200,000 shares traded in up to noon. A few stocks advanced fractionally. A larger number receded fractionally.

Reading and the other coal stocks were higher at the opening, but were dull and quiet most of the session.

Baltimore and Ohio, Clover Leaf, Atchafalaya, St. Paul, Union Pacific and Missouri Pacific showed gains, but they were not important enough to indicate any solid movement.

In the industrial list the majority of issues barely held their own, and were not in demand by either speculators or investors.

The most striking feature of the market was the absence of any pronounced bear party. The opinion was general that the next decided movement of the market will be upward, and the bears got out of the field early.

London's trading aggregated 20,000 shares, of which about 10,000 were sold, but it had no particular effect upon the market.

The foreign exchange market was weak and lower, and there was not demand enough to clear the supply of bills.

Wheat a Bull Card.

Wheat exports for the week furnished the strongest bull card of the day. They aggregated 4,321,134 bushels, against 4,321,134 last year.

This week's reports are the largest in fourteen months. For the largest they are only 14,000 bushels behind last year's reports.

The exchange experts say that broken present export rate is long maintained, there will be no change in the rate for months, as the exports will largely settle New York's indebtedness to Europe.

LONDON MARKET HEAVY.

American Securities Dull and Inclined to Weakness.

The London market to-day was dull and generally heavy. The trading contingent is discouraged over predictions of dearer money and reports that heavy blocks of consols and other gilt-edged investment issues will have to be carried over.

Trading in the department for American railway securities was on a very limited scale and the whole list was inclined to weakness.

Chicago's opening prices were: Wheat—May 74 1/2 to 74 5/8; December, 72 1/2 to 72 3/4; Corn—May 43 7/8 to 44 1/8; December, 41 1/2 to 41 3/4.

New York's opening prices were: Wheat—May 74 1/2 to 74 5/8; December, 72 1/2 to 72 3/4; Corn—May 43 7/8 to 44 1/8; December, 41 1/2 to 41 3/4.

OSGOOD WERE TO DEFEAT GATES.

Colorado Fuel and Iron President Gains Support of Gould and Hawley in Holding Control of the Company.

MORGAN IS IN THE FIGHT.

Billion-Dollar Steel Trust Wants to Get the Concern, but the Outfit Declared Not Bright—Rivals Seek to Share Freight Traffic.

John C. Osgood, President of the Colorado Fuel and Iron Company and leader of the fight to prevent John W. Gates getting control of the \$100,000,000 concern, has arrived from the West to arrange for the annual meeting of the concern.

This will be held in Denver, Dec. 10, under the order of the United States Court. At this meeting it will be decided whether the Gates group or the Osgood faction controls.

President Osgood said to-day that proxies for the stockholders' meeting will be sent out to shareholders in a few days.

He also confirmed the story that George Gould and Edwin Hawley—owners of rival railroads in Colorado—had acquired large holdings in the company since the Gates-Mitchell-Blair crowd journeyed to Denver as assured conquerors—and came back without the spoils of victory.

President Osgood's confirmation of the Gould-Hawley story would indicate that the Gates people will find it harder than ever to carry through their plan of ousting the present management and turning the company over to the Billion-Dollar Steel Trust.

Gould and Hawley, representing respectively the interests of the Denver and Rio Grande and the Colorado Southern, want the Fuel Company to remain an independent corporation.

In the event of its being taken over by the Steel Trust, all its immense freight traffic would be turned over to the Burlington, one of the three links in the Morgan-Hill \$100,000,000 Northern Securities Company.

HILDA CLARK QUILTS STAGE TO WED RICH YOUNG BROKER

Hilda Clark, the prima donna, is soon to become the bride of Anson Flower, the son of the late Gov. Flower. The marriage will probably take place at N. Y. Miss Clark was a guest there last Wednesday at the wedding of Anson Robinson, Mr. Flower's nephew, and Miss Marguerite Williams.

Hilda Clark, the prima donna, is soon to become the bride of Anson Flower, the son of the late Gov. Flower. The marriage will probably take place at N. Y. Miss Clark was a guest there last Wednesday at the wedding of Anson Robinson, Mr. Flower's nephew, and Miss Marguerite Williams.

It has been known for some time in Watertown that Mr. Flower was devoted to Miss Clark and the announcement of their engagement has caused no surprise. A date for the wedding has not been set, but the invitations are expected at any time.

Miss Clark was forced to retire from the stage nearly a year ago by a broken knee, but she struggled along in her home on Riverside Drive, which was the gift of her mother and which cost \$125,000.

Her mother is Mrs. Lydia Clark, wife of M. E. Clark, a wealthy banker of Leavenworth, Kan., whose business was managed for him for several years because of ill-health. The wife, after purchasing the home for her daughter, came here to live, leaving her husband in the West.

Miss Clark is of distinguished descent, and her daughter, Hilda, in addition to being an operatic star, was made virandera of the firm of S. Infantry during the war with Spain. She is still the pride and pet of the regiment. Her first successes were in "The Serenade," "The Bride-Elect" and "The Highwayman."

BAKERS LOOK FOR STATEMENT.

