

POPE STRENGTHENED BY SLUMBER.

Falls Into a Quiet Sleep After Luncheon To-Day, and His Rest Is So Calm that Fears Are Entertained He May Lapse Into Coma.

WHEN HE AWAKES HE ASKS FOR VOLPINI.

News of the Tragical Death of the Cardinal Is Kept from Him—General Condition Unchanged, and Dr. Mazoni Says His Kidneys Are Not Inflamed.

ROME, July 11—7 P. M.—The following bulletin has just been issued: "After a rather quiet day the patient's condition is generally easier. The thorax was again examined. There was no increase of liquid in the upper portion of the thorax, to give indications of pleuritic irritation. The pulse was stronger and fuller, at 86; respiration, 28, and temperature 36.9 centigrade. His mental condition was brighter.

(Signed), "ROSSONI, "MAZZONI, "LAPPONI."

ROME, July 11—4 P. M.—The Pope has just awakened from the sleep into which he fell shortly after luncheon at noon. His rest was so peaceful and free from interruption that those around him believed for a time he might lapse into coma and peacefully pass away.

When he awoke this feeling was dispelled. He was not feeling quite so bright as this morning. The doctors are now arriving at the Vatican for an early visit.

In order to take into account the convenience of all concerned, including the Pope, unless new symptoms are discovered, the doctors are not likely to return to the Vatican to-night.

Later in the day the Pope received the Countess Canali and the Countess Moroni, his nieces, and after a short chat with them asked about Mr. Volpini, saying: "What is the matter? Why does he not come to see me?"

Cardinal's Death Concealed. It was explained to the Pontiff that the excitement of the last few days had overcome M. Volpini, who was quite unwell. But the Pope was not informed that Mr. Volpini was dead.

A rumor is now in circulation to the effect that the Pope is suffering from inflammation of the kidneys.

Dr. Mazoni took occasion later to emphatically deny that the Pope is suffering from any such trouble.

The British Government has been obliged to forego its custom, dating back many years, of holding no diplomatic intercourse with the Vatican. Today the Government cabled direct to Cardinal Rampolla, Secretary of State, saying a cable message had been received from the Government of New Zealand, inquiring about the Pope's health and requiring an answer in order to transmit it to Premier Seddon.

Considerable significance was attached at the Vatican to this incident.

Last night the Pope enjoyed considerable periods of repose. Dr. Lapponi remained near the sick-room throughout the night. There was little occasion for his services.

When Dr. Mazoni joined him in the sick-room at 8:30 o'clock this morning they found that the patient had not suffered any serious depression in the night, although the same terrible weakness was still manifest.

The usual bulletin was issued at 9 o'clock and it stated that the conditions in the sick-room were practically unchanged, the pulse, temperature and respiration being almost identical with those maintained yesterday. The most cheering feature of the bulletin was the silence concerning any immediate aggravation of the pleuritic conditions.

An affecting interview has occurred between the Pontiff, Cardinal Satolli and three other Cardinals representing various degrees of the Sacred College. Cardinal Satolli and his companions were admitted to the presence of the Pope as a special favor, following his earnest entreaties. In the gentlest manner Cardinal Macchi, speaking for all, told the Pontiff of the universal interest taken in his condition, adding: "Prayers are going up everywhere that the Lord may preserve for the benefit of the church the precious life of Your Holiness."

Submission to God's Will. "I thank Your Eminence," replied the Pope. "It will be as God wishes. We must submit humbly to His holy will." So saying, the sufferer pressed the hand of each of the Cardinals as they withdrew.

One of the Cardinals present at the interview spoke afterward of the remarkable change that had been wrought since his last had seen the Pontiff, only last Sunday night, when seriousunction was administered to His Holiness. The Cardinal said: "The appearance of the Holy Father is intensely painful. He maintains his mental acumen, but his brave spirit is terribly broken. This was especially apparent to me, who am used to seeing him often. I have observed a great change in his physical condition during the last few days. His words are now uttered with difficulty and he raises his voice only after an effort. His face is now a ghastly emaciated and his eyes are only a shadow of the man."

