Wabash and Missouri Pacific Find Favor in Improved Dealings on Statements of Big Good Earnings.

LACK OF VIGOR IN STEEL.

The stock market started in uneventfully today. Prices opened about where they left off and at first evinced a sagging tendency, but recovery followed soon and the market took on a tone of decided firmness.

It appeared from the very beginning that the expected unfavorable bank statement had been discounted in the small share price yesterday and that there was nothing more to fear on that account.

Steel Trust stocks displayed a lack of vigor, especially common, but hardened later. The more the New Jersey decision is studied the less bullish it seems.

The traders have settled down in patience to await the pleasure of the Rock Island and Union Pacific people in giving out their statements.

Wabash continued the market leader, although the best prices were not maintained in the Gould issues.

His Resignation From Presidency of Western Maryland Road No Indicative of Break.

The retirement of Winnow S. Pierce from the Presidency of the Western Maryland Railroad has given rise to a rumor in poorly informed quarters that he had split with George J. Gould.

Mr. Pierce was an important factor in the organization of the Rock Island, figuring prominently in the settlement of the Government claims against the road.

Gates or some other member of the combination.