Returns from Bond Sale Should Show Favorably in Week's Clearing-House Figures.

To-morrow's bank statement leading Wall street bankers said to-day must reflect in a favorable way the big payments made this week by the United States Treasury for the bond sale.

Over \$25,000,000 have been taken from Government coffers this week and put into public channels.

Since Friday the banks have gained from Sub-Treasury \$19,228,000 and returns from the bond sale have not all been made yet.

This was the statement day on the Stock Exchange, and yet money on call opened at 1/2 per cent, and for the greater part of the day was around that figure.

Many heavy loans were shifted. It was reported and provision for the Western Maryland payment of \$15,000,000 was made.

Fears of gold exports within any near period have practically been dissipated now, and there is a fair prospect of easy rates and enough money to accommodate the demands of speculation for some time to come.

Demands of the interior for crop money have eased so perceptibly that experts predict the return current will set in before Nov. 15.

C. M. SCHWAB BUYS SKIDMORE ESTATE.

Steel Trust Magnate Heads a Syndicate to Start Colony of Wealth on Long Island.

GREAT NECK, L. I., Oct. 24.—The estate of the late Mr. C. M. Schwab, who had been sold at \$5,000 per acre to a Manhattan syndicate, headed by Charles M. Schwab, President of the Steel Trust. The property contains half a mile of water front and the sale is the highest price in real estate transactions in this section.

It is said to be the purpose of the syndicate to build up a colony of the available property in this section with the intention of building up an aristocratic colony. As yet, the land is acquired it will be sold in large sections to men of wealth only.

Children Dedicate Canal.

SACIT STE MARIE, Mich., Oct. 21.—Today's festivities in honor of the opening of the new power canal at this point are given over to the children.

Water will be turned into the new canal and the wheels at the power house will revolve for the first time. The first power generated will be used to run one of the new street-cars.

OVERLOOKED.

There Are Patent Medicines and Remedies Without Number.

For Every Disease and Affliction But One.

A prominent physician was recently asked why it was that there are so many "blood purifiers," "nerve tonics" and remedies for every ill, except one: piles. He replied, there are two principal reasons. First, physicians and people in general have thought that the only permanent cure for piles was a surgical operation, that medicinal preparations were simply palliative. Another reason is that piles in its no sense of the word an imaginary disease; the sufferer from piles is very much aware of the fact, and for this reason, the few so-called pile salves, ointments, etc., have short-lived. The patient very soon discovers their inefficiency.

He says, further, fortunately, however, this is a new remedy for piles, which, judging from its rapidly growing popularity, will soon take the place of all other treatments. It has certainly made astonishing cures in the most obstinate cases, and its merit is made it famous among physicians and wherever it has been introduced. This remedy is sold by all druggists under the name of Pyramid Pile Cure.

From the immediate relief which the Pyramid Pile Cure gives in all forms of piles, many physicians supposed its continued operation, except in similar cases, should be discontinued. It was found to be perfectly free from anything of the kind, and that the instant relief and cure which follows its use is rather the result of its remarkable healing, soothing action on the parts affected.

The local cotton market opened steadily with congestion in the early part of the day and irregular, with the room sentiment mixed to an unusual degree. The weather map showed fine weather in the cotton section, but this was offset by light receipts. Following the call the market kept close to the final bids of last night, with trade moderately active in London. R. M. were: October, 8.25 bid; November, 8.35 to 8.45; December, 8.45 to 8.55; January, 8.55 to 8.65; March, 8.35 to 8.45; April, 8.35 to 8.45; May, 8.35 to 8.45; June, 8.35 to 8.45; July, 8.35 to 8.45; August, 8.35 to 8.45; September, 8.35 to 8.45; October, 8.35 to 8.45; November, 8.35 to 8.45; December, 8.35 to 8.45; January, 8.35 to 8.45; February, 8.35 to 8.45; March, 8.35 to 8.45; April, 8.35 to 8.45; May, 8.35 to 8.45; June, 8.35 to 8.45; July, 8.35 to 8.45; August, 8.35 to 8.45; September, 8.35 to 8.45; October, 8.35 to 8.45; November, 8.35 to 8.45; December, 8.35 to 8.45; January, 8.35 to 8.45; February, 8.35 to 8.45; March, 8.35 to 8.45; April, 8.35 to 8.45; May, 8.35 to 8.45; June, 8.35 to 8.45; July, 8.35 to 8.45; August, 8.35 to 8.45; September, 8.35 to 8.45; October, 8.35 to 8.45; November, 8.35 to 8.45; December, 8.35 to 8.45; January, 8.35 to 8.45; February, 8.35 to 8.45; March, 8.35 to 8.45; April, 8.35 to 8.45; May, 8.35 to 8.45; June, 8.35 to 8.45; July, 8.35 to 8.45; August, 8.35 to 8.45; September, 8.35 to 8.45; October, 8.35 to 8.45; November, 8.35 to 8.45; December, 8.35 to 8.45; January, 8.35 to 8.45; February, 8.35 to 8.45; March, 8.35 to 8.45; April, 8.35 to 8.45; May, 8.35 to 8.45; June, 8.35 to 8.45; July, 8.35 to 8.45;