Dr. Lapponi said to-day that the Pope was worse than he was a week ago and he would not be surprised if he passes into another week.

BEARS STILL HAMMER THE BEST STOCKS

Attack on New York Central Goes On and Price of the Railroad Issue Sinks to a New Low Record, While Pennsylvania Falls to Bottom Level.

WALL STREET URGES SOME UGLY STORIES.

Report that a Prominent House Is in Trouble Is Discredited—St. Paul One of Big Losers, with Lackawanna, Missouri Pacific, Frisco and Atchison.

Stocks were hammered to new low records in a week market today. New York Central and Pennsylvania were prominent among the heavy losers. The bears resumed their attack on values at the opening and continued a lively campaign until the close, they being materially aided by the poor bank statement. There was a decline of from 1 1/2 to 4 1/2 points among the more active leaders, while the average loss to the list generally was from 1 to 2.

Various disquieting reports were circulated in regard to large loans having been closed out. This meant that the collateral which had been put up against them had been thrown over for what it would bring. One story had it that a loan of \$5,000,000, which had been made against United States Steel shares as security, had been called. Several prominent individuals were mentioned in connection with this alleged loan. Another report asserted that the New York Central would offer its \$17,500,000 new treasury stock to shareholders at 110. This, however, was denied, it being asserted that no action whatever will be taken by the New York Central until autumn. It was rather generally assumed, however, that the Lake Shore Company is preparing to float a large block of new bonds soon in order to take up its temporary loan which it made for the purchase of Reading stock.

Wall street still holds to the theory that the New York Central is to negotiate a loan at high interest, and although vigorous denials are made by the company the stock weakened materially today and lost 4 1/2 points, selling at 114 3/4, a new low record. The slump in this stock is a mystery, while the denials of the loan story are considered.

The Street was full of bad rumors, most of them groundless. One was to the effect that a prominent house was in trouble. This latter was discredited.

Pennsylvania was weak under the bear pressure and dropped to 121 5/8, new bottom figure, while St. Paul was at the lowest in the present movement, being quoted at 111 1/2. Its loss on the day was 2 3/8.

There was a rally in the final dealings, which, however, failed to hold, the market closing active and weak and near the lowest, Lackawanna dropping 6 points. St. Louis & San Francisco second preferred was off 2 1/4. Missouri Pacific lost 1 3/8 and Western the same percent. Canadian Pacific closed 17 3/8 under and Amalgamated Copper and Rock Island preferred likewise. The steel issues were fractionally under, with declines of 1/2 to 3/4 per cent. was down in the Erie stocks.

Atchison, American Smelting & Refining, Louisville & Nashville and Southern Pacific each lost 1 point. The local fractions suffered losses of 5/8 to 1 1/8 per cent. Baltimore was down 1 1/4 and Norfolk & Western the same. Reading and Rock Island were each off 7/8 per cent. Union Pacific lost 1 1/4 and Wabash preferred 1 3/8 per cent. Illinois Central, Colorado Fuel, Chesapeake & Ohio, Chicago Great Western, Illinois & Western, People's Gas and Texas Pacific fell off 1/4 to 3/4.

The total sales of stocks were 331,000 shares and of bonds \$1,006,000.

COTTON TRADERS SIDE WITH BEARS

Bulls Fight to Turn Prices Upward After a General Sag on Weaker Cables and Good Weather and Crop Reports.

Cotton traders were inclined to side with the bears to-day, the cables being weak and weaker and crop reports good. Prices opened off with August down 2 1/2 points, while September showed a loss of 3/4. October 7 and the far months from 3 to 7. July was unchanged.

While prices were sagging, however, the bulls started buying and swung prices up to 10 1/2, October, 9 3/8 to 9 1/2, November, 9 5/8 to 9 3/4, December, 9 5/8 to 9 3/4, January, 9 3/8 to 9 1/4, February, 9 5/8 to 9 3/4, March, 9 3/8 to 9 1/4. The market closed quiet and steady.

