

CUTTING A REAL POLITICAL BOSS

That's What Hugh McLaughlin, the Democratic Boss of Kings County, Says of the President of the Citizens' Union.

"I TAKE OFF MY HAT TO HIM," ADDS BROOKLYN MAN

"He Don't Have to Consult Any One, and It Will Be Found He Has Named Ticket from Top to Bottom."

The real political boss of New York today, according to Hugh McLaughlin, is Robert Fulton Cutting, President of the Citizens' Union. Mr. McLaughlin admits that he is a boss. But he says, when it comes to a case of nominating candidates, telling them what to do and editing their doings, Mr. Cutting wears all the medals.

Real Boss, Says McLaughlin. "Mr. Cutting," said Hugh McLaughlin today, "is the real political boss in this town. He names the candidates and he writes the letters of a candidate. When the convention comes it will be found that he has named the ticket from top to bottom. He does not consult anybody unless he wants to take off his hat to him. I take off my hat to him. I am really afraid of him. I understand he is going to join forces with Little Bill Devery. You know Bill Devery, sir, a combination of Devery and Cutting would make us quake here in Brooklyn."

Linn Bruce, President of the Republican County Committee, took a shy at Mr. Jerome today. He said: "I would not accuse Mr. Jerome of lying, but I think he must have been mistaken when he said that one of the Republican district leaders said to him, 'We (meaning the Republican organization) cannot help the nomination of Mayor Low. William Barclay Parsons, Chief Engineer of the Rapid Transit Commission, announced this afternoon that the members of the Commission had decided unanimously that there would be no ditch dug in Broadway for the new subway extension.

Transit Board Contractor McDonald and Mr. Parsons had a heated argument over the building of the Broadway spur to connect with the Brooklyn tunnel. Mr. McDonald said that if he were restricted against ditching Broadway from Ann street to Bowling Green it would take ten years to complete the extension. Mr. Parsons stood out for complying with traffic. Whatever shafts are sunk will be protected in such a way as not to interfere in the least with traffic or form obstructions to the entrances of the big stores and buildings on the great thoroughfare.