POOR SHOWING IN THE BANK STATEMENT

Clearing-House Figures Quite What Wall Street Pessimists Had Predicted.

Wall street expected a poor bank statement to-day, and the weekly figures issued at the Clearing-House were quite what the pessimists had predicted.

There were decreases in the reserves and loans, and it was generally accepted that even with the disappointing showing the losses by gold shipments were not included in the report.

Traders Nervous Over Americans but Prices Closed Steady.

LONDON, July 11.—With the conclusion of the settlement of the demand for money in the market slackened to-day, uncertainty was felt regarding the future, while discounts were firm.

Business on the Stock Exchange was dull and the attendance small. The trading chiefly centered in Home Rails, which were fairly maintained. Consols were weaker. In some quarters this was attributed to fears of a rupture between Russia and Japan, which, however, were not seriously entertained in the best informed circles.

Americans opened dull, in response to New York. There was some nervousness regarding Wall street's position, but prices closed steady. Japanese were very depressed, and Russians and Chinese were dull.

Week's Failures Fewer. Bradstreet's reports 184 failures in the United States during the week, against 163 for the previous week and 180, 221 and 174 for the corresponding weeks of 1902 to 1900.

HOW DOES SHE DO IT?

GRAZED BY HEAT HE KILLED HIMSELF. (Special to The Evening World.) GREENWICH, Conn., July 11.—William June, thirty years old, driven crazy by the heat, today committed suicide at his home at North Cos Cob by riding his body with shot. June sat on his bed, pointed the muzzle of a gun at his heart and pulled the trigger with his body. Part of the shot went clear through his body. June worked hard yesterday in the sun digging clams, and at night appeared

PARCLED THROATS APPROVE OF THIS

New Summer Drink Makes Its Appearance Which Is Warrented to Cool Thirsty Wayfarers These Sweltering Days

CLUB PUNCH IS NAME OF IT.

Then for Those Who Disapprove of Alcoholic Beverages There is a Delicious Substitute for Claret Punch Made from Raspberries.

The new drink for the summer is here, and strange to say no soubrette, leading lady or actor has claimed the drink, and it has fastened to it no other name than that of a club punch. The maker of it is a big, fat, white-coated bartender who seems to give it a name other than a club punch and who will fight the first time he hears any one call for it by any other name. It is a plain drink, calculated to cool, and can be prepared in nearly any barroom without the barkeep turning around a dozen times to make it. For that reason it is likely to be popular with the men who mix drinks.

Three of its drinks are sufficient. They will keep the blood circulating, the greater part of the day, keep up the action of the heart and do all that is required of the summer drink without making the man who drinks want to fight if any one steps on his toe or if he gets out of the crowded open air.

The recipe as written out by the inventor, who does not claim to be the originator of the combination, is as follows: A tumbler of cracked ice, a jigger of Bourbon whiskey, a dash of Santa Cruz rum, sugar, and lemon juice, shake well until the shaker appears to be properly cold, then strain into a glass and fill with carbonic; or do not strain, use carbonic and serve with a straw.

The Hourbon whiskey, the mixer says, he has discovered after thirty years is not so heating as the rye. The rum, he says, cuts and flavors the whole, and this flavor is heightened by the sugar and the lemon juice.

The new drink, he says, is taking the place of the drinks made up with fruit juice like orange juice when served. The straight whiskey drinker and the drinker of whiskey sours take to it like a duck to water. Suggestions of improving it with the lime instead of the lemon do not meet with the favor of the inventor, who says he made it to please a few customers and now that it has caught on in the club any outside bartender is welcome to it.

"But don't call it after a soubrette," says the inventor.

For those who, whether for conscientious reasons or because it is condemned by physicians during hot weather, do not partake of anything containing alcohol, the following delicious non-alcoholic mixture is recommended: Set a box of raspberries in a bowl on the ice, and add a few drops of lemon juice, a spoonful of granulated sugar. When the juice runs, add a few drops of lemon juice, through a fine sieve or a piece of coarse cheese cloth. Add the juice of three oranges and a few drops of lemon juice. Strain through a fine sieve. Put the mixture in a glass and add a good sized piece of ice. Pour over it two quarts of water or the same quantity of club soda.

Another good fruit drink is made from oranges and lemons in equal quantities, with a little sugar and a dash of lemon juice. The pulp, carefully separated from the pits and the seeds, is added to the water, and the whole passing through a fine sieve. Three glasses of water or soda are added to the juice.

FISHERMAN FINDS MAN'S BODY IN WATER. Had Evidently Been There Only a Few Hours, Was Well Dressed and Bore Address.

George A. Carman, of Stillwell lane, Brooklyn, while fishing off Roney Shoal this afternoon, found the body of a white dressed man, which floated to the surface near his boat.

The man was about five feet eight inches tall and about 150 pounds in weight. He was about fifty years old. The body was clean and in blue serge suit of fine quality.

In a pocket was found a paper with "Mrs. Parker, No. 675 East One Hundred and Forty-second street," written on it. There was also a laundry ticket dated July 10, and a pocket watch which had the initials "L.B." worked on it in silk.

The body had evidently been in the water only a few hours. It was taken to the Brooklyn morgue.

When an Evening World reporter called at the address, No. 675 East One Hundred and Forty-second street, no one was at home. Parker's neighbors said that he had gone to Coney Island, and that his wife had gone visiting.

The description of the drowned man, a tenant of the flat said, agreed with that of Mr. Parker.

HELD FOR HUSBAND'S DEATH Mrs. Beatty Accused of Firing Shots That Killed Him.

Mrs. Beatty, of Bordentown, who is charged with shooting and causing the death of her husband, Samuel J. Beatty, last Monday afternoon, the prisoner seemed much distressed when she faced the justice who read to her the charge of murder, made on complaint of James Mullen, which alleges that on July 8 she shot her husband, who was a tenant of the flat, with a .38-caliber revolver.

Beatty, who was a tenant of the flat, was shot dead by Mrs. Beatty while he was at the house when the crime was committed. He was a tenant of the flat, and was shot dead by Mrs. Beatty while he was at the house when the crime was committed.

TROOPS IN CHASE OF JAIL-BREAKERS

Mutiny Leader Who Figured in Sensational Delivery in Leavenworth, Beats Sheriff and Escapes with Three Others.

TWO FUGITIVES TAKEN.

Desperado, Who is Under Murder Charge, Still Free and Expected to Make a Hard Fight if Cornered.—Wounded Official Leads Pursuit.

JUNCTION CITY, Kan., July 11.—Gilbert Mullin, the Federal prisoner who led the mutiny at the Fort Leavenworth prison in November, 1901, and who has been in the county here for the past year awaiting trial on the charge of having murdered a guard in the mutiny, led an assault on Sheriff Peeso early today, and, with a white man and two negroes, escaped.

The sheriff was overpowered and badly cut about the head, but he succeeded in closing the cell door closed before all five prisoners could get out.

The quartet ran through the eastern part of the town toward the river, and compelling a fisherman to row the boat to the other side, made for the thick timber.

The sheriff followed in a buggy, and possees were quickly organized and joined in the chase.

Later soldiers were sent over from Fort Riley to assist in the hunt. Shortly before noon two of the negroes were captured and returned to jail. Sheriff Peeso, although badly injured, is still leading the search. Mullin, who is a negro, is a desperate man, and it is expected he will put up a hard fight.

In the Fort Leavenworth outbreak twenty-six prisoners escaped. Mullin and nearly all the others finally being captured after a desperate fight. In which Guard J. B. Waldrup and several of the convicts were killed.

MORE PHILIPPINE GOLD CERTIFICATES.

Additional Issue of \$3,000,000 Authorized to Maintain the Parity in New Coinage.

WASHINGTON, July 11.—The Bureau of Insular Affairs of the War Department has announced an additional issue of \$3,000,000 4 per cent. temporary gold certificates for deposits in the Philippines, which will make a total issue of \$6,000,000.

The announced purpose of the new issue is to maintain the parity between gold and silver in the new Philippine coinage system, which will soon be put into effect, but it is believed the true purpose is to facilitate the purchase of silver with which to continue the coinage of Philippine pesos.

The certificates will run a year or less, at the option of the Government. They cannot run more than a year, but may then be reissued by a new issue. The total issue of the new issue of certificates to \$10,000,000. Whether there will be an additional issue of \$4,000,000 has not yet been decided. It is believed that this may be found necessary as a security for deposits of public money, the bonds so withdrawn being used as security for additional certificates to be issued in the amount. It is expected the new issue will be similarly taken advantage of to increase the circulation.

WOULD BE BURIED IN GRAVE WITH WIFE.

Both Stricken on 52d Anniversary of Their Wedding, the Woman Died but Joseph Meyer Lingers On.

Paralyzed, unable to help himself, Joseph Meyer, of No. 10 Franklin avenue, Jersey City, is praying for death that he may be buried in the same grave with his wife, whose body is laid out awaiting burial to-morrow.

Mr. Meyer has passed the eightieth milestone and Mrs. Meyer was seventy-five years old. On Sunday, July 8, which was the fifty-second anniversary of their wedding, a celebration had been planned. Whether it was the excitement attending the preparations is not known, but on the day it was to have been held the old couple were stricken with paralysis.

Mrs. Meyer died yesterday, and the husband, who is near to death, has only the one wish that he may pass away in time to be buried with her.

Mr. Meyer was born in Baden, Germany. He was married in Jersey City, N. J. He has a family of five children. He has lived in the house in which they have lived for more than fifty years.

STABBED BY A BOY, WARD MAY NOT LIVE

Victim Received a Mortal Thrust Under the Heart While Taking Evening Walk with a Dachshund Near His Home.

DOG LEAPED UPON A GIRL.

Then Came a Quarrel with Frank Amelio, Under Sixteen, a Grocer's Clerk, Who is Held a Prisoner; Charged With the Crime.

Lester B. Ward, twenty-three years old, of No. 672 East One Hundred and Forty-eighth street, manager of a shoe store at No. 529 Willis avenue, is in Lebanon Hospital in a precarious condition from a stab wound under the heart. Frank Amelio, under sixteen years old, of No. 663 East One Hundred and Forty-eighth street, was arraigned in Morrisania Court to-day charged with the assault, and, being under age, was sent to the Children's Branch of the Court of Special Sessions.

Coroner O'Gorman took Ward's ante-mortem statement with Mrs. B. J. Reynolds at No. 672 East One Hundred and Forty-eighth street. Last night he went for a walk and took with him a dachshund. While passing the grocery store of B. Dominico at No. 663 East One Hundred and Forty-eighth street, the dachshund playfully jumped on a little girl Amelio ran out of the store, where he is employed, and kicked the dog. Ward objected and in his statement said that Dominico came out and said: "Wait a minute, I'll fix him."

Dominico then ran back to the store. Ward started to walk away. Ward said he had gone but a short distance when he felt something strike his foot. Looking down, he found that an ice pick had been thrown at him. As he turned around, the boy Amelio collected a crowd and stabbed him under the heart. Ward fell to the street and a crowd collected. A grocerman took him to Lebanon Hospital.

Ward is not expected to live.

Real estate is just one of the interesting phases of The World's Daily Want pages. Take the For Sale columns this morning for instance. There are forty-eight bargains offered. One is a dry-goods store, established twenty years; another a drug store; a candy store; a restaurant; a grocer; an ice cream parlor, etc. Also the usual daily offering of typewriters, desks, pianos, etc. So it's worth while to read World For Sale.
